EXECUTIVE ORDER 9543

DESIGNATING THE RECONSTRUCTION FINANCE CORPORATION AS THE AGENCY TO ACT WITH RESPECT TO CERTAIN BONDS, NOTES, AND OTHER SECURITIES ACQUIRED ON BEHALF OF THE UNITED STATES UNDER THE PROVISIONS OF THE TRANSPORTATION ACT, 1920

By virtue of and pursuant to the authority vested in me by section 213 of Title II of the Transportation Act, 1920, as amended by the act of August 13, 1940, 54 Stat. 788 (40 U.S.C. 316), I hereby designate the Reconstruction Finance Corporation as the agency authorized to sell, exchange, or otherwise dispose of, or to enter into arrangements for the extension of the maturity of, any bonds, notes, or other securities taken, held, or exchanged with respect to loans made to the Seaboard Airline Railway Company and the Seaboard-Bay Line Company pursuant to the provisions of section 210 of Title II of the Transportation Act, 1920, in such amounts, at such prices, for cash, securities or other property, or any combination thereof, and upon such terms and conditions as the Reconstruction Finance Corporation may deem advisable and in the public interest. All moneys realized through the exercise of the authority conferred by this order shall be paid to the Secretary of the Treasury for deposit to the appropriate account.

Executive Order No. 8533 of September 6, 1940, is amended accordingly.

HARRY S. TRUMAN

THE WHITE HOUSE,

April 23, 1945.

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 3rd day of April, A. D. 1945.

In the Matter of Edward W. Bullock, Individually and Trading as Bonded Jewelers of America, and Gladys Johnston, Individually

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of the respondents, in which answer respondents admitted all material allegations of fact set forth in said complaint and stated that they waived all intervening procedure and further hearing as to said facts, and the Commission having duly made and issued its findings as to the facts, conclusion, and order to cease and desist dated December 21, 1938; and the Commission having further considered said order to cease and desist heretofore issued and having served upon respondents on February 13, 1945, due notice to appear and show cause at a time and place fixed why this case should not be reopened for the purpose of modifying said order to cease and desist in the manner and to the extent set out in said notice, to which respondents failed to make return; and having considered the matter and the record herein and concluded that the public interest requires such action, the Commission issues this its modified order to cease and desist:

It is ordered, That respondents Edward W. Bullock and Gladys Johnston, their representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution of rings,

watches, and other jewelry products in interstate commerce or in the District of Columbia, do forthwith cease and desist from:

1. Representing, through the use of the trade name "Bonded Jewelers of America", or any other words of similar import or meaning, or in any other manner, that the business operated by respondents is bonded, when such is not the fact;

2. Representing that the respondents, or either of them, are the manufacturers of the products sold by them, unless and until they actually own and operate, or directly and absolutely control, the manufacturing plant wherein such products are manufactured by them;

3. Representing, designating, or describing rings as "finished with white gold", or "white gold finish", or any word or words of similar import and meaning, unless such rings are actually finished in white gold;

4. Representing, designating or describing, articles of merchandise regularly included in a combination offer with other articles of merchandise as "free", "included free", or "included free of extra charge";

5. Representing, designating, or describing watches or other articles, delivered only upon the condition that some other article be purchased and paid for, as "free", "included free", or "included free of extra charge", or in any other manner indicating that the watch or other article is a gift or gratuity;

6. Using the term "free" or any other term of similar import and meaning to designate, describe, or refer to any merchandise which is not a gift or gratuity and delivered to the recipient thereof without cost and unconditionally.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 3d day of April, A. D. 1945.

This proceeding coming on for further hearing before the Federal Trade Commission and it appearing that on July 7, 1943, the Commission made its findings as to the facts herein and concluded therefrom that respondent had violated the provisions of the Federal Trade Commission Act and issued and subsequently served its order to cease and desist; and it further appearing that on November 30, 1944, the United States Circuit Court of Appeals for the Second Circuit rendered its opinion and on December 18, 1944, issued its decree modifying the aforesaid order of the Commission in certain particulars and affirming said order in other particulars:

Now, therefore, pursuant to the provisions of subsection (i) of section 5 of the Federal Trade Commission Act, the Commission issues this, its modified order to cease and desist in conformity with said decree:

It is ordered, That the respondent Lekas and Drivas, Inc., a corporation, and its officers, agents, representatives, and employees, directly or through any corporate or other device in connection with the offering for sale, sale, or distribution of olive oil, do forthwith cease and desist from directly or indirectly:

1. Disseminating or causing to be disseminated any advertisement by means of the United States mails or by any means in commerce as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents directly or through inference,

a. That respondent's olive oil, when taken internally, has any specific therapeutic value in the treatment or prevention of any disease or condition, except a possible slight value as a laxative.

b. That respondent's olive oil is a tonic or that its use will invigorate or build up vital organs.

c. That respondent's olive oil will have any value in preventing appendicitis, gallstones, or infections of the bladder.

d. That respondent's olive oil, when applied externally, has any therapeutic value in the treatment of irritations of the skin other than that supplied by a lubricant.

e. That respondent's olive oil has any therapeutic value in the treatment or alleviation of pain resulting from neuralgia or rheumatism other than the beneficial effects which might be obtained from the rubbing or massage facilitated by the use of olive oil as a lubricant.

f. That the nutritional value of olive oil is comparable to, or of greater value than, dried or fresh meat.

g. That respondent's olive oil supplies substantial quantities of vitamins A or E or that it has any therapeutic value in the treatment of any condition where the use of such vitamins might be beneficial.

h. That respondent's olive oil contains vitamin F.

2. Disseminating or causing to be disseminated any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce as "commerce" is defined in the Federal Trade Commission Act, of respondent's olive oil, which advertisement contains any of the representations prohibited in paragraph 1 hereof and the respective subdivisions thereof.

It is further ordered, That the respondent shall, within thirty (30) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

In connection with the offering for sale, sale and distribution of watches, cameras, china and silverware, lamps, razor blades, clocks, cigaret lighters, jewelry, cosmetics, bedding, kitchenware, or any other articles of merchandise, in commerce; (1) supplying to or placing in the hands of others, pull cards or circulars having pull tabs thereon, or other lottery devices for the purpose

of enabling such person to dispose of or sell any merchandise by the use thereof; (2) mailing, shipping or transporting to his agents or to distributors or to members of the public pull cards or circulars having pull tabs thereon, or other lottery devices so prepared or printed as to enable such persons to sell or distribute any merchandise by the use thereof; (3) selling or otherwise disposing of any merchandise by the use of pull cards or circulars having pull tabs thereon, or any other lottery device; or (4) using the term "free", or any other term of similar import or meaning, to describe or refer to articles offered as compensation for distributing respondent's merchandise; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Modified cease and desist order, Crown Novelty House, Docket 3484, April 3, 1945]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 3d day of April, A. D. 1945.

In the Matter of Jacob Goldberg, an Individual Trading as Crown Novelty House

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondent, in which answer respondent admits all the material allegations of fact set forth in said complaint and states that he waives all intervening procedure and further hearing as to said facts; and the Commission having duly made and issued its findings as to the facts, conclusion, and order to cease and desist dated February 8, 1939; and the Commission having further considered said order to cease and desist heretofore issued, and being of the opinion that the public interest requires that a modified order to cease and desist should be issued in said cause; and the Commission having given due notice to the respondent to show cause on March 13, 1945, why this case should not be reopened for the purpose of modifying said order to cease and desist; and the Commission having considered the matter and the record herein, issues this its modified order to cease and desist:

It is ordered, That the respondent, Jacob Goldberg, individually, and trading as Crown Novelty House, or trading under any other name, his representatives, agents and employees, directly or through any corporate or other device in connection with the offering for sale, sale and distribution of watches, cameras, china and silverware, lamps, razor blades, clocks, cigaret lighters, jewelry, cosmetics, bedding, kitchenware, or any other articles of merchandise, in commerce, as commerce is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Supplying to or placing in the hands of others, pull cards or circulars having pull tabs thereon, or other lottery devices for the purpose of enabling such

persons to dispose of or sell any merchandise by the use thereof.

2. Mailing, shipping or transporting to his agents or to distributors or to members of the public pull cards or circulars having pull tabs thereon, or other lottery devices so prepared or printed as to enable such persons to sell or distribute any merchandise by the use thereof.

3. Selling or otherwise disposing of any merchandise by the use of pull cards or circulars having pull tabs thereon, or any other lottery device.

4. Using the term "free", or any other term of similar import or meaning, to describe or refer to articles offered as compensation for distributing respondent's merchandise.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 5th day of April, A. D. 1945.

In the Matter of Floyd Irl Sorrells, Trading as Texas Tasty Company

This proceeding having heretofore been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondent, which answer admitted all of the material allegations of fact set forth in the complaint and waived all intervening procedure and further hearings as to the facts, and the Commission having, on January 10, 1939, issued and subsequently served upon the respondent its findings as to the facts and conclusion and its order to cease and desist; and the Commission having further considered said order to cease and desist and having given due notice to the respondent to show cause, if any he had, why the proceeding should not be reopened for the purpose of modifying said order in the respects and to the extent set out in said notice, and the respondent having made no objection to the proposed modification of said order; and the Commission having duly considered the matter and the record herein,

and having concluded that the public interest requires the modification of said order to cease and desist in the respects and to the extent set out in said notice:

It is ordered, That the respondent, Floyd Irl Sorrells, an individual trading as the Texas Tasty Company or under any other trade name, his representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of confections known as "Penny Nips", whether sold under that name or under any other name, in interstate commerce or in the District of Columbia, do forthwith cease and desist from:

Representing directly or in any manner whatever:

(1) That such confection is a non-competitive article of merchandise;

(2) That such confection will remain in marketable condition in weather temperature up to 132° Fahrenheit;

(3) That the city officials of Fort Worth, Texas, or of any other city, have certified the purity of such confection, until and unless such officials have so certified respondent's confection;

(4) That the liquid in such confection is pure fruit juice;

(5) That respondent's representatives or agents will remain in the territory allotted to a dealer under contract, for the purpose of aiding the dealer in his sale of respondent's product, until the dealer has sold merchandise equaling the amount the dealer advanced to respondent's representative or agent as a consideration for the contract;

(6) That such confection will be shipped by respondent to a bonded warehouse, where the dealer may withdraw it in small quantities by paying the amount due on each small box so withdrawn;

(7) That free merchandise will be shipped to the dealer to reimburse him for expense incurred in paying shipping charges, unless such merchandise is actually shipped;

(8) That such confection will be shipped to purchasers, charges prepaid, unless it is in fact so shipped;

(9) That products similar to respondent's confection or respondent's confection have never been sold in the territory allotted to the dealer, when such is not the fact;

(10) That no state or municipal license will be charged the dealer for selling respondent's confection in the territory allotted to such dealer; and from

(11) Using the term "free" or any other term of similar import and meaning to describe, designate or refer to any merchandise which is not a gift or gratuity and delivered to the recipient thereof without cost and unconditionally.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and

form in which he has complied with this order.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of the respondent, which answer admits all of the material allegations of fact set forth in said complaint and waives all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of subsection (c) of section 2 of an Act of Congress entitled "An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes," approved October 15, 1914 (the Clayton Act) as amended by an Act of Congress approved June 19, 1936 (the Robinson-Patman Act—U. S. C. Title 15, Sec. 13):

It is ordered, That respondent Marine Products Company, a corporation, its officers, agents, representatives, and employees, directly or through any corporate or other device, in or in connection with the sale and distribution of sea-food products or other commodities in commerce" is defined in the aforesaid Clayton Act as amended, do forthwith cease and desist from:

Paying or granting, directly or indirectly, anything of value as a commission or brokerage or any compensation, allowance, or discount in lieu thereof, to any purchaser upon purchases for his own account, or to any agent, representative, or other intermediary acting in fact for or in behalf of or subject to the direct or indirect control of the purchaser to whom sale is made.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

By the Commission.

mation sought is for use in the collection of debts; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U. S. C., sec. 45b) [Cease and desist order, Solomon A. Bortz, Docket 4961, March 29, 1945]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 29th day of March, A. D. 1945.

This proceeding having been heard by the Federal Trade Commission on the complaint of the Commission, answer of the respondent, testimony and other evidence in support of and in opposition to the allegations of said complaint taken before a trial examiner of the Commission theretofore duly designated by it, report of the trial examiner upon the evidence and exceptions filed thereto, and briefs filed in support of the complaint and in opposition thereto; and the Commission having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, Solomon A. Bortz, an individual, trading under the name of Bortz & Company, Susquehanna Pen Co., or Trust Service Co., or trading under any other name or names, and his representatives, agents, and employees, directly or through any corporate or other device in connection with the offering for sale, sale, and distribution in commerce as "commerce" is defined in the Federal Trade Commission Act of mailing cards, folders, or any other printed material for use in obtaining information concerning debtors or other persons, do forthwith cease and desist from:

1. Using the words "Susquehanna Pen Co." in respondent's trade name or using any other word or words to designate or describe the business of the respondent which represent or imply that respondent's business is that of selling or distributing pens or other merchandise.

2. Using the words "Trust Service Co." or any other words of similar import or meaning to designate or describe the business of the respondent.

3. Using or placing in the hands of others for use, cards, folders, or other printed material so worded or designed as to represent or imply that the respondent is conducting an advertising campaign or is distributing pens or other merchandise free of charge for the purpose of promoting the sale of such merchandise.

4. Representing directly or by implication that persons concerning whom information is sought through respondent's cards or other printed material have or may have an interest in some estate, unclaimed asset, or other property when the information sought is for use in the collection of debts.

5. Using, or placing in the hands of others for use, cards, folders, or other printed material so worded and designed as to represent or imply that it has been

forwarded by some agency engaged in the administration of trusts or estates or engaged in locating missing heirs or persons having an interest in some estate, property, or unclaimed asset, or that the information sought to be obtained by such cards, folders, or other printed material is for use in locating such missing heirs or other interested parties when the information sought is for use in the collection of debts.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with this order.

¹ See General License Personal Baggage, § 802.11.

(a) The column headed "Gen Lic. Country Group" has reference to the destinations to which commodities may be exported pursuant to the general license granted by § 802.7 of this subchapter. The column headed "GLV Dollar Value Limits" has reference to the value limits fixed for each commodity which may be exported to certain destinations pursuant to General License "GLV" granted by § 802.10 of this subchapter. The column headed "G-POST Dollar Value Limits" has reference to the value limits fixed for each commodity which may be exported to certain destinations pursuant to General License "G-POST" granted by § 802.25 of this subchapter.

(1) When a letter appears in or at the head of any of said columns it refers to the destinations included in a country group designated in § 802.3 of this subchapter.

(2) When a number appears in or at the head of any of said columns it refers to a destination to which a number has been assigned in § 802.2 of this subchapter.

(3) When a letter followed by a plus sign (+) or a minus sign (—) appears in or at the head of any of said columns, it refers to all destinations in the designated country group including or excluding, as the case may be, the destination assigned said number.

(4) When the word "None" appears in any of said columns opposite a commodity, such commodity may not be exported under the general license applicable to the column in which such word appears.

(5) An asterisk (*) appearing in any of said columns, preceding the value limit or the word "None," means that all forms, conversions and derivatives of the particular commodity are included.

§ 801.3 Revocation of licenses. All export licenses are subject to revocation without notice.

§ 801.4 Return of revoked or expired licenses. Export licenses which have been revoked or which have expired must

be returned immediately to the Foreign Economic Administration.

§ 801.5 *Transfer of licenses.* Export licenses shall not be transferred except by written authorization of the Foreign Economic Administration.

§ 801.6 *Amendments to licenses.* No amendments may be made to export licenses except by the Foreign Economic Administration or by collectors of customs or postmasters acting under specific instructions from the Foreign Economic Administration.

§ 801.7 *Presentation for export.* No commodities, the exportation of which is prohibited or curtailed pursuant to section 6 of the act of July 2, 1940, 54 Stat. 714, as amended, shall be loaded or carried onto an exporting carrier for export by water or by air or presented to such an exporting carrier for loading or presented to the collector of customs for inspection and clearance for exportation until an original license therefor, or such other document as may be authorized in these regulations, has been presented to the collector of customs at the port at which the commodity is to be so loaded, carried or presented. No commodity shall be mailed for exportation until a license or such other document as may be authorized in these regulations, has been presented to the postmaster at the post office where the commodity is to be mailed. If the commodity is to be exported by any means of export other than by water, air, or mail, such license or other document need not be presented to the collector of customs prior to loading, carrying onto, or presentation to, the exporting carrier, but must be presented to the collector of customs at the port of exit from the United States prior to inspection by the customs inspectors or other export inspection officials at that port, and at all events prior to exportation. Upon specific authorization to a collector of customs or postmaster by the Foreign Economic Administration, the presentation of a license may be waived. The provisions of this section do not apply to exportations made pursuant to general licenses nor to exportations of technical data.

§ 801.8 *Price.* Commodities may not be exported except in accordance with the provisions of the Second Revised Maximum Export Price Regulation issued on March 30, 1943, by the Office of Price Administration (8 F.R. 4132) as amended or as it may hereafter be amended.

§ 801.9 *Arms, ammunition and implements of war, helium and tinplate scrap.* Regulations promulgated by the Secretary of State on June 2, 1942, (7 F.R. 4216 et seq.), shall continue to govern the exportation of arms, ammunition and implements of war, helium and tinplate scrap, except that an export license shall not be issued when in any case it shall have been determined by the Foreign Economic Administration that the proposed exportation would be detrimental to the prosecution of the

war or contrary to the interest of national defense.

§ 801.10 *The proclaimed list.* The exportation of any commodities or technical data, directly or indirectly, to, or on behalf of, or for the account of any person, so long as his name appears upon "The Proclaimed List", is prohibited, except when authorized in each case by an individual license upon which appears the certificate of the Foreign Economic Administration that prohibition of the exportation would work an unusual hardship on American interests. A statement as to the nature of the transaction and its effect upon American interests must be filed with any application for a license pursuant to this section.

§ 801.11 *Shipments to territories, dependencies and possessions of the United States.* No license is required for shipments from the United States to any territory, dependency or possession of the United States, except the Philippine Islands.

§ 801.12 *In transit shipments without unloading.* Commodities shipped by vessel from one foreign country and passing through the United States in transit to another foreign country may be exported without a license from the Foreign Economic Administration if, while in waters subject to the jurisdiction of the United States, they have not been unladen from the vessel on which they entered such waters.

§ 801.13 *Shipments unloaded by order of Federal Government.* When the United States Government has ordered the removal from a vessel of commodities laden under a license issued by the Foreign Economic Administration, the exporter may subsequently export such commodities under the license in effect at the time of the original lading even though, in the case of an individual or blanket license, such license has expired prior to exportation, or, in the case of a general or unlimited license, such license has been revoked prior to exportation. Such commodities may not be exported, however, under an individual or blanket license which has been revoked.

§ 801.14 *Shipments to Canada for re-exportation to another foreign country.* The exportation from the United States of all commodities enumerated in § 801.2 and all technical data as defined in § 806.1 of this subchapter to Canada (including that part of Labrador under Canadian authority) with the knowledge or intention that they are to be re-exported therefrom to another foreign destination is hereby prohibited unless there is in effect a license authorizing the exportation thereof to the country of ultimate destination. In the case of general licenses, the exporter shall place the general license number on the export declaration in the manner specified in § 802.2 (c) of this subchapter.

§ 801.15 *Prohibited exportations to certain consignees.* The exportation from the United States of all commodities enumerated in § 801.2 and all tech-

nical data as defined in § 806.1 of this subchapter to any member of the armed forces of an enemy country, who is a prisoner of war, or to any interned national of an enemy country, except pursuant to general license "GIT-IRC", is hereby prohibited, regardless of destination, unless and until an individual license authorizing such exportation shall have been issued by the Foreign Economic Administration.

§ 801.16 *Refunds of subsidy payments.* (a) No person may export any of the types or varieties of dry edible beans, processed prunes or processed raisins described in paragraph (d) of this section to any destination other than Canada unless:

(1) There has been refunded to Commodity Credit Corporation any subsidy payment made by Commodity Credit Corporation on such commodities in the amount with respect to each variety, grade and size specified in paragraph (d) of this section, and

(2) There is presented to the Collector of Customs at the port of exit, with the individual export license or release certificate authorizing the exportation of such commodities, a Certificate of Subsidy Clearance issued by Commodity Credit Corporation which shall indicate the fact that the exporter has met the requirement specified in subparagraph (1) of this paragraph in regard to refunds of subsidy payments to Commodity Credit Corporation with respect to the commodities authorized for export under such license or release certificate, or that such refund is not required for the particular shipment.

(b) Application for Certificate of Subsidy Clearance relating to the commodities set forth in paragraph (d) of this section shall be submitted to Commodity Credit Corporation on such form or forms and in such manner as may be prescribed by Commodity Credit Corporation. If a refund of subsidy payment is required, the application to Commodity Credit Corporation shall be accompanied by a certified check for the refund, payable to the Commodity Credit Corporation.

(c) Such Certificate of Subsidy Clearance shall be issued by the Commodity Credit Corporation and shall be substantially in the following form:

§ 801.17 *Exportation of gold.* Provisional Regulations promulgated by the Secretary of the Treasury under the authority of the Gold Reserve Act of 1934 (31 CFR, Part 54) as amended or as the same may be amended from time to time shall govern the exportation of gold except that the exportation of fabricated gold (as defined in said Provisional Regulations, except dental gold) of which not more than 80% of the total value is attributable to the gold content shall also be subject to the regulations prescribed in this subchapter. For the purpose of this section "fabricated gold" shall be construed to include ceramic gold, gold wire, gold leaf, gold foil, and other similar types of fabricated gold (as defined in said Provisional Regulations) of which not more than 80% of the total value

is attributable to the gold content, but shall not include dental gold.

§ 801.18 *Exports for the account of United Nations Relief and Rehabilitation Administration.* All commodities procured for the account of the United Nations Relief and Rehabilitation Administration by the Procurement Division of the Treasury Department, the Department of Agriculture, the War Department or any other United States Government procurement agency pursuant to authority granted by the Foreign Economic Administration in a Commitment Letter duly issued to such United States Government procurement agency may be exported by or for the account of the United Nations Relief and Rehabilitation Administration, without regard to any of the other regulations contained in this subchapter. Collectors of Customs are authorized to clear such shipments for export without requiring presentation of the Commitment Letter or any other export license document provided such shipments are cleared under a Defense Aid Shipper's Export Declaration (Department of Commerce Form 7525-DA-V) containing reference to the requisition number or numbers under which such commodities were procured and such requisition number or numbers are identified by the prefix symbol "UA".

(b) No exportation may be made pursuant to any general license granted in this part unless prior to said exportation, whenever required by the Regulations for the Collection of Statistics of Foreign Commerce and Navigation of the United States, a Shipper's Export Declaration has been filed with the United States Collector of Customs at the port of exit or with the United States Postmaster at the place of mailing; or, unless, whenever the filing of such Shipper's Export Declaration is not required, an oral export declaration describing the commodity or commodities to be exported is made to the United States Collector of Customs at the port of exit, by the exporter when he carries the same out of the country.

(c) A person exporting any commodity pursuant to any general license granted in this part shall state on the Shipper's Export Declaration the name of the person to whom such commodity is ultimately consigned, and the designation or symbol of the general license authorizing said exportation. Whenever such exportations are forwarded by mail the designation or symbol of the general license authorizing the same shall be written in ink on the address side of the wrapper of the parcel.

(b) When a commodity is placed under general license to a particular "country group" it may, subject to the provisions of this subchapter, be exported to any country in that group.

§ 802.4 *Re-exportation from country of destination.* No exportation may be made under any type of general license with the knowledge or intention that the commodities so exported are to be re-exported from the country of destination, unless the re-exportation has been authorized by the Foreign Economic Administration.

§ 802.5 *Consignor control under general license.* (a) General licenses may be revoked or suspended as to any person in any destination.

(b) Shipment under a general license may be made to any consignee in the country of destination except:

(1) To any person as to whom the general license has been revoked or suspended; or

(2) To any person on "The Proclaimed List"; or

(3) To a member of the immediate family or an agent or representative of any person named on "The Proclaimed List"; or

(4) To any person when by reason of the sale, purchase or any service connected with the exportation, a commission, fee, remuneration or other benefit accrues to any person on "The Proclaimed List".

(5) To any member of the armed forces of an enemy country who is a prisoner of war or to an interned national of an enemy country, unless made pursuant to General License "GIT-IRC".

§ 802.6 *Consignor control under general license.* General licenses may be revoked or suspended as to any person within or without the United States by an order issued pursuant to the provisions of Part 807 of this subchapter.

§ 802.7 *Country group general licenses.* General licenses are hereby issued authorizing exportation of the commodities set forth in the column "Commodity" to the destinations designated opposite each commodity in the column "Gen. Lic. Country Group" in § 801.2 of this subchapter. Where the word "none" appears in said column "Gen. Lic. Country Group" opposite a

commodity, such commodity may not be exported under the general license granted by this section.

§ 802.8 *General license "GUS".* A general license designated "GUS" is hereby granted authorizing exportations as follows:

(a) *To members of the United States Armed Services.* Commodities in quantities sufficient solely for the personal use of the consignees and their immediate families; articles for personal use may include household effects, food, beverages, and daily necessities.

(b) *To representatives of the United States.* (1) Exportations for the personal use of the consignee, and/or his immediate family and/or employees; articles for personal use may include household effects, food, beverages, and daily necessities.

(2) Exportation of equipment and supplies for the office use of the representative or for use by the representative or his employees in the performance of their official duties. Under this general license the following classes of commodities are included: Stationery supplies, typewriters, adding machines, office furniture, and other comparable office equipment; cleaning supplies, mechanical and electrical supplies and other building maintenance supplies; uniforms, motor cars and trucks, and automobile parts; flags, foodstuffs, books, professional and scientific instruments, apparatus and supplies; medicinals, medical supplies and vaccines; photographic equipment, including unexposed film, plates, and paper.

§ 802.9 *General in transit licenses "GIT".* (a) Definitions. When used in this section:

(1) "In transit shipment" shall mean a shipment of a commodity or commodities from one foreign destination to another foreign destination, via the United States, for which no formal or informal consumption entry has been made at a United States customhouse.

(2) "S Countries" shall mean the following: Argentina, Eire, French West Africa, French North Africa, Portugal, Portuguese Atlantic Islands, Portuguese Guinea, Spain, Spanish Atlantic Islands, Spanish and International Morocco and Tangier, Sweden, Switzerland, and Turkey.

(3) "M Countries" shall mean the following: Aden, Anglo-Egyptian Sudan, Arabia (Saudi), British Somaliland, Cyprus, Egypt, Eritrea, Ethiopia, French Somaliland (French Somali Coast), Iran, Iraq, Italian Somaliland, Kamaran Island (Aden), Khorya-Morya Island (Aden), Lebanon (Syria), Libya, Perim Island (Aden), Saudi Arabia, Sokotra Island (Aden), Sudan (Anglo-Egyptian), Syria, Trans-Jordan and Palestine, and Yemen.

(4) "Y Countries" shall mean the following: Australia, Burma, India, New Zealand, Union of South Africa, British Colonies including only Aden, Bahamas, Barbados, Bermuda, British Guiana, British Honduras, Ceylon, Cyprus, Fiji, Gambia, Gold Coast, Jamaica, Kenya, Leeward Islands, Nigeria, Northern Rhodesia, Nyasaland, Palestine and Trans-

Jordan, Seychelles Islands, Sierra Leone, Tanganyika, Trinidad, Uganda, Western Pacific Islands, Windward Islands, Zanzibar.

(b) General licenses are hereby granted authorizing, subject to the other provisions of this section, the exportation of "in transit shipments" from those countries of origin to those countries of destination set forth directly opposite the respective general license designation for each such license in the following table.

General license designation	Countries of origin	Countries of destination
GIT-A/A.....	All countries except enemy or enemy occupied countries.	All countries except enemy or enemy occupied countries, "S Countries" and "M Countries".
GIT-C/MS.....	Canada.....	"S Countries" and "M Countries".
GIT-Y/S.....	"Y Countries"....	"S Countries".

(c) There is hereby granted a general license designated GIT-C/P authorizing the exportation of commodities passing through the United States, in transit, to Portugal: *Provided*, That such exportations are consigned by the Canadian Red Cross Society to an agent of such Society and destined for British prisoners in Germany.

(d) No exportation may be made pursuant to general license GIT-C/MS, except to "M Countries" and when consigned to the Armed Forces of the United Nations, unless a Canadian export permit or British Imperial Export License, specifying the nature of the shipment and ul-

timate consignee in the country of destination, is surrendered to the United States Collector of Customs at the last port of exit from the United States.

(e) No in transit shipment originating in Portugal, Spain, Switzerland or Sweden may be exported pursuant to any general license granted in this section unless there is presented to the United States Collector of Customs at the last port of exit from the United States a Certificate of Origin and Interest issued pursuant to directions of the Joint Anglo-American Blockade Committee, or a document replacing such certificate issued by a British consular officer in the United States, and unless the name and address of the ultimate consignee shown on said certificate or replacement document shall be the same as that shown on the pertinent shipping documents.

(f) The following commodities shall not be exported pursuant to any general license granted in this section except,

(1) When such commodities are incorporated in "in transit shipments" proceeding (i) from any destination in the British Empire to any other destination in the British Empire, (ii) from Mexico to any other part of Mexico, (iii) between the Republic of Panama and any destination within the scope of General License GIT-A/A through the Panama Canal Zone, (iv) from Canada to any designated country of destination.

(2) Quinine and quinine preparations when proceeding through the Panama Canal Zone from one of the countries listed under Group V in § 802.3 (a) to any other Group V country except Argentina:

(g) There is hereby granted a general license designated "GIT-IRC" authorizing the exportation of relief supplies passing through the United States, in transit, to prisoners of war or civilian internees at any destination: *Provided*, That an International Red Cross representative in the United States shall certify to United States Collectors of Customs at ports of entry and exit that such supplies are for ultimate distribution to or use of prisoners of war and/or civilian internees.

(h) No shipment shall be made pursuant to general license "GIT-Y/S," except when destined to Argentina, unless a British Imperial Export License specifying the nature of the shipment and ultimate consignee in the country of destination is surrendered to the Collector of Customs at the last port of exit from the United States.

§ 802.10 *Shipments of limited value "GLV"*—(a) *Definitions*. When used in this section:

(1) "Net value" shall mean the actual selling price less shipping charges or the domestic market price at the time and place of shipment whichever is the larger.

(2) "Domestic market price" shall mean the Office of Price Administration ceiling price which may be charged to the same type of purchaser in the United States or, where no ceiling price has been established, the current market price.

(3) "Single shipment" shall mean all commodities classified under a single Department of Commerce Schedule B number which move at the same time from one exporter to one importer on the same exporting carrier.

(4) "Medicinal" shall mean any pharmaceutical, drug, or chemical usable for the preventing, healing, curing, alleviating, or treating of disease and for which there is no accepted industrial use.

(5) "Restricted medicinal" shall mean any medicinal having a value limitation preceded by an asterisk (*) under the column headed "GLV Dollar Value Limits" set forth in § 801.2 of this subchapter.

(6) "Group K" and "Group G" shall mean those destinations designated as such in paragraph (a) of § 802.3.

(b) *General License "GLV"*. A general license designated "GLV" is hereby granted, subject to the special provisions for medicinals and for exports to Mexico specified in paragraphs (d) and (f) of this section, authorizing the exportations of all commodities, except those listed in paragraph (e) of this section, to any destination in Group K and Group G and to Argentina where, in a single shipment, the net value does not exceed the value limit specified for such commodity and destination in § 801.2 of this subchapter under the column headed "GLV Dollar Value Limits". Where an asterisk (*) precedes a value limit for any commodity, all forms, conversions, and derivatives of such commodity even though not covered by the Schedule B number listed, are subject to the value limit specified. If reference is made to a footnote, the limitations specified in such footnote shall govern notwithstanding any other provisions.

(c) *Use of other general licenses not restricted*. The provisions of this section shall not be construed as limiting the use of any other general license specifically authorized.

(d) *Special provisions for medicinals*. Medicinal preparations or mixtures containing any restricted medicinal may be exported under this general license to any destination in Group K or Group G and to Argentina where, in a single shipment, the value of each restricted medicinal contained in such medicinal preparation or mixture does not exceed the value limit specified for such restricted medicinal and destination: *Provided*, That, in the case of exportations to any destination in Group G and Argentina, the total net value of such medicinal preparations or mixtures in a single shipment shall not exceed \$25.00.

(e) *Prohibited exportations*. The following articles may not be exported in any amount to any destination under this general license:

Aircraft parts, equipment, and accessories other than those listed in the President's Proclamation of April 9, 1942 (Proc. 2549, 7 F.R. 2769)

(f) *Special provisions for Mexico*. (1) Exportations to Mexico under the provisions of general license "GLV" are permitted only when such shipments are made in conformity with one of the following two conditions:

(i) The shipment is a "single shipment" as defined in paragraph (a) of this section: *Provided*, That such shipment is transported by a common carrier or is a mail shipment; or

(ii) If the shipment is not a mail shipment or is transported otherwise than by a common carrier, not more than one such shipment may be made by or on behalf of the same exporter to or for the account of the same ultimate consignee during the same calendar week.

(2) Any person making an exportation to Mexico under this general license which is not a mail shipment and which is to be transported otherwise than by common carrier shall enter on his Shipper's Export Declaration covering such shipment a certification in the following form:

The undersigned certifies to the Foreign Economic Administration that the merchandise above described is the only shipment of the commodity(ies) classified under the Schedule B number(s) set forth herein to be exported under the provisions of general license "GLV" by the undersigned exporter to the consignee named herein during the current calendar week.

Signed

(3) Collectors of Customs are authorized to limit or prevent altogether the

exportation of any commodity to Mexico under this general license whenever they shall have cause to suspect that such exportation is being made for the purpose or with the intent of evading any of the regulations of the Foreign Economic Administration.

(4) In any case where the Collector of Customs determines that the limitations in subparagraph (1) (ii) of this paragraph would create an unnecessary hardship or that an emergency exists in a particular case, he is authorized to permit more than one such shipment in a calendar week under this general license: *Provided*, That the value of each such shipment does not exceed the value limitation provided for the commodities included in such shipment under this general license.

§ 802.11 *Personal baggage.* (a) A general license designated "Baggage" is hereby granted, subject to the provision set forth in paragraphs (b) and (c) of this section, authorizing the exportation of the following classes of commodities when they are exported or taken out of the United States as personal baggage by a person leaving the United States, for his individual use and, unless otherwise specified, for the use of his immediate family.

(1) *Personal effects:* Clothing, books, toilet articles, articles of personal adornment, foodstuffs, personal firearms, hunting guns, cameras, radios, souvenirs and similar articles.

(2) *Household articles:* Furniture, refrigerators, radios, decorations and other household furnishings.

(3) *Professional instruments and tools of trade:* All instruments, tools and apparatus, including typewriters, which are used by the person in his profession or trade.

(4) *Motor vehicles:* Automobiles, trailers and trucks.

(b) *General limitations to the use of this general license.* (1) No article intended for resale in a foreign country may be exported under this general license.

(2) Subject to examination by or under the authority of the Office of Censorship, unexposed photographic films, plates, and photographic paper may be exported under this general license.

(3) Platinum in the form of jewelry and in the form of other articles of personal adornment may be exported under this general license only when it is certain that such articles will be used as articles of personal adornment and for no other purpose.

(4) Personal firearms and hunting guns exported under this general license shall be limited to three guns per person.

(5) Motor vehicles may be exported under this general license subject to the following provisions:

(i) Permanent residents of the United States may export motor vehicles under this general license when the vehicle is the personal property of the exporter and is exported solely for the use of the exporter or his family.

(ii) Persons residing in the United States and departing to take residence abroad may export motor vehicles under this general license if the vehicle to be

exported was acquired not less than six months prior to the date of export and is intended solely for the use of the exporter or his family.

(iii) Nonresidents who have brought motor vehicles into the United States may export such motor vehicles under this general license.

(6) Radios exported under this general license are subject to United States Navy orders which require that they must either be put in storage as freight or placed in the custody of the Master of the vessel before they leave the United States. In addition, radios which operate by means of batteries must have their batteries and tubes disconnected before they are so stored or placed in the custody of the Master of the vessel.

(7) All exportations under this general license shall be limited to quantities sufficient solely for the personal use of the exporter and his immediate family, unless otherwise specifically provided in this section.

(c) *Special provisions applicable to the use of this general license.* (1) "United Nations' vessel" shall mean any vessel within the provisions of § 802.13 (a) (1).

(2) *What passengers may take.* (i) Passengers leaving the United States by plane, by United Nations' vessel, or by any form of land transportation may export personal effects, household articles, professional instruments and tools of trade and motor vehicles: *Provided*, That the quantity of food exported by any such passenger shall not exceed \$10.00 in value.

(ii) Passengers leaving the United States on a vessel which is not a United Nations' vessel may export the same commodities as persons who leave by United Nations' vessel with the exception of the following articles: radios, radio parts, foodstuffs, cameras, electrical apparatus, scientific instruments, technical books, and not more than one fountain pen.

(3) *What crew members may take.*

(i) Crew members leaving the United States on United Nations' vessels may export under this general license personal effects, and such professional instruments as are customarily used by seamen and which the Collector of Customs approves: *Provided*, That no crew member shall export more than one pair of new shoes, nor food in quantities in excess of \$5.00 net value: *And further provided*, That the total net value of all commodities taken by a crew member for other than his own personal use shall not exceed \$25.00.

(ii) Crew members leaving the United States on a vessel which is not a United Nations' vessel may export personal effects subject to the following provisions:

(a) That no personal effects, for which OPA ration currency or coupon must be surrendered, may be exported.

(b) That the total net value of all commodities which are exported for other than the individual use of the crew member shall be limited to \$10.00.

(c) That none of the following articles shall be exported: radios, radio parts, foodstuffs, cameras, electrical apparatus and appliances, scientific instruments, technical books, and not more than one fountain pen.

§ 802.12 *Photographic film, plates and paper "GPF"* A general license designated "GPF" is hereby granted authorizing the exportation of developed photographic film, plates, paper or prints to all destinations to which the Foreign Economic Administration has assigned general license numbers in § 802.2 (a): *Provided*, That the exportation is made in accordance with the requirements of the United States Office of Censorship.

§ 802.13 *Ship and plane stores, supplies and equipment; dunnage "GLD"*. (a) General licenses are hereby issued permitting exportation on freight or passenger vessels:

(1) (i) Owned by or under charter to the United States Maritime Commission, War Shipping Administration, British Ministry of War Transport, Canadian Department of Munitions and Supply, or the Soviet Government Purchasing Commission, proceeding to any destination; or

(ii) Which have been approved to the Collector of Customs by special authorization from the Requirements and Supply Branch; or

(iii) Which have secured an authentic and acceptable document from the War Shipping Administration, British Ministry of War Transport, Canadian Department of Munitions and Supply, or the Soviet Government Purchasing Commission, certifying that the vessel is operating on the instant voyage in the interest of the respective agency issuing the certificate; or

(iv) Of registry of countries designated by numbers 1 to 3, 5 to 58, 60 to 67, 71 to 81, or 99 in § 802.2 (a), or the Netherlands, Norway, or Poland: *Provided*: That the destination of such vessels shall be one of the aforementioned countries; of the following commodities:

(2) (i) Bunker fuel for use or consumption on board during the outgoing and any immediate return voyage, which, in the case of exportation on a vessel operating under a certificate issued by one of the agencies described in subparagraph (1) (iii) of this paragraph, shall not exceed the amount recommended by an authorized representative of the War Shipping Administration by endorsement on said certificate.

(ii) Other ordinary ship stores, sea stores and supplies for both port requirements and use or consumption on board such vessels during the outgoing voyage and any immediate return voyage scheduled in such quantities as the Collector of Customs deems necessary and reasonable.

(iii) Equipment and spare parts intended for permanent use on such vessels when necessary for their proper operation and approved by the Collector of Customs: *Provided*, That no new marine diesel engine (Schedule B Nos. 7145.00 and 7146.00) the installation of which is to take place at dockside, may be exported under this general license except new marine diesel engines installed in shipyards under the jurisdiction of the Coordinator for Ship Repairs and Conversions, U. S. Maritime Commission.

(b) (1) A general license is hereby granted authorizing the exportation of food stores for consumption on vessels

during the outgoing and any immediate scheduled return voyage; *Provided*, That:

(i) The total amount of said food stores does not exceed beyond 20 per cent, an amount equal to 6.25 pounds times the number of days of the voyage for every crew member and passenger carried by such vessels; plus a tolerance not to exceed .15 pound per man per day, when, due to packaging, food stores cannot be split up; and

(ii) The total amount of any specific food item, class or group of food items does not exceed the amount set forth for said food item, class or group of food items in subparagraph (4) of this paragraph.

(2) The operators of vessels shall furnish to the Collector of Customs requisitions based upon the information set forth in said food list, and shall furnish the following additional information: name of vessel; nationality; name of agent; approximate number of days required for the outgoing and return voyage; the vessel's probable itinerary, and the number of crew and passengers. When presenting a requisition for cigarettes to Collectors of Customs the operators of vessels shall also submit an inventory of the total number of cigarettes on board such vessels at the time of arrival in port.

(3) Foodstuffs to be used as lifeboat provisions are considered as "deck stores", and are not within the purview of this section.

(4) *Item and allowance authorized per man per day.* The allowable quantities per man per day are indicated in the table following. Where a number preceded by an asterisk (*) appears immediately after a food item, this refers to the conversion factor applicable to such item for the purpose of determining food value equivalents. In the case of such items, the weight shall be multiplied by said number in computing the total amount authorized for a certain item within the particular group or class. For example, each pound of dehydrated vegetables will use 6 pounds of the total of Group 6 food stores permitted under this general license.

(5) Upon specific authorization to Collectors of Customs by the Foreign Economic Administration food stores in excess of the amounts otherwise authorized in this section may be exported under this general license.

(c) General licenses are hereby granted permitting the exportation in planes departing from the United States of fuel, ordinary plane stores and supplies for use or consumption during the outgoing trip of such planes and any immediate return trip scheduled, and of equipment and spare parts when necessary for the proper operation of such planes.

(d) *Dunnage*—(1) *Definition.* When used in this paragraph:

(i) "Dunnage" shall mean any lumber of a grade No. 3 common or lower, matting, jute or burlap bagging, paper or other materials customarily used to secure or stow cargo aboard a vessel, when such materials are not carried as cargo and not assessed freight charges. Materials of better quality than herein defined may be used as dunnage only when it has been established to the satisfaction of the United States Collector of Customs that ordinary grades are unobtainable.

(ii) A general license designated "GLD" is hereby granted authorizing the exportation of dunnage when exported solely for use as dunnage on the immediate voyage of an exporting carrier; *Provided*, That the amount of said dunnage to be exported on any such carrier

does not exceed the amount necessary to properly stow or secure the cargo then being carried.

§ 802.14 *Metal drums and containers "G-MDC".* A general license designated "G-MDC" is hereby granted authorizing the exportation to any destination of all metal containers, except new gas cylinders, when filled with any commodity the exportation of which has been authorized by any type of export license issued by the Foreign Economic Administration or the Department of State.

(c) A general license designated "G-CMP" is hereby granted authorizing the exportation to destinations in Group K as set forth in paragraph (a) of § 802.3, of controlled material which has been purchased in accordance with the provisions of Direction 53 to said CMP Regulation No. 1: *Provided*, That for each shipment made under this gen-

eral license the following certification shall be endorsed on each Shipper's Export Declaration:

The undersigned certifies to the Foreign Economic Administration (1) that the materials covered by this shipment have been purchased in accordance with the provisions of Direction 53 to CMP Regulation No. 1 of the War Production Board and (2) that, to the best of his knowledge and belief, these materials will be used by the consignee only for maintenance, repair, and operating supplies (not including capital additions) and such use will be in accordance with existing conservation and limitation orders of the War Production Board.

PART 803—UNLIMITED LICENSES

Sec.
803.1 General provisions.
803.2 Commodities and countries of destination.

§ 803.1 General provisions. (a) Unlimited licenses are hereby issued to the foreign purchasing agencies provided for in this Part permitting the exportation of certain commodities to specific destinations as provided in § 803.2 subject to the following conditions:

(1) The unlimited license may not be used except by written authorization of the licensee.

(2) In lieu of presenting the license, the person authorized to use such license may present a document entitled "Release Certificate" issued by the licensee, addressed to the Collector of Customs, and containing substantially the following:

- (i) Date of issuance.
- (ii) The name and address of the exporter.
- (iii) That the exporter is the agent of the licensee for the purpose of making the described shipment.
- (iv) The country of destination.
- (v) A description of the commodity, quantity and value.
- (vi) A reference to the unlimited license against which shipment is made.
- (vii) Date of expiration.
- (viii) Signature of an authorized officer of licensee.

(3) Application for a release certificate to use any unlimited license shall be made to the licensee.

(4) Where a commodity listed in § 803.2 may be shipped under general license to the destination for which an unlimited license is in effect, such commodity shall be shipped under the general license.

(5) A separate release certificate must be presented for each shipment.

§ 803.2 Commodities and countries of destination. The unlimited licenses referred to in § 803.1 with the destinations to which shipments may be made and commodities which may be exported under such licenses are as follows:

(a) Universal Trading Corporation (630 Fifth Avenue, New York, New York), destination: Unoccupied China.

§ 804.1 General provisions. (a) The commodities enumerated in § 801.2 of this subchapter may not be exported to destinations other than Canada (including that part of Labrador under Canadian authority) except pursuant to individual licenses issued by the Foreign Economic Administration, unless exportation is authorized by general, unlimited, or other form of license issued by the Foreign Economic Administration.

(b) Application for an individual license shall be made on the form or forms and in the manner prescribed by the Foreign Economic Administration. All terms, conditions, provisions, and instructions contained in such form or forms are hereby incorporated as a part of the regulations in this subchapter.

(c) The return post card furnished with each application must be filled in and submitted to the Foreign Economic Administration with the application.

(d) When countersigned by an authorized officer of the Foreign Economic Administration, the application shall become a license authorizing, subject to the provisions of this subchapter, the exportation of the quantity of those commodities described therein to the

purchaser and consignee in the designated destination.

(e) When a license is issued, the case number assigned by the Foreign Economic Administration becomes the license number.

(f) An individual license is valid for a period of one year unless the period of validity is reduced or extended by the Foreign Economic Administration or is otherwise stated on the license.

(g) No application for an individual license shall be made unless and until the applicant has a firm order for the commodities covered by the application from the purchaser stated in such application.

§ 804.2 Applications for licenses. (a) License applications may be made by any person subject to the jurisdiction of the United States, who is in fact the exporter, or by his duly authorized agent. An applicant not subject to the jurisdiction of the United States must show that unusual hardship would result from a refusal to consider the application.

(b) A separate and complete application must be submitted for each commodity to each consignee in each country of destination except that a single application may include a group of related commodities under the conditions prescribed by the Foreign Economic Administration where all such related commodities included in a single application are destined for a single consignee in a single country of destination and except that an application for a blanket license for export to more than one consignee in a single country of destination may be submitted in accordance with the provisions of Part 809 of this subchapter.

(c) Where partial or periodic shipments of an identical commodity are being made by the applicant to the same consignee in a foreign country, an application may be filed covering the entire quantity of commodities to be so exported, and if a license is issued, partial shipments may be made from time to time during the life of the license.

(d) A second application covering the same proposed exportation shall not be submitted pending action on the first application.

(e) All information pertaining to an application for an export license must be attached to the license application at the time it is originally filed. Additional information concerning the application for the license will not be attached after it has been received by the Foreign Economic Administration.

(f) An applicant must not submit more than one application for a license to export commodities designated under one Department of Commerce Schedule B number and for which the applicant has a single firm order unless authorized by the Foreign Economic Administration.

§ 804.3 Expired, revoked and unused licenses. (a) If a license expires before complete shipment has been made, the licensee shall return the expired license to the Foreign Economic Administration but may make a new application for the unshipped balance.

(b) If the license is revoked, expires or if shipment is not to be made, the license shall be returned immediately to the Foreign Economic Administration, with a covering letter explaining the reason for such return. If the license is not in his possession, the licensee shall notify the Foreign Economic Administration.

§ 804.4 Weight and volume tolerance. (a) For all commodities requiring an export license, a ten percent (10%) tolerance by weight or volume over the amount specified in the license is allowed, except as noted below:

Bunker fuel and petroleum products, licensed for export on FEA Form 151.	None.
Pharmaceuticals and finished drugs.	1 percent.
Platinum and platinum group metals.	1 percent.
Industrial diamonds.	Nearest carat.
Radium and radium salts.	Nearest 100 milligrams.
Uranium and uranium salts.	Nearest 100 milligrams.

(b) This tolerance is allowed only when the unit of quantity called for on the license application is in terms of weight or volume and shall not be allowed where the unit of quantity called for is in terms of units, except as provided in paragraph (g) of this section.

(c) In all cases, the tolerance shall be allowed on the basis of the actual quantity stated in the license.

(d) Whenever one or more partial shipments of the licensed commodity have been made, the license remains valid only for the unshipped balance of the licensed commodity, plus ten percent (10%) of such balance; but this provision will not apply in the case of commodities listed under paragraph (a) of this section.

(e) A tolerance up to ten percent (10%) in value over the value specified on the license is allowed on shipments where there is a proportionate increase in quantity.

(f) The exporter may reduce the price per unit of quantity stated in the license whenever he so desires.

(g) Where the amount or quantity on a license is required to be shown in number of units, a tolerance is allowed only as follows:

Cotton and jute bags.	2%
-----------------------	----

§ 804.5 Port of exit. (a) Commodities which leave the United States at one port, cross adjacent foreign territory, and re-enter the United States at another port before final exportation to a foreign country, will be treated as an export at the last port of exit from the United States.

(b) A license may be used for exportation from any port of exit from the United States subject to the jurisdiction of the United States unless the Foreign Economic Administration shall otherwise direct.

§ 804.6 Duplicate licenses. Where a license is lost or destroyed, a duplicate of such license may be obtained by the licensee in accordance with the following procedure:

(a) Another application identical in all respects to the former and marked "Duplicate" must be submitted.

(b) An affidavit must be attached to the new application stating:

(1) That the original license has been lost or destroyed.

(2) What commodities, if any, have been shipped under the original license.

(3) That affiant agrees to return the original license to the Foreign Economic Administration if it is found.

§ 804.7 Special provisions concerning applications to export certain commodities—(a) Chemicals and medicinals. All applications for license to export chemicals, medicinals, and pharmaceuticals shall state such facts relating to grade, form, concentration, mixtures, or ingredients as may be necessary to identify the commodity accurately, and must state fully how the shipment will be packed. Applications covering the following commodities, in any form, conversion, or derivative, or contained in any preparation, must state the net quantity of such commodity, or its equivalent in appropriate units, as follows:

Commodity	Units
Insulin.	Standard units.
Ipecac.	Grams, ounces, or pounds equivalent of ipecac root.
Quinine.	Grams, ounces, or pounds equivalent of quinine sulphate.
Acetylsalicylic acid, (aspirin), Caffeine, Sulfonamides, Total-quinine, Emetine.	Grams, ounces, or pounds of each drug.

(b) *Coal-tar colors, dyes, stains and color lakes.* All applications for licenses to export coal-tar colors, dyes, stains, and color lakes must be prepared in accordance with the following requirements:

(1) The color index number must be stated, or, if there is no color index number, the basic organic raw material included in the dye must be specified.

(2) The compounds must be classified according to the list below, stating the quantity and the quota value of each class available for export under the provisions of Conservation Order M-103 issued by the War Production Board:

(i) Class A dyes as defined and of the shades listed in Conservation Order M-103 issued by the War Production Board.

(ii) Class B dyes—all anthraquinone vat dyes other than those included in Class A.

(iii) Class C dyes—all anthraquinone dyes other than anthraquinone vat dyes.

(iv) Class D dyes—all dyes other than Classes A, B, and C which are not derived from vegetable or animal sources and are synthesized or produced in whole or in part from benzene, aniline, toluene, phthalic anhydride, phenol, cresols, xylenols, or derivatives of any of the foregoing.

(c) *Containers.* (1) Containers, other than those made of metal, require no license when exported filled.

(2) With the exception of new gas cylinders, all metal containers, regardless of capacity, when filled with commodities the exportation of which has

been authorized under a license issued by the Foreign Economic Administration or the Department of State, may be exported under the general license set forth in § 802.14 of this subchapter.

(3) All drums, gas cylinders and other metal containers, when exported empty, require an individual license for export unless such exportation is made pursuant to the provisions of paragraph (c) of § 802.26 of this subchapter.

(d) *Cotton and rayon remnants.* (1) The remnants and mill ends classified under Schedule B No. 3849.90 include only those remnants and mill ends made wholly or chiefly of rayon and other synthetic fabrics which are sold by the pound and which (i) are less than ten (10) yards in length and (ii) have been unavoidably created in the normal course of manufacturing or processing.

(2) The remnants and mill ends classified under Schedule B No. 3089.50 include only cotton remnants and mill ends sold by the pound and which (i) are less than ten (10) yards in length and (ii) have been unavoidably created in the normal course of manufacturing or processing.

(3) Cotton and rayon remnants or mill ends which have been sewn together into pieces longer than ten (10) yards may not be classified as remnants under Schedule B No. 3849.90 or under Schedule B No. 3089.50 but should be classified under the appropriate Schedule B number for cotton piece goods or rayon fabrics.

(4) The exportation of cotton or rayon remnants and mill ends classified under Schedule B No. 3849.90 or Schedule B No. 3089.50 in any export license heretofore or hereafter issued is hereby prohibited unless the merchandise presented for export conforms to the foregoing provisions of this paragraph.

(e) *Farm machinery.* Each application for an individual license submitted by a manufacturer to export farm machinery, equipment and repair parts produced by the applicant under War Production Board Order L-257a (except horseshoe nails), must be accompanied by a signed statement, in duplicate, containing the following information:

(1) The net shipping weight of the export quota assigned to the applicant for the country of destination under the provisions of War Production Board Order L-257a.

(2) Total net shipping weight of all charges against applicant's quota for the country of destination since July 1, 1944, exclusive of pending applications for licenses.

(3) The net shipping weight on applications filed by applicant to the country of destination, pending action, including this application.

(4) The net shipping weight of commodities included on this application.

The foregoing statements shall be certified by the applicant in the following form:

The statements made above are to be considered a part of our attached export license application covering equipment the production of which is authorized by War Production Board Order L-257a.

(Signature of applicant)

Each application for an individual license to export farm machinery, equipment and repair parts, produced under War Production Board Order L-257a (except horseshoe nails), submitted by any person other than the manufacturer, shall be accompanied by a statement or letter from the manufacturer thereof authorizing the applicant to charge the material to the manufacturer's quota for export to the country of destination.

(f) *Steel products.* (1) All applications for licenses to export any steel commodities must state whether the steel is "stainless steel", "alloy steel other than stainless", or "not containing alloy". For purposes of this paragraph, these categories are defined as follows:

(i) *Stainless steel.* Includes all steel (other than tool steels) containing 9 per cent or more of chromium, with or without other alloys, or a combined content of 18% or more of chromium and other alloys.

(ii) *Alloy steel other than stainless.* Includes only steel where the minimum of the range specified in any of the elements named exceeds the following percentages:

0.10-----	Molybdenum.
0.30-----	Chromium.
0.40-----	Nickel.
0.50-----	Copper, silicon.
1.65-----	Manganese.
0.00-----	Cobalt, titanium, tungsten, vanadium zirconium.

(2) Separate applications for licenses to export any steel commodities are required for each of the three following categories and for each of the various steel commodities, even though the same Department of Commerce Schedule B commodity number is applicable to all three categories:

(i) Not containing alloy.

(ii) Stainless steel (includes stainless iron).

(iii) Alloy steel other than stainless.

(g) *Metals.* (1) All applications for licenses to export any ferrous or non-ferrous commodities (except all ores, concentrates, smelter and refinery residues and unrefined products covered by paragraph (h) of this section), listed under iron, iron and steel, ferro-alloys and non-ferrous metals in the schedules set forth in § 801.2 of this subchapter, except chemicals and refractories, if containing any of the elements listed below, must include a statement of weights in pounds, if amounting to ten or more pounds, of each such element if present in percentages in excess of the minimum indicated below:

15 percent or more:	5 percent or more:
Copper	Antimony
Lead	Cadmium
Zinc	Chromium
10 percent or more:	Cobalt
Aluminum	Nickel
Bismuth	Tin
Magnesium	Tungsten
Manganese	Vanadium
Mercury	Any percent:
Molybdenum	Beryllium
Titanium	Columbium
	Tantalum
	Uranium
	Zirconium

(2) All applications for licenses to export any ferrous or non-ferrous commodities covered by subparagraph (1) of this paragraph must contain a statement of the weight of each of the following elements, regardless of amount, in the unit of quantity indicated below:

Platinum group metals.....	In troy ounces.
Radium.....	In grams.

(h) *Ores, concentrates, etc.* (1) All applications for licenses to export ores, concentrates, smelter and refinery residues or unrefined products (listed in the schedule set forth in § 801.2 of this subchapter under the headings iron, iron and steel, ferro-alloys, and non-ferrous metals, except chemicals and refractories), containing any of the elements listed below, must include a statement of the weight in pounds, if amounting to ten or more pounds, of each such element:

Aluminum	Mercury
Antimony	Molybdenum
Beryllium	Nickel
Bismuth	Tantalum
Cadmium	Tin
Chromium	Titanium
Cobalt	Tungsten
Columbium	Uranium
Copper	Vanadium
Lead	Zinc
Magnesium	Zirconium
Manganese	

(2) All applications for licenses to export the commodities covered by subparagraph (1) of this paragraph must contain a statement of the weight, regardless of amount, in the unit of quantity indicated, of each of the following elements:

Platinum group metals....	In troy ounces.
Radium.....	In grams.

(i) *Petroleum.* All applications for licenses to export crude oil must contain a statement of the A. P. I. gravity of all such oil.

(j) *Parts or sub-assemblies of machinery or vehicles.* All applications for licenses to export parts or sub-assemblies of machinery or vehicles shall contain a statement as to whether the parts or sub-assemblies will be used for repair, replacement and maintenance or will be assembled into complete units.

(k) *Vehicles.* Applications for licenses to export vehicles or equipment of a type requiring rubber tires, casings, or tubes for operation, except used passenger cars, must include either:

(1) A statement that no rubber tires, casings, or tubes are to be mounted on, or otherwise included as part of the shipment of, such vehicles or equipment when exported, or

(2) A statement of the number, size, ply, and tread design of the rubber tires, casings, or tubes which are to be mounted on, or otherwise included as part of the shipment of, such vehicles or equipment when exported; and a statement as to whether the tires, casings or tubes are new or used. Applications need not include a statement of the crude rubber content of such tires, casings, or tubes.

If any spare tire, casing, or tube is to be mounted on, or otherwise included as part of the shipment of, a vehicle when exported, the application must include a statement showing the urgent

necessity for such spare tire, casing or tube.

(1) *Commodities bearing certain trademarks or trade names.* Each application for an individual license to export any commodity bearing the name of any person on the Proclaimed List or bearing a trademark, trade name, brand, label or other mark which indicates that such commodity was manufactured or processed in any country with which the United States is at war or by any person whose name appears on the Proclaimed List must be accompanied by the following additional data:

(1) A statement showing that rejection of the application would work an undue hardship.

(2) A description of the trademark, trade name, brand, label or other mark appearing on the commodity sought to be exported.

(3) A statement of the country of manufacture or processing, the name of the manufacturer or processor, and the approximate date of such manufacture or processing.

(4) A statement of the transaction by which the applicant acquired an interest in the commodity for which an export license is requested.

§ 804.8 *Additional information.* Every person applying for an individual license to export any of the commodities listed in § 801.2 of this subchapter shall, in addition to the information called for in this part or in the form on which the application is made, furnish such information with respect to such application as may be required by the Foreign Economic Administration, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

§ 804.9 *Ship stores and bunker fuel—*

(a) *Bunker fuel.* All applications for licenses to export bunker fuel on vessels, other than those included in § 802.13 (a) of this subchapter, shall be submitted on Form FEA 151.

(b) *Engine room, deck and cabin stores.* (1) All applications for licenses to export engine room, deck and cabin stores on vessels, other than those included in § 802.13 (a) of this subchapter, shall be submitted on Form FEA 151, except that export license applications for marine diesel engines of fifty (50) horse power or less shall be submitted on Form FEA 419. Lifeboat provisions should be included as deck stores, in which case the number of lifeboats and their capacity shall be shown.

(2) Where additional engine room, deck and cabin stores are required by such vessels after an application for a license has been filed with the Foreign Economic Administration, requests for authority to export such stores must be submitted to the Collector of Customs at the port where the stores are to be laden. Such requests will be transmitted to the Foreign Economic Administration and the Collectors of Customs will be notified directly by the Foreign Economic Administration of the approval or rejection of such requests. In cases where exportation of such additional stores is authorized, the Collector of Customs shall attach a list of the approved additional commodities to the li-

cense originally issued if the license is in his possession, which list shall become a part of the original license. In the event the original license is not in the possession of Collector of Customs, an application on Form FEA 151 covering the additional commodities shall be submitted to the Foreign Economic Administration by the applicant.

(c) *Ships stores for use by other than the exporting vessel.* All applications for license to export repair parts, engines and all maintenance and operating equipment, including medicinals, surgical supplies and deck stores which are not to be used by the exporting vessel but which are to be discharged at a foreign port for installation on or use by a specific vessel, shall be submitted on Form FEA 151, except that export license applications for marine diesel engines of fifty (50) horse power or less shall be submitted on Form FEA 419. All such licenses shall be valid for a period of sixty days from the date of issuance unless otherwise stated on the face of the license.

(d) *Repair parts for certain vessels.* Individual licenses for the exportation of repair parts for vessels, other than those covered by § 802.13 (a) of this subchapter, are conditioned upon the observance of the following requirements:

(1) Repairs to the vessel must be made prior to the departure of the vessel at the port where the repair parts are taken on board.

(2) Parts which are replaced by said repair parts may not be exported on the vessel but must be discharged onto the pier at the port of installation.

§ 804.10 *Unit process procedure.* (a) Several applications for licenses may be submitted to the Foreign Economic Administration for processing as a unit when:

(1) All applications specify the same consignee and purchaser and if for resale and not for the purchaser's own use, the same wholesaler-distributor, retailer, or ultimate user.

(2) All commodities covered by the applications are intended for use together, the lack of any one of which will render the other useless.

(b) When several applications are submitted for unit processing, the following requirements must be observed:

(1) All questions on each individual application must be answered in full.

(2) All individual applications must be firmly stapled to a legal binder or backing sheet with the words "Unit Processing" typed on the top-edge flap thereof.

(3) A single reference number and a single acknowledgment card must be used for the group of applications.

(c) When several applications are submitted for unit processing, all applications will be approved or all will be rejected if any one or more of the applications cannot be approved.

(d) The group of applications may include one or more applications for commodities which are exportable under general license.

(e) If a group of applications is rejected, the applicant may appeal from such rejection in accordance with the procedure set forth in § 804.14. In such

case the applicant must file one appeal from the rejection of the entire group of applications.

§ 804.11 *Diamonds and tools incorporating industrial diamonds.* When an individual license has been issued authorizing the exportation of any of the commodities listed hereafter in this section, the license and the package containing the licensed commodities must be presented to a Collector of Customs for examination prior to exportation even when an exportation is to be made by mail. If the contents of the package agree as to weight and description with the data set forth on the license, the Collector will attach an appropriate Customs seal, indicating that the package has been inspected. If exportation is to be made by mail, the package shall then be placed in the mail under Customs supervision. If the contents of the package do not agree with the weight or description as set forth on the license, the Collector will return the package to the licensee and the contents of the package shall not be exported from the United States unless a proper license authorizing the exportation thereof is subsequently issued by the Foreign Economic Administration. The list of commodities covered by the provisions of this section are as follows:

Classification	Schedule B No.
1. Diamonds (loose):	
Diamond dust (include powder) ..	5409.10
Diamonds suitable for industrial use, cut or uncut (include splints and bort) ..	5990.05
Diamonds, other than industrial (include gem cut or rough diamonds, cuttable) ..	5990.98
2. Tools incorporating industrial diamonds:	
Diamond core drills (when containing diamonds) ..	7310.00
Diamond core drill bits and other mining and quarrying machinery and parts containing diamonds ..	7339.00
Diamond dies for power-driven metal-working machinery ..	7455.03
Diamond disc points, dental, and other dental instruments containing diamonds ..	9150.00
Diamond grinding wheels ..	5409.05
Hand tools incorporating diamonds (include wheel dressers) ..	6178.91
Metal slugs containing diamonds ..	7485.12
Penetrators and other hardness-testing machines and parts containing diamonds ..	7740.20
Saws, diamond, circular ..	6155.15
Saws, diamond, other than circular ..	6156.05
3. Jewelry containing diamonds:	
Jewelry and other articles of solid gold or platinum containing diamonds ..	9620.00
Men's jewelry of metals other than solid gold or platinum containing diamonds ..	9621.00
Women's jewelry of metals other than solid gold or platinum containing diamonds ..	9623.00
Articles of other metals (except gold or platinum) containing diamonds ..	9626.00
4. Other miscellaneous commodities containing diamonds: All.	

§ 804.12 *Certain foreign trademarks, trade names, etc.* No exportation may be made under any individual license of any commodities bearing the name of any person on the Proclaimed List or

bearing the trademark, trade name, brand, label or other mark which indicates that such commodity was manufactured or processed in any country with which the United States is at war or by any person whose name appears on the Proclaimed List unless it is specifically stated on the individual license that the commodity bears such indicia.

§ 804.14 *Appeals.* (a) When any application for an export license or extension thereof has been rejected or when an export license has been revoked, the applicant or licensee may appeal from such action in accordance with the provisions of this section. The term "export license" as used in this section means an individual export license or any other document authorizing exportation issued by or under the authority of the Foreign Economic Administration.

(b) Appeals shall be filed with the Requirements and Supply Branch, Foreign Economic Administration, Washington 25, D. C., except that appeals concerning applications or licenses for export to "Group M" countries as listed in § 802.3 (a) of this subchapter shall be filed with the Middle East Division, 837 17th Street NW., Washington 6, D. C.

(c) An appeal may be filed at any time within sixty (60) days from the date of the rejection of an application for an export license or extension thereof, or within sixty (60) days from the date of revocation of an export license.

(d) All appeals shall be submitted by letter, in duplicate, plainly marked "Appeal" and setting forth the reasons why the applicant believes his application or the revocation of his license should be reconsidered, and shall be accompanied by the following if the appeal is taken from the rejection of an application for export license:

(1) The rejected application.

(2) A new "original" and "quadruplicate" copy of the rejected application on which should be entered the Foreign Economic Administration and War Production Board case numbers (if any) assigned to the rejected application.

(3) An acknowledgment card in the form prescribed by the Requirements and Supply Branch showing the case number assigned to the rejected application.

(4) The original or a copy of any letter denying a preference rating which may have been issued by the War Production Board.

(5) Any additional information or documents which the applicant feels are pertinent to his appeal.

(e) In the case of rejection of part of an application or revocation of a license in part, the applicant or licensee may appeal only with respect to that portion of the application or license which has been rejected or revoked.

(f) Only one appeal may be taken from any rejection or revocation.

(g) The case number on appeal shall be the same as that originally assigned to the rejected application or to the license, if a case number has been assigned.

(h) Every person appealing under the provisions of this section shall submit such additional information or docu-

ments pertinent to the appeal as may be required by the Foreign Economic Administration, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

§ 804.15 *Reports.* Any person to whom an export license (or other document) has been issued authorizing the exportation of designated commodities to a particular consignee or consignees in a designated destination shall execute and file with the Foreign Economic Administration such reports as said Administration shall, from time to time, require, subject to the approval of the Bureau of the Budget, pursuant to the Federal Reports Act of 1942.

PART 805—SELECTED DESTINATIONS CLEARANCE PROCEDURE

Sec.	
805.1	General provisions.
805.2	Selected destinations.
805.3	Individual license provisions.
805.4	Blockade control permit.

§ 805.1 *General provisions.* The regulations set forth in this part shall be in addition to the regulations governing general and individual licenses set forth in Parts 802 and 804, respectively, of this subchapter. In case of conflict, the regulations in this part shall govern, but only as to commodities to be exported to the selected destinations set forth in § 805.2.

§ 805.2 *Selected destinations.* The countries designated as selected destinations together with their country numbers are as follows:

Country:	Country No.
Elire	90
Portugal	83
Portuguese Atlantic Islands (including Principe, Sao Thome, Azores, Madeira and Cape Verde Islands)	93
Portuguese Guinea	94
Spain (including Fernando Po and Balearic Islands)	82
Spanish Atlantic Islands (including Santa Cruz, Grand Canary, and Canary Islands)	97
Spanish Morocco	98
Sweden	84
Switzerland	85
Tangier	121
Turkey	99

§ 805.3 *Individual license provisions.* (a) Individual licenses permitting shipments to selected destinations shall be valid for the calendar quarter for which the license has been issued and the next succeeding calendar quarter unless the period of validity is reduced or extended by the Foreign Economic Administration, or is otherwise stated on the license.

(b) All applications for licenses to export any commodities to any destination listed in § 805.2 must contain the following information in addition to that required by the prescribed form:

(1) A statement of the calendar quarter year in which the exportation is to be made.

(2) A statement as to whether a navicert, mailcert, aircert, or export license has ever been issued to the applicant for exportation of the commodity covered by the application. If such a document has

been issued, the reference number thereof must be stated.

(3) A statement as to whether the articles or materials will require transshipment while still subject to control by the applicant, and, if transshipment is required, the reason for the transshipment and the names and addresses of all persons connected with the transaction.

(4) The quantity of the commodity according to the unit of measure prescribed on the application form or in these regulations and, in addition, the weight in metric tons or kilograms.

(c) All applications for licenses to export any commodities to any destination listed in § 805.2 must be made on a calendar quarter basis. The following provisions are applicable thereto:

(1) Applications, except for petroleum and petroleum products and for exports destined to Turkey, should be submitted 45 days prior to the beginning of the calendar quarter in which shipment is intended. Applications covering petroleum and petroleum products, except for exports destined to Turkey, shall not be submitted prior to the first day of the calendar quarter in which shipment is intended. Licenses, except for petroleum and petroleum products and for exports destined to Turkey, will be issued during the 30 day period prior to the beginning of the calendar quarter during which shipment is intended and during the first 60 days of that quarter. Such license shall be valid during the quarter for which the license has been issued and for the succeeding calendar quarter. In exceptional cases, the applicant may file his application in advance of the time herein specified for the filing of applications, but in such cases the applicant must state the reason for filing the application in advance and must specify the calendar quarter during which shipment is to be made. Licenses thus issued in advance will be valid for shipment only during the quarter for which issued and during the succeeding calendar quarter.

(d) All licenses issued for shipment to any of the destinations listed in § 805.2 will receive and bear a number, identified as "Control Number", in addition to the license number assigned by the Foreign Economic Administration. This number will have a letter prefix such as "B", "P", "F", or "S". In case of exportation by ship or plane, the Control Number must be noted on the manifest of the ship or plane carrying the cargo licensed for export. In case of exportation by mail the Control Number and the license number must appear on the outside wrapper of each package.

(2) In case of exportations to any of the destinations set forth in the list in § 805.2 on vessels departing from Canadian ports, the exporter must prepare an extra copy of his export declaration and must note thereon both the license number and the Control Number. This copy of the export declaration shall accompany the shipment for surrender to the Collector of Customs at the Canadian port of departure and must be verified by the Collector of Customs at the port of exit from the United States.

§805.4 *Blockade control permit.* (a) Applications for individual license to export commodities set forth in paragraph (b) of this section to:

Eire
Portugal
Portuguese Atlantic Islands
Portuguese Guinea
Spain
Spanish Atlantic Islands
Spanish International Morocco and Tangier
Switzerland

will not be considered unless a blockade control permit has previously been issued by appropriate authorities in London, or unless covered by an exception stated in paragraph (c) of this section. License applications will be accepted by the Foreign Economic Administration only after notification by the appropriate authorities of the issuance of the permit. Upon receipt of notice of the issuance of the permit, the exporter will be advised to file a license application. Applications for blockade control permits shall be made in the country of destination by the consignee.

PART 806—TECHNICAL DATA

Sec.

- 806.1 Definition.
- 806.2 General licenses.
- 806.3 Blanket licenses.
- 806.4 Special licenses.
- 806.5 General provisions.

§ 806.1 *Definition.* Technical data is hereby defined as "Any professional, scientific or technical information, including any model, design, photograph, photographic negative, document, or commodity, containing a plan, specification, or descriptive or technical information of any kind which can be used or adapted for use in connection with any process, synthesis or operation in the production, manufacture, reconstruction, servicing, repair, or use of any commodity."

§ 806.2 *General licenses—(a) Definition.* A general license is a license issued by the Foreign Economic Administration for which no application is required, available for use by all persons, permitting exportation of specified classes of technical data to specified countries or consignees in accordance with the regulations herein prescribed and those which may be prescribed at the time of issuance of such general license.

(b) *United States Government or agency thereof.* A general license is hereby issued permitting exportation of all technical data when consigned to any agency or instrumentality of the United States Government: *Provided*, That any technical data exported under this general license shall be intended for the official use of the United States Government or one of its agencies or instrumentalities. Any person exporting under this general license shall state in a conspicuous place on the envelope or outside wrapper "General License No. TD-U.S."

(c) *Exportations licensed by the Commissioner of Patents.* A general license is hereby issued permitting exportation of technical data pertaining to inventions or applications for patents when such exportation is made pursuant to a license issued by the U. S. Commissioner of Patents under the authority of Public Law 239, 77th Congress, approved August 21, 1941: *Provided*, That the official license stamp of the Commissioner of Patents appears on the envelope or outside wrapper of the package.

(d) *Technical, scientific and professional publications.* A general license is hereby issued permitting exportation by mail only of periodicals (including newspapers), catalogs, or pamphlets, containing any technical data, subject to the requirements of the United States Office of Censorship: *Provided*, That all exportations made under this general license shall bear conspicuously on the envelope or wrapper "General License TD-PUB".

(e) *Technical data exported with commodity.* A general license is hereby issued permitting the exportation of technical data which customarily accompany a commodity and which consist of drawings or instructions describing assembly, operation, testing or routine maintenance and repair, subject to the following conditions:

(1) The technical data is directly related to a commodity exported pursuant to an individual export license or other type of export license document issued by or under the authority of the Foreign Economic Administration.

(2) The technical data to be exported must be specified in the export license or other document under or pursuant to which such commodity is exported.

(3) The technical data to be exported shall be shipped in the same container used for the exportation of the commodity.

(4) The technical data included in such shipment shall not include data pertaining to the processing or manufacturing of such commodity.

(f) *Regulations applicable to general licenses.* (1) It shall be a violation of these regulations to make any exportation under these general licenses with the knowledge or intention that the technical data is to be reexported from the country of destination.

(2) A general license may be revoked or suspended by the Foreign Economic Administration at any time as to any consignee in any destination.

(3) A general license may be revoked or suspended by the Foreign Economic Administration as to any person within or without the United States exporting technical data, in the manner provided in Part 807 of this subchapter.

§ 806.3 *Blanket licenses—(a) Definition.* A blanket license is a license issued by the Foreign Economic Administration to a particular person authorizing exportation of specific classes of technical data to specified consignees.

(b) *Exportations permitted under blanket licenses.* A blanket license authorizes the transmission by the licensee through the mails or other authorized means of communication, without prior inspection and approval of the Foreign Economic Administration, of routine technical data, including installation, operating, servicing, repair or processing instructions and technical data concerning minor changes or alterations in the installation, operation, servicing, or repairing of machinery or equipment currently in service in the country of destination or in processes currently used therein. Non-routine technical data, as defined in paragraph (c) of this section, may also be exported under a blanket license provided each proposed exportation

is submitted to the Foreign Economic Administration for inspection and approval prior to exportation in accordance with the procedures specified in the license.

(c) *Technical data requiring specific authorization.* Non-routine technical data shall not be exported under blanket license unless specifically authorized by the Foreign Economic Administration. Non-routine technical data shall include but not by way of limitation the following:

(1) Patent applications, amendments thereto and abstracts or other papers pertaining directly to such applications.

(2) Research, laboratory, progress, testing or experimental reports.

(3) Secret, confidential, or restricted technical data, whether so regarded by the licensee or so declared by an officer or agency of the U. S. Government.

(4) Technical data pertaining to commodities designed or intended for military use except such as may conform to widely known commercial practice.

(5) Technical data pertaining to any commodity whatsoever (except for widely known commercial designs) being made for the United States Government or to the specifications of the United States Government.

(6) Technical data pertaining to commodities to be used in connection with any new development, project, or installation.

(d) *Technical data excepted.* Technical data exported under blanket license shall not include any technical data concerning United States military or naval units, shipping schedules or other similar technical data as set forth in the following documents as they may from time to time be amended:

United States Postal Censorship Regulations.
United States Radio Telephone Censorship Regulations.

United States Cable and Radio Censorship Regulations.

War Department document entitled "Statement of War Department policy regarding Dissemination and Publication of Information Concerning Contracts, Production Site Locations, etc."

Where the exporter has any reason to believe that any technical data falls within the categories mentioned, the proposed shipment shall, prior to exportation, be transmitted to the Foreign Economic Administration for examination and approval.

§ 806.4 *Special licenses—(a) Definition.* A special license is a license issued to a particular person permitting exportation to specified consignees of non-routine technical data, as defined in § 806.3 (c), in cases where exportation under blanket license will not be authorized by the Foreign Economic Administration.

(b) *Inspection required.* One or more shipments of non-routine technical data from one consignor to one consignee may be made under such license but, in each instance, the non-routine technical data to be exported shall first be transmitted to the Foreign Economic Administration for inspection and approval in accordance with the procedures specified in the special license.

(c) *Procedure in lieu of inspection.* Where non-routine technical data is too bulky to transmit for examination or by reason of time requirements or extreme urgency, it is impossible or impractical to transmit the same to the Foreign Economic Administration for examination prior to shipment under a special license, the licensee may be authorized to export the same without prior examination by the Foreign Economic Administration but, in each such case, a covering letter shall be submitted and such letter shall contain a complete statement of the reasons for the non-submission of the same and an accurate descriptive listing of all non-routine technical data to be exported under such special license.

§ 806.5 *General provisions—(a) Regulations governing exportations.* Exportation of technical data under blanket or special licenses shall be made in accordance with the procedures stated in such licenses.

(b) *Application requirements for blanket and special licenses.* Applications for blanket and special licenses covering proposed exportations from one consignor to one consignee shall be filed on the form and in the manner prescribed by the Foreign Economic Administration.

Each application shall be supported by a covering letter amplifying the information given in the application form by setting forth such other facts as may be required to completely reveal the relationship existing between the applicant and the consignee and the type of technical data to be exported. The covering letter shall also state:

(1) Generally, what need exists for the license.

(2) Whether the technical data is to be exported for general information purposes only or for specific application to a specific situation.

(3) Whether the technical data is to be used in connection with any new installation, development, or project.

(4) Whether the technical data is required for the national defense, public health, or safety of the country of destination.

(5) Whether the technical data is to be used in connection with any military, naval or other installation which will tend to aid in the prosecution of the war.

(6) Whether the technical data will be used to produce and export needed commodities to the United States or to one of the United Nations.

(7) Whether the technical data will be used in the production of any commodity that is to be exported from the country of destination and, if so, to what country.

(8) To what extent the license will be used if granted, including an estimate of the number and size of the exportations which the applicant expects to make under the license each month.

The applicant shall indicate whether he is applying for a blanket or special license but the type of license to be issued will be determined by the Foreign Economic Administration on the basis of the information furnished. If the

applicant particularly desires that a blanket license be issued, he shall submit with his application representative samples of all routine technical data that he may desire to export under blanket license. This sample technical data shall be described in complete detail in an exhibit list filed in triplicate.

(c) *Additional information required.*

(1) In the prescribed application form, the applicant shall, in addition to stating the ownership and control of the consignee organization, state the relationship between the applicant and the proposed consignee and the business engaged in by the proposed consignee.

(2) In the prescribed application form, the applicant shall set forth a general description by subject matter of the technical data to be exported under the license if granted. If the applicant contemplates exporting technical data so new and novel as to form the subject matter for a patent application or similar experimental or research data, such fact shall be clearly stated.

(d) *Signing of application.* (1) Applications for license to export technical data if applied for by a corporation must be signed by an officer of the corporation or a duly authorized agent of the corporation; if made by a partnership, must be signed by a member of the firm, or its duly authorized agent; if made by an individual, must be signed by the individual or his duly authorized agent.

(2) If the application is signed by an agent, the agent's duly authenticated power of attorney and agency must be filed with the Foreign Economic Administration.

(e) *Statement of consignee.* (1) Except where otherwise herein provided, a statement by the ultimate user meeting fully the conditions of the application oath must be filed. If, on the application, the ultimate user named is a person other than the consignee, a statement must be obtained from all consignees as well as the ultimate user. Unrestricted general statements of the consignee or ultimate user accepted heretofore by the Foreign Economic Administration may be incorporated by reference in applications for new or renewal licenses. Statements of consignees or ultimate users are not required in applications for licenses to export patent applications, amendments, and other technical data relating to inventions made in foreign countries, but must be obtained and submitted in support of license applications for the exportation, for informational purposes only, of descriptive technical data concerning inventions made in the United States.

(2) A statement of the consignee or ultimate user need not be acknowledged before a notary or consular officer if prepared on the letter-head of the organization of the consignee or ultimate user. The statement shall be dated, the place of its execution set forth and signed by a responsible official of the organization of the consignee or ultimate user who is actually located in the country of destination and whose authority to en-

force the conditions of the statement is apparent.

(3) If the applicant finds it impossible or impractical to submit the signed statement of the consignee or ultimate user at the time the application is filed, an adequate explanation shall be made of the reasons why the statement is not furnished. The applicant shall also advise the steps being taken to obtain the statement.

(f) *Validity of license.* The licenses issued pursuant to the provisions of this Part shall be valid until revoked by the Foreign Economic Administration or surrendered voluntarily by the licensee.

(g) *Use of license.* The blanket or special license shall be retained in the possession of the licensee until surrendered voluntarily or revoked by the Foreign Economic Administration. Such license need not be presented at the time of exportation of any technical data authorized to be exported thereunder, but the number assigned to the license shall be placed on the outside of the envelope or on the outside wrapper of the package containing such technical data.

(h) *Duplicate applications.* Duplicate applications shall not be filed unless specifically requested by the Foreign Economic Administration.

(i) *Duplicate licenses.* Duplicate licenses may be issued by the Foreign Economic Administration, provided the licensee shows that the original license was lost or destroyed and submits such sworn proof as may be required in each instance.

(j) *Cables, telegrams and radiograms.* Technical data may be exported by cablegram, telegram or radiogram subject to prior examination and approval of the Foreign Economic Administration. The exporter shall place on the message the description of the license to be used, i. e., general, special or blanket, and the license number in connection with blanket and special licenses. All such messages shall be transmitted directly to the communications company by the Foreign Economic Administration.

(k) *Exports by a personal messenger.* Technical data to be taken out of the country by a personal messenger, representative or agent of the licensee or the consignee shall be properly packaged and the license description and number indicated thereon if the technical data comes within the provisions of a general license or if the technical data is routine data which comes within the provisions of a blanket license. If the exportation is to include any non-routine technical data, all such technical data shall be transmitted to the Foreign Economic Administration for examination and approval prior to exportation except as otherwise provided in § 806.4 (c).

(l) *Exports to destinations through a foreign country.* Technical data shall not be exported to a territory or possession of the United States through a foreign country except under license. In each such case, an application shall be made on the prescribed form designating the foreign country or countries through which such technical data will pass.

PART 807—DENIAL OF LICENSING PRIVILEGES

Sec.	
807.1	Compliance Commissioners.
807.2	Orders.
807.3	Institution of proceedings.
807.4	Notification to respondent.
807.5	Default.
807.6	Written answer.
807.7	Oral answer.
807.8	Consolidation.
807.9	Reports and recommendations by Compliance Commissioner.
807.10	Disposition.
807.11	Appeal.
807.12	Proceedings to be confidential.

§ 807.1 *Compliance Commissioners.* The Administrator of the Foreign Economic Administration will designate one or more persons to act as Compliance Commissioners. Persons attached to the Requirements and Supply Branch, or to the Requirements and Supply Branch of the Office of the General Counsel, shall not be qualified to act as Commissioners. Compliance Commissioners shall have the powers and duties set forth in § 807.4 through § 807.12.

§ 807.2 *Orders.* Orders denying the privilege of any person to obtain or use an export license may be issued in the name and under the authority of the Requirements and Supply Branch. Such orders shall be effective for such periods of time and on such terms and conditions as may be prescribed by the Requirements and Supply Branch.

§ 807.3 *Institution of proceedings.* The Chief of the Domestic Compliance Section, Operations Division, Requirements and Supply Branch may, with the approval of the Office of General Counsel, initiate proceedings to deny the privilege of any person to obtain or use export licenses in any case where the Domestic Compliance Section has reason to believe that such person has violated any provisions of the statutes, proclamations, executive orders or regulations relating to export control.

§ 807.4 *Notification to respondent.* The Chief of the Domestic Compliance Section, Operations Division, Requirements and Supply Branch shall initiate proceedings by transmitting a telegram or registered letter to the person against whom proceedings are brought. The notification shall set out the specific nature of the violations charged, shall state that denial of respondent's privilege to obtain or use export licenses is being contemplated and that failure to answer the charges may result in such action being taken. The notification shall set a time and place for a hearing on the charges before a Compliance Commissioner and shall advise the respondent that he must answer the charges at or prior to such time or be held in default. The time set shall be not less than ten days or more than fifteen days from the date of the notification. Charges may be amended from time to time upon reasonable notice to the respondent.

§ 807.5 *Default.* If the respondent does not answer the charges, as provided in § 807.6, within the prescribed time, the Chief of the Domestic Compliance Section shall submit to the Requirements and Supply Branch the facts of the case, together with a recommenda-

tion for action. Being so advised, the Requirements and Supply Branch may issue an order denying the privilege of the respondent to obtain or use export licenses, or take any other appropriate action.

§ 807.6 *Answer, etc.* (a) The respondent may answer the charges made against him in writing by submitting the same, in duplicate, to the Requirements and Supply Branch, Foreign Economic Administration, Washington, D. C., within the time limited by the notification to respondent. (b) The respondent shall be permitted to answer the charges made against him orally if he indicates his desire to do so by letter, in duplicate, submitted to the Requirements and Supply Branch, Foreign Economic Administration, Washington, D. C., within the period limited by the notification to respondent.

§ 807.7 *Hearing.* (a) At the time and place specified in the notification to respondent all evidence material to the inquiry shall be received by the Compliance Commissioner and shall be taken by a reporter before him. The respondent may be represented by counsel. The respondent shall be informed that he is under no obligation to answer questions.

The evidence shall be transcribed by the reporter, filed with the Compliance Commissioner and the respondent shall be given an opportunity to examine the transcript.

The respondent may prepare and file with the Compliance Commissioner a bill of exceptions to such transcript which shall thereafter accompany the transcript. Such bill of exceptions shall be filed within such time as the Compliance Commissioner shall fix at the conclusion of the hearing.

§ 807.8 *Consolidation.* The opportunity to answer charges may, at the discretion of the Compliance Commissioner, be consolidated with any similar opportunity afforded the respondent by any other government agency with respect to charges upon the same or a related subject matter.

§ 807.9 *Reports and communications by Compliance Commissioner.* The Compliance Commissioner shall consider the record, including any bill of exceptions filed by the respondent, and shall prepare a written report which shall consist of his findings of fact, including a finding whether or not a violation has occurred, and his recommendations. If the Commissioner finds that a violation has been committed his recommendation for action shall be advisory only. The report, transcript, and bill of exceptions, if any, shall be transmitted to the Deputy Director, Requirements and Supply Branch.

§ 807.10 *Disposition.* The Deputy Director, Requirements and Supply Branch, shall review the record, consider the recommendations of the Compliance Commissioner, and determine the disposition of the case. In any case where the Commissioner has found that a violation has been committed, the Deputy Director, Requirements and Supply Branch, may issue an order denying the respondent's privilege to obtain or use

export licenses for such periods of time and on such terms and conditions as he may prescribe and take any other appropriate action. In any case where the Commissioner has found that no violation has been committed, the Deputy Director, Requirements and Supply Branch, shall enter an order dismissing the charges. In all cases the respondent shall be notified promptly of the action taken. An order denying the privilege to obtain or use export licenses shall contain a notification to the respondent of his right to appeal.

§ 807.11 *Appeal.* A respondent may appeal in writing to the Director, Requirements and Supply Branch, whose decision shall be final. Such appeal shall be taken within 10 days after receipt of a suspension order by the respondent. Oral argument will be permitted only upon direction of the Director. The Director shall not consider facts or arguments affecting the merits of the policy embodied in the rules or regulations alleged to have been violated. An order denying the privilege to obtain or use an export license shall remain in effect pending disposition of the appeal, unless otherwise ordered by the Director.

§ 807.12 *Proceedings to be confidential.* Pending disposition of a case by the Requirements and Supply Branch, in accordance with §§ 807.5 and 807.10, all proceedings pursuant to the provisions of this part shall remain confidential.

PART 808—PROCEDURE RELATING TO SHIPMENT OF LICENSED EXPORTS TO CERTAIN DESTINATIONS

Sec.	
808.1	Non-applicability.
808.2	Shipments to the other American Republics.
808.3	Shipments to French Possessions in the Pacific (including New Hebrides) and certain Middle East Destinations.
808.4	Shipments to French Guiana, French West Indies, and certain Destinations in Africa.
808.5	Form of Statements of Cargo Availability.
808.6	Filing procedure.
808.7	Webb-Pomerene Associations.

§ 808.1 *Non-applicability.* None of the regulations of this part shall apply to liquid commodities licensed for export which are to be shipped in bulk by tanker or to commodities to be exported under General License "GUS".

§ 808.2 *Shipments to the other American Republics—(a) Applicability.* The regulations prescribed in this section apply to exportation of all commodities set forth in § 801.2 of this sub-chapter under any type of export license to be made by sea freight to Argentina and to exportations of newsprint to be made by sea freight to any of the following destinations:

Bolivia.	Haiti.
Brazil.	Honduras.
Chile.	Mexico.
Colombia.	Nicaragua.
Costa Rica.	Panama.
Cuba.	Paraguay.
Dominican Republic.	Peru.
Ecuador.	Uruguay.
El Salvador.	Venezuela.
Guatemala.	

(b) *Shipments not requiring Statements of Cargo Availability.* (1) Shipments of any commodity licensed for export to Argentina, weighing less than 2240 pounds (even though it is a partial shipment of a larger licensed quantity) may be booked by the exporter or his agent directly with a steamship company without the submission of a Statement of Cargo Availability or compliance with the procedures set forth in this Part, except that the provisions of this paragraph shall not apply to shipments of newsprint.

(2) Where the entire quantity of a commodity or commodities is ready to be shipped at the same time the exporter or his agent may not split such commodity or commodities into shipments weighing less than 2240 pounds in order to arrange direct booking with the steamship company. Nothing herein contained shall prohibit the exporter or his agent from making partial or periodic shipments under § 804.2 (c) of this subchapter.

(c) *Shipments requiring Statements of Cargo Availability.* No shipment of newsprint, regardless of weight, may be exported by sea freight to any of the destinations specified in paragraph (a) of this section, and no shipment weighing 2240 pounds or more of any other commodity or commodities for which a license has been issued permitting the exportation thereof may be exported by sea freight to Argentina unless:

(1) The exporter or his agent has submitted a Statement of Cargo Availability covering such shipment on the form and in the manner prescribed by these regulations.

(2) The shipment has been certified for booking with a steamship company by the Division of Cargo Control, War Shipping Administration.

(3) The shipment has been transported to or within the port area from which the shipment is to be made pursuant to an effective unit permit issued by or under the authority of the Office of Defense Transportation, unless such unit permit is not required for the movement of the particular shipment, and,

(4) The shipment has been booked with a steamship company within ninety (90) days after the date such shipment has been certified for booking by the Division of Cargo Control, War Shipping Administration, and such booking has been approved by the Division of Cargo Control, War Shipping Administration. In the case of commodities which, because of their bulk or the necessity for special handling, require special consideration with respect to the period of movement the provision that such shipment shall be booked with the steamship company within such ninety (90) day period shall not apply. If the shipment has been booked with the steamship company within ninety (90) days after the Statement of Cargo Availability has been certified for booking, the actual date of loading aboard a vessel may take place after such ninety (90) day period.

§ 808.3 *Shipments to French possessions in the Pacific (including New Hebrides) and certain Middle East Destinations—(a) Applicability.* The regu-

lations prescribed in this section apply to exportations of all commodities set forth in § 801.2 of this subchapter under any type of export license to be made by sea freight to any of the following destinations:

Aden.
Anglo-Egyptian Sudan.
British Somaliland.
Cyprus.
Egypt.
Eritrea.
Ethiopia.

Libya.
New Hebrides (British & French Condominium).
New Caledonia: Including—Loyalty Islands, Wallis Archipelago.
Palestine.
Perim Island (Aden).
Saudi Arabia.
Sokotra Island (Aden).
Syria.
Trans-Jordan.

(b) *Shipments requiring Statements of Cargo Availability.* No shipment of any commodity or commodities for which a license has been issued permitting the exportation thereof may be exported by sea freight to any destination listed in paragraph (a) of this section unless:

(1) The exporter or his agent has submitted a Statement of Cargo Availability covering such shipment on the form and in the manner prescribed by these regulations.

(2) The shipment has been certified for booking with a steamship company by the Division of Cargo Control, War Shipping Administration.

(3) The shipment has been transported to or within the port area from which the shipment is to be made pursuant to an effective unit permit issued by or under the authority of the Office of Defense Transportation, unless such unit permit is not required for the movement of the particular shipment, and,

(4) The shipment has been booked with a steamship company within ninety (90) days after the date such shipment has been certified for booking by the Division of Cargo Control, War Shipping Administration, and such booking has been approved by the Division of Cargo Control, War Shipping Administration. In the case of commodities which, because of their bulk or the necessity for special handling, require special consideration with respect to the period of movement the provision that such shipment shall be booked with the steamship company within such ninety (90) day period shall not apply. If the shipment has been booked with the steamship company within ninety (90) days after the Statement of Cargo Availability has

been certified for booking, the actual date of loading aboard a vessel may take place after such ninety (90) day period.

§ 808.4 *Shipments of licensed exports to French Guiana, French West Indies and certain destinations in Africa—(a) Applicability.* The regulations prescribed in this section apply to exportation of all commodities set forth in § 801.2 of this subchapter under any type of export license to be made by sea freight to any of the following destinations:

Angola (Portuguese West Africa).

French Guiana.
French West Indies, including Desirade, Guadeloupe, Les Saintes Martinique, Marie Galante, St. Martin (northern part), and St. Bartholomew.
Liberia.
Madagascar.
Mozambique (Portuguese East Africa).
Reunion.

(b) *Shipments not requiring Statements of Cargo Availability.* (1) Shipments of any commodity licensed for export to any destination listed in paragraph (a) of this section, weighing less than 2240 pounds (even though it is a partial shipment of a larger licensed quantity) may be booked by the exporter or his agent directly with the steamship company without the submission of a Statement of Cargo Availability or compliance with the procedure set forth in this Part.

(2) Where the entire quantity of a commodity or commodities is ready to be shipped at the same time, the exporter or his agent may not split such commodity or commodities into shipments weighing less than 2240 pounds in order to arrange direct booking with the steamship company. Nothing herein contained shall prohibit the exporter or his agent from making partial or periodic shipments under § 804.2 (c) of this subchapter.

(c) *Shipments requiring Statements of Cargo Availability.* No shipment of any commodity or commodities weighing 2240 pounds or more for which a license has been issued permitting the exportation thereof may be exported by sea freight to any destination listed in paragraph (a) of this section unless:

(1) The exporter or his agent has submitted a Statement of Cargo Availability covering such shipment on the form and in the manner prescribed by these regulations.

(2) The shipment has been certified for booking with a steamship company by the Division of Cargo Control, War Shipping Administration.

(3) The shipment has been transported to or within the port area from which the shipment is to be made pursuant to an effective unit permit issued by or under the authority of the Office of Defense Transportation, unless such

unit permit is not required for the movement of the particular shipment, and,

(4) The shipment has been booked with a steamship company within ninety (90) days after the date such shipment has been certified for booking by the Division of Cargo Control, War Shipping Administration, and such booking has been approved by the Division of Cargo Control, War Shipping Administration. In the case of commodities which, because of their bulk or the necessity for special handling, require special consideration with respect to the period of movement the provision that such shipment shall be booked with the steamship company within such ninety (90) day period shall not apply. If the shipment has been booked with the steamship company within ninety (90) days after the Statement of Cargo Availability has been certified for booking, the actual date of loading aboard a vessel may take place after such ninety (90) day period.

§ 808.5 Form of Statement of Cargo Availability. Statements of Cargo Availability shall be made on Form FEA 138 in accordance with the instructions for use of such form as prescribed by the Requirements and Supply Branch. All provisions, instructions, terms and conditions contained in the form are hereby incorporated as a part of the regulations in this subchapter, except in so far as inconsistent with the provisions of the regulations in this part, in which event the regulations in this part shall govern.

§ 808.6 Filing procedure—(a) Who may file. Any person to whom an export license has been granted or his agent may file Statements of Cargo Availability. Any person authorized to export under a general license or the agent of any such person may file Statements of Cargo Availability.

(b) *Where to file.* (1) Statements of Cargo Availability shall be filed with the Transportation and Storage Branch, Foreign Economic Administration, 61 Broadway, New York 6, New York, except that Statements of Cargo Availability covering shipments to French Possessions in the Pacific shall be filed with the Division of Cargo Control, War Shipping Administration, 220 Bush Street, San Francisco 4, California, and Statements of Cargo Availability covering shipments of newsprint to one of the other American Republics shall be filed with the Requirements and Supply Branch, Foreign Economic Administration, Washington 25, D. C.

(2) For shipments which originate in Canada and which are to be exported from a United States port, Statements of Cargo Availability shall be filed with the Canadian Shipping Priorities Committee, West Block, Ottawa, Canada, on the form prescribed by said Committee.

(c) *Preparation of Statements of Cargo Availability.* (1) A separate Statement of Cargo Availability may be submitted for each part of a licensed exportation as such part becomes ready for shipment, except that no application need be filed for a partial shipment which is less than 2240 pounds in gross weight in any case where such shipments may be booked directly with a steamship company without the filing of a Statement

of Cargo Availability under the provisions of this part.

(2) Where the applicant desires to ship a number of commodities destined to one or more ultimate consignees or purchasers from one or more licensees (or one or more exporters in the case of commodities moving under general license) and the shipment is to be made by a single consignor to a single consignee, one consolidated Statement of Cargo Availability may be filed.

(3) If the proposed shipment includes commodities moving under individual license or licenses, and also includes commodities moving under general license or licenses, separate Statements of Cargo Availability may be filed for the commodities moving under individual license and the commodities moving under general license.

(4) Where the Statement of Cargo Availability covers commodities to be shipped under general license, the general license symbol shall be placed in the blank space requiring a license number.

(5) In answer to the question pertaining to gross weight and cubic measurement (if shipped on a measurement basis) an approximation may be made if exact figures are not ascertainable.

(6) The descriptions of the commodities shall be stated in the same terms required for descriptions of commodities in applications for individual licenses.

(7) No Statement of Cargo Availability for commodities under general license shall be submitted unless and until the applicant has a firm order for the commodities covered by the statement from the purchaser stated therein.

(8) Whenever a Statement of Cargo Availability is required in connection with any shipment proceeding under general in transit license, the spaces in the application form for the name and address of the consignor shall contain the name and address of the original consignor in the foreign country and the name and address of the U. S. shipper or forwarder.

(9) Statements of Cargo Availability may specify more than one consignee subject to the following conditions:

(i) All consignees named must be located at a single foreign port.

(ii) The names and addresses of all proposed consignees shall be listed and a copy thereof shall be attached to and shall become a part of each copy of the Statement of Cargo Availability submitted. This list shall be typewritten in a vertical column and shall not bear evidence of erasure or alteration.

(iii) One or more of the proposed consignees may be rejected, any commodity may be deleted or the quantity thereof reduced by the Foreign Economic Administration.

(10) If the entire shipment covered by a Statement of Cargo Availability is not exported at the same time on the same vessel, such Statement of Cargo Availability shall become invalid with respect to the unshipped balance described therein. In such case, if the quantity of the commodities remaining unshipped requires submission of a Statement of Cargo Availability, a new Statement of

Cargo Availability may be filed covering the balance of the shipment.

§ 808.7 Webb-Pomerene Associations. Any association organized pursuant to the Export Trade Act (15 U.S.C. 61) may, upon specific authorization from the Foreign Economic Administration, file in the name of the association a combined Statement of Cargo Availability, subject to the following conditions:

(1) The association shall obtain from each member a statement to be filed with the Foreign Economic Administration in the following form properly filled out:

This is to certify that the undersigned _____ Company, of _____ (City) and _____ (State) is a member of the _____ Association.

The undersigned and its subsidiary companies agree that, in the event the Foreign Economic Administration determines to authorize the Association to file a Statement of Cargo Availability, for all the members of the Association, it will:

(i) Accept such part of the total space allocated to the Association as the Executive Secretary of the Association shall allocate to it.

(ii) Ship only to such consignees as are approved by the Foreign Economic Administration.

(iii) Not file individual Statements of Cargo Availability. This agreement is effective as of _____ and may be revoked upon thirty (30) days written notice to the Foreign Economic Administration.

(Signature)

(2) Upon filing a combined Statement of Cargo Availability the Association shall state the gross tonnage desired for all members who are to participate in the application and upon certification for booking by War Shipping Administration, the tonnage certified shall be divided by the Association among the members represented by such certified application.

(3) The Association shall notify the Foreign Economic Administration and the War Shipping Administration of the particular commodity and amount thereof of each member proposes to ship against the certified Statement of Cargo Availability.

(4) The members shall then book their proposed shipments directly with the steamship company under the serial number assigned to the certified Statement of Cargo Availability.

(5) When the shipments have cleared port, the members shall notify the Association of the amount of the commodity shipped, and the name of each consignee to whom shipment was made.

PART 809—BLANKET LICENSE "BLT"

Sec.

809.1 Definitions.

809.2 General provisions.

809.3 Special provisions.

§ 809.1 Definitions. When used in this part:

(a) "Blanket license" shall mean a document issued by the Foreign Economic Administration authorizing the exportation by the licensee of the commodities described in such document to

two or more consignees or purchasers in a single country.

§ 809.2 *General provisions.* (a) Applications for blanket licenses shall be made on the form or forms and in the manner and only for such commodities prescribed by the Foreign Economic Administration. Except as provided in § 809.3 each application for such a license shall bear the following legend:

Application is hereby made to permit the applicant named above to export from the United States to the purchasers and consignees designated on the attached list the articles and materials described, in the quantity given: *Provided*, That the aggregate quantity of all such exports to the purchasers and consignees named therein does not exceed the total quantity for which the license is granted. This will certify that we have firm orders on hand from the purchasers listed at least equal to the quantity applied for on this license.

(b) When an application for blanket license is submitted, permission to export to one or more of the consignees and purchasers named may be refused by blocking out the name of the consignee and purchaser with respect to whom the application has been denied. In such case the license shall be valid only for shipments to the remaining approved consignees and purchasers.

(c) When duly validated or approved by the Foreign Economic Administration, a blanket license authorizes the exportation to any of the consignees and purchasers named therein, or in a list attached and made a part thereof, the commodity or commodities therein described: *Provided*, That the aggregate quantity of all exports under such license to the consignees and purchasers named therein, or in a list made a part thereof, does not exceed the total quantity for which the license has been granted. Such exportation shall be permitted notwithstanding any conflicting provisions in the terms, conditions or provisions of the form on which the application for a blanket license has been made. In any case where an Import Recommendation issued by a designated government agency of the country of destination is required as a condition to the issuance of an export license for a particular commodity to a designated consignee, such commodity may not be exported to such consignee under a blanket license in quantities in excess of the amount approved for such consignee in said Import Recommendation.

(d) Insofar as consistent with the provisions of this part, all of the provisions of Part 804 of this subchapter, shall apply equally to applications filed for blanket licenses and blanket licenses issued under the provisions of this part.

(e) A person exporting any commodity pursuant to any blanket license shall enter the symbol "BLT" and the number of the license on each Shipper's Export Declaration filed with the United States Collector of Customs at the port of exit or with the United States Postmaster at the place of mailing at the time of each exportation under each license.

(f) The blanket license procedure shall apply only to exportations to destinations in general license country

Group V or country Group K, as set forth in § 802.3 (a) of this subchapter.

§ 809.3 *Special provisions.* (a) The provisions of § 804.1 (g) do not apply to applications for blanket licenses for the following commodities:

Group I Commodity:	Schedule B No.
Radio receiving tubes.....	7078.00
Parts and accessories for track-laying tractors.	7889.01
Alarm clocks, spring driven.	9571.00
Automotive replacement parts.	7092.00, 7921.00, 7923.05, 7926.00, 7927.00

(b) Applications for blanket licenses for the commodities listed in Group I of paragraph (a) of this section may bear the following legend in lieu of the legend prescribed in § 809.2:

Application is hereby made to permit the applicant named above to export from the United States to the purchasers and consignees designated on the attached list the articles and materials described, in the quantity given: *Provided*, That the aggregate quantity of all such exports to the purchasers and consignees named therein does not exceed the total quantity for which the license is granted.

Applications for blanket license for the commodities listed in Group II of paragraph (a) of this section may bear the following legend in lieu of the legend prescribed in § 809.2:

Application is hereby made to permit the applicant named above to export from the United States to the purchasers and consignees designated on the attached list the articles and materials described, in the dollar value given, *Provided*, That the aggregate value of such exports to the purchasers and consignees named therein does not exceed the total value for which the license is granted.

(c) A person exporting any commodity listed in Group I of paragraph (a) of this section pursuant to any blanket license shall endorse each shipper's export declaration filed with the United States Collector of Customs at the port of exit or with the United States Postmaster at the place of mailing at the time of each exportation under such license with the following certification:

The undersigned represents to the Foreign Economic Administration that the commodities described herein are being exported under the provisions of BLT (Blanket License No. —) approved by FEA (date of validation), and this shipment is made in conformity with the terms of this license with respect to kind of material, quantity, value, foreign consignees and purchasers and all other conditions thereof.

A person exporting any commodity listed in Group II of paragraph (a) of this section pursuant to any blanket license shall endorse each shipper's export declaration filed with the United States Collector of Customs at the port of exit or with the United States Postmaster at the place of mailing at the time of each exportation under such license with the following certification:

The undersigned represents to the Foreign Economic Administration that the commodities described herein are being exported under the provisions of "BLT" (blanket) Li-

cense No. — approved by FEA (date of validation) and this shipment is made in conformity with the terms of this license with respect to kind of material, value, foreign consignees and purchasers and all other conditions thereof.

(Signed)

(d) The provisions of § 801.7 of this subchapter shall not apply to exportations of the commodities listed in paragraph (a) of this section, when authorized for export by a blanket license. In lieu of the presentation of an original blanket license for clearance of the exportation with the United States Collector of Customs or the United States Postmaster, the exporter may present a Shipper's Export Declaration bearing the certification prescribed in paragraph (c) of this section.

(e) When clearance of a shipment has been made in accordance with provisions of paragraph (d) of this section, the holder of the blanket license authorizing such shipment shall endorse on the back of the license in the space reserved for entries by Collectors of Customs and Postmasters the following information:

1. Quantity.
2. Description.
3. Value.
4. Consignee (this shall be placed in the space labeled "name of vessel if export is made by water").
5. Port of exit or post office of mailing.
6. Date (this date shall be the date of filing of the Shipper's Export Declaration).
7. Initials of the endorsing official.

Such license shall be held available for inspection at any time by the Foreign Economic Administration. Upon completion of shipment against such blanket license, or upon the expiration of the validity of the license, such license with the endorsements thereon as provided in this paragraph and with attachments, if any, shall be returned to the Foreign Economic Administration.

PART 810—LIMITED PRODUCTION LICENSE FOR FARM MACHINERY; "LPL"

- Sec.
810.1 Destinations.
810.2 General provisions.
810.3 Reports.

§ 810.1 *Destinations.* The provisions of this part apply only to exportations to the following destinations:

Brazil.	Mexico.
Chile.	Nicaragua.
Colombia.	Panama.
Costa Rica.	Paraguay.
Cuba.	Peru.
Dominican Republic.	El Salvador.
Ecuador.	Uruguay.
Guatemala.	Venezuela.
Haiti.	

§ 810.2 *General provisions.* (a) There is hereby established a limited production license designated "LPL" authorizing the exportation, subject to the provisions of paragraphs (b), (c), (d) and (e) of this section, to any destination listed in § 810.1, of farm machinery, equipment and repair parts manufactured for export under the provisions of War Production Board Order L-257-a and classified under one of the following

Department of Commerce Schedule B numbers:

7800.00 thru 7841.00 7879.00 thru 7886.00
7844.00 thru 7870.00 7889.05 thru 7899.98

and commodities classified under one of the following Department of Commerce Schedule B numbers provided they are to be exported for farm use, including irrigation or drainage purposes:

6106.00 7355.00 thru 7369.00
6185.00 7592.00

7012.00 7750.98 (core valves
7223.00 only)
7226.00 7975.00
7228.00

(b) Any exporter who expects to ship to the group of destinations set forth in § 810.1 during the year beginning July 1, 1944, a total net weight of 25 tons or more of such farm machinery, equipment and repair parts shall file an "Application for Distribution Schedule for Agricultural Equipment" in the form and manner prescribed by the Foreign Economic Administration and may export under this license during the year beginning July 1, 1944, to any destination set forth in § 810.1 not more than the quantity of farm machinery, equipment and repair parts approved by the Foreign Economic Administration for export to each such destination in said distribution schedule. Any exporter, other than a manufacturer or manufacturer's agent, shall, in addition, submit a statement from the manufacturer of such farm machinery, equipment, and repair parts that the commodities to be exported as set forth in said distribution schedule have been charged to the manufacturer's export production quota.

(c) Exporters who expect to ship to the group of destinations set forth in § 810.1 during the year beginning July 1, 1944, a total of less than 25 tons of farm machinery, equipment and repair parts are not required to file an "Application for Distribution Schedule for Agricultural Equipment" and may export under the provisions of this license not more than a total net weight of 25 tons of farm machinery, equipment and repair parts during the year beginning July 1, 1944, to the group of destinations set forth in § 810.1.

(d) No exporter may export more than 25 tons net weight of such farm machinery, equipment and repair parts during the year beginning July 1, 1944, to the group of destinations set forth in § 810.1 unless such exporter has filed an "Application for Distribution Schedule for Agricultural Equipment" as prescribed in paragraph (b) of this section, and an approved distribution schedule has been issued to such exporter.

(e) The provisions of § 801.7 shall not apply to exportations under this limited production license. In lieu of the presentation of an individual export license or other document issued by the Foreign Economic Administration for clearance of an exportation with the United States Collector of Customs or the United States Postmaster, the exporter shall present a Shipper's Export Declaration bearing one of the following certifications:

(1) When the exportation is being made pursuant to the provisions of paragraph (b) of this section the following certification shall be used:

The export of these materials, _____ pounds, under Limited Production License "LPL" to _____ is authorized

(Country)
by the Foreign Economic Administration and is within the limitations set by a "Distribution Schedule for Agricultural Equipment" approved by the Foreign Economic Administration _____
(Date)

(Signed)

(2) When the exportation is being made pursuant to the provisions of paragraph (c) of this section the following certification shall be used:

The undersigned certifies to the Foreign Economic Administration that the export of these materials, _____ pounds, is authorized under Limited Production License "LPL" and that the total quantity of such materials, including this shipment, exported by the undersigned under such license during the year commencing July 1, 1944, does not exceed 25 short tons.

(Signed)

§ 810.3 Reports. All holders of an approved "Distribution Schedule for Agricultural Equipment" shall report to the Foreign Economic Administration on or before the 15th day of the first month of each calendar quarter the total shipments made under this license during the immediately preceding quarter. Such report shall be made on the form or forms and in the manner prescribed by the Foreign Economic Administration.

Chapter IX—War Production Board

AUTHORITY: Regulations in this chapter, unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 177; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended Dec. 31, 1943, 9 F.R. 64.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-764]

H. H. ROSINSKY & CO.

Jesse J. Rosinsky, doing business as H. H. Rosinsky & Co., is engaged in the manufacture of women's dresses and maintains a factory and place of business at 123 North 5th Street, Philadelphia, Pennsylvania. On July 25, 1944, by direction of the War Production Board, pursuant to Women's House Dresses Program No. 1, under Conservation Order M-328B and Supplement III of Schedule A of that order he was assigned a preference rating of AA-3 to procure delivery of print cloth to produce the quantities of women's dresses listed under paragraph (4) of that direction. Paragraph (4) of the said direction was amended by letter of September 23, 1944 and provided that the material procured by him should be used

only to manufacture 186 dozen—sizes 12 to 20, 319 dozen—sizes 38 to 44 and 319 dozen—sizes 46 to 52 of women's house dresses. Subsequently the respondent used the print cloth procured, to manufacture 861 dozen—sizes 12 to 20, 165 dozen—sizes 38 to 44 and 103 dozen—sizes 46 to 52 of women's house dresses, contrary to and in violation of the said direction and Conservation Order M-328B. Jesse J. Rosinsky was familiar with the direction, Conservation Order M-328B and Supplement III of Schedule A of that order and his action constituted wilful violation thereof.

This violation has diverted critical materials to uses not authorized by the War Production Board and has impaired and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered, that:

§ 1010.764 Suspension Order No. S-764. (a) Jesse J. Rosinsky, doing business as H. H. Rosinsky & Co., shall not for a period of two months from the effective date of this order participate in any special program under Conservation Order M-328B providing for an allocation on a preference rating of AA-3 or higher.

(b) The restrictions and prohibitions contained herein shall apply to Jesse J. Rosinsky, doing business as H. H. Rosinsky & Co., or under any other name, his successors or assigns or any person acting in his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of such action.

(c) Nothing contained in this order shall be deemed to relieve Jesse J. Rosinsky, doing business as H. H. Rosinsky & Co., his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on the 24th day of April 1945.

Issued this 17th day of April 1945.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-765]

KINKADE RADIO SUPPLY

E. T. Kinkade, doing business as Kinkade Radio Supply, with his principal office at 1412 Main Street, Jacksonville, Florida, and a branch office in Tampa, Florida, is engaged in the purchase and sale at wholesale and retail of electronic equipment. Between January 1, 1944 and August 31, 1944 he transferred approximately \$15,000 worth of electronic equipment to suppliers and consumers in violation of the provisions of General Limitation Order L-265 and in addition thereto he made various sales of electronic equipment other than for maintenance, repair and operating supplies in violation of Preference Rating Order P-133. E. T.

Kinkade was familiar with said Orders and the violations were wilful.

These violations have diverted scarce materials to uses not authorized by the War Production Board and have hampered and impeded the war effort of the United States of America. In view of the foregoing, it is hereby ordered, that:

§ 1010.765 *Suspension Order No. S-765.* (a) For a period of three months from the effective date of this order, unless hereafter specifically authorized in writing by the War Production Board, E. T. Kinkade shall not sell or transfer any electronic equipment except to fill preferred orders as defined in or controlled by General Limitation Order L-265, as amended from time to time, or to fill orders bearing a preference rating of A-1-a, or higher.

(b) The restrictions and prohibitions contained herein shall apply to E. T. Kinkade, doing business as Kinkade Radio Supply, or under any other name, his successors or assigns or persons acting on his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(c) Nothing contained in this order shall be deemed to relieve E. T. Kinkade, doing business as Kinkade Radio Supply, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall become effective on April 24, 1945.

Issued this 17th day of April 1945.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-766]

VAN DYKE INDUSTRIES

Van Dyke Industries, a partnership composed of Stephen Zidek and Genevieve Zidek, with principal place of business at 2559 West 21st Street, Chicago, Illinois, is engaged in the manufacture and sale of portable lamps and fluorescent lighting fixtures. Between October 1, 1943, and August 31, 1944, the partnership manufactured or produced approximately 13,016 portable lamps on orders which were not preferred orders, and, during the same period of time, manufactured approximately 23,667 metal shades, all in violation of General Limitation Order L-33. The responsible partner was aware of the provisions of the aforementioned order and his actions constituted grossly negligent violations of General Limitation Order L-33.

These violations have diverted critical materials to uses not authorized by the War Production Board, and have hampered and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered, that:

§ 1010.766 *Suspension Order No. S-766.*

(a) Stephen and Genevieve Zidek shall not for two months from the effective date of this order directly or indirectly put into process, continue to process, manufacture or assemble any material to make any portable lamps or parts thereof.

(b) The provisions of paragraph (a) shall not apply to any direct order or contract with the Army, Navy, or Maritime Commission of the United States, or the War Shipping Administration.

(c) Nothing contained in this order shall be deemed to relieve Stephen and Genevieve Zidek from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

(d) The restrictions and prohibitions contained herein shall apply to Stephen Zidek and Genevieve Zidek, doing business as Van Dyke Industries, or under any other name, their successors and assigns or persons acting in their behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(e) This order shall take effect on April 24, 1945.

Issued this 17th day of April 1945.

PART 1029—FARM MACHINERY

[Preference Rating Order P-153]

RATING FOR DISTRIBUTORS OF FARM MACHINERY REPAIR PARTS

§ 1029.36 *Preference Rating Order P-153—(a) What this order does.* This order tells how "distributors" can get a priority to buy certain repair parts for "farm machinery and equipment" from a manufacturer of the parts for resale to farmers or dealers. A "producer" of farm machinery and equipment under Order L-257 has a priority for these parts (either as production material for complete implements, or for resale as repair parts to round out his line) under CMP regulations. This order gives a similar priority to distributors who customarily buy these parts direct from the same sources of supply for resale only, and who get a serial number as explained below.

(b) *What repair parts are covered.* This order covers only items and components to be used on and sold as repair parts for "farm machinery and equipment", excluding parts manufactured by "producers" of farm machinery and equipment, and also excluding automotive replacement parts and nuts, bolts, screws, rivets, and washers.

(c) *Assignment of priority rating.* (1) Any "distributor" who gets a serial number under paragraph (d) below, may use a priority rating of AA-2 to get repair parts to be re-sold to farmers (or to dealers who supply farmers) for the repair of farm machinery and equipment.

This rating may be used to get these parts only from the manufacturer of the parts. It cannot be used to get any parts made by producers under Order L-257, nor to get any other items for which priority ratings are not permitted to be used under other WPB orders or regulations.

(2) Subject to the above conditions, the rating may be used instead of applying for one on Form WPB-547, and may be applied and extended in the manner described in Priorities Regulation 3. The distributor's serial number must be included in the certification required by that regulation.

(d) *How to get a serial number.* Any person may apply to the War Production Board for a serial number under this order. In general, a serial number will be given only to a person at least 50% of whose total business is acting as a "distributor", as defined below, or who is a major factor in this field of distribution. This application may be made by filing a letter in triplicate addressed to War Production Board, Wholesale and Retail Trade Division, Washington 25, D. C., Ref: P-153, and should give the following information:

(1) The nature of the distributor's business (for example: wholesale hardware, farm supply jobber, farm machinery distributor, etc);

(2) The amount of his total sales of all products in 1941;

(3) The total estimated amount of his 1941 sales to farmers (either directly or through dealers) of repair parts and other farm production supply items;

(4) Any other pertinent facts, such as the total amount under (3) purchased direct from manufacturers of the items, if known.

If exact figures cannot be furnished, the distributor should give his best estimates and an explanation of the basis for his estimates.

(e) *Penalty for violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(f) *What is meant by "distributor."* As used in this order, "distributor" means any person who engages in the business of buying repair parts covered by this order and other farm production supply items and repair parts direct from the manufacturers, and reselling them to farmers or to dealers who supply farmers.

(g) *What is meant by "farm machinery and equipment."* "Farm machinery and equipment" means agricultural machinery, mechanical equipment and implements of the types ordinarily manufactured for farm use and listed on Schedule B to Order L-257. The term includes attachments. It does not include track-laying type tractors, me-

chanically refrigerated milk coolers (see Order L-38), fencing, poultry netting and wire, wire fencing, bale ties or straps, oil well casing and water pipe, grain bins and corn cribs, hog or poultry houses and similar buildings, water storage tanks, nails (all kinds), and sundry hardware (including hand tools, chain, barn door track, pulleys, scales and similar items not described in Schedule B). "Farm use" means use for the production or care of crops, livestock, livestock products, bees or poultry on a farm (or elsewhere in the case of poultry).

(h) *What is meant by "producer".* "Producer" means any person engaged in the manufacture of farm machinery and equipment. However, the term does not include any person engaged in the manufacture (for sale to a producer) of materials, parts, assemblies or subassemblies to be physically incorporated into farm machinery and equipment or repair parts manufactured by that producer, or to be resold by that producer as repair parts.

(i) *Communications.* All communications concerning this order should be addressed to War Production Board, Wholesale and Retail Trade Division, Washington 25, D. C., Ref: P-153.

PART 3270—CONTAINERS

[Limitation Order L-317, Interpretation 5]

REPAIRED OR RECONDITIONED CONTAINERS

The following interpretation is issued with respect to Limitation Order L-317:

A question has arisen as to whether the acceptance or use of certain types of containers made from solid fibre (.045 or heavier) or corrugated fibre is subject to the provisions of Order L-317. The containers in question are those which a packer obtains that have been used previously either by him or by someone else for packing, storing or shipping a product and that are not suitable for immediate reuse. These used containers are either repaired or reconditioned in his establishment or are sent to other persons for such work to be performed and then returned to him. In either case, the used containers are repaired by taping the damaged parts or are cut into different sizes and the sides and ends taped together. Used liners that were part of the previously used containers are sometimes separated from the

containers and are reformed and reshaped to make containers of various sizes.

In all cases covered by this interpretation, the newly shaped containers consist of no containerboard except used sides and tops and bottoms of the original containers or liners that have been previously used. No unused containerboard is added. The containerboard in such containers or liners is not reprocessed or ground into pulp as is the case when used containerboard is received by a containerboard manufacturer.

The reformed and reshaped containers described above are not subject to the restrictions of Order L-317. Such containers are not "fibre shipping containers" as defined in paragraph (b) (1) of Order L-317, because they are not regarded as being "new".

Issued this 24th day of April 1945.

Chapter XI—Office of Price Administration

PART 1347—PAPER, PAPER PRODUCTS, RAW MATERIALS FOR PAPER AND PAPER PRODUCTS, PRINTING AND PUBLISHING

[MPR 30, Amdt. 12]

WASTEPAPER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 30 is amended in the following respect:

Section 1347.14 (f) is amended to read as follows:

(f) Each sale of commercially packed wastepaper shall be invoiced and each shipment of commercially packed wastepaper shall be accompanied by a manifest.

Invoice requirements. Each invoice shall separately state:

(1) The date of loading; the name and address of the buyer and seller, and of any consignee;

(2) The name of each grade, the total weight of each grade, and, if baled, the number of bales of each grade and the

weight of each bale. The grade name shall be the applicable grade name listed in § 1347.14 (a) or it shall be the grade name of a specialty sold in accordance with the provisions of § 1347.14 (c). The data required by this subparagraph (2), except for grade name and the number of bales of each grade, need not be stated by any seller where there are no weighing facilities available to the commercial packer thereof or where the commercial packer of the wastepaper is not engaged in the business of buying wastepaper for resale;

(3) The price charged per ton for each grade, the loading charge, if any, and the amount of broker's allowance, if any;

(4) Identification of origin of shipment by street and city or town address. However, if the wastepaper is sold by a broker, the broker need not state the street address on the invoice rendered to his customer but he shall state the street address on the copy he retains in his files.

(5) The license number, or truck number, of any truck into which the wastepaper is loaded; or the railroad car number and initials, or both, if the paper is loaded first into a truck and later into a railroad car.

The invoice shall be prepared by the seller and mailed to his buyer before the end of the business day following the day when the wastepaper was shipped, except that when the seller does not receive the description of the wastepaper from his supplier within that time, he shall prepare and mail an invoice to his buyer as soon as he receives that description.

Manifest requirements. Each manifest shall separately state all the above data except that it need not state data required by subparagraphs (1), (3) and (4); but the name of the town or city of origin and the date of loading shall be stated.

The manifest shall be prepared by the first seller making delivery from a warehouse or a packing plant or other point of accumulation, regardless of the nature of his buyer, and shall accompany the shipment of wastepaper to the consumer irrespective of who owns or controls the vehicle or carrier in which the shipment is made and irrespective of any resale of the paper by such first seller to any intermediate buyer except that where the buyer places the wastepaper in a warehouse for resale, such buyer, on resale, shall prepare the manifest which shall accompany the shipment to the consumer and except that where a seller changes the shipment so that the original manifest is no longer fully applicable, such seller shall prepare a new manifest which shall accompany the shipment to the consumer.

The manifest shall be posted in the railroad car or other vehicle by the first seller who causes the waste paper to be loaded in the car or other vehicle. However, in situations where the seller is prohibited by the railroad company or governmental authority from entering upon the property for the loading of waste paper into a railroad car, no manifest need be posted therein.

In all cases, the buyer shall keep every invoice and manifest received by him and the seller shall keep a copy of each invoice and manifest prepared by him.

The broker shall, except with respect to waste paper shipped out of his own warehouse, attach to his copy of each invoice prepared by him, all invoices representing his purchases of the waste paper covered by his invoice to his buyer, or shall otherwise identify by his records his sources of supply of all paper in each shipment made by him.

This amendment shall become effective April 23, 1945.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[RMPR 169, Amdt. 53]

BEEF AND VEAL CARCASSES AND WHOLESALE CUTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

1. A footnote reference 1 is inserted after the words "Choice or AA", "Good or A" and "Commercial or B" in paragraph (d) (2) of the table in § 1364.452 and a footnote is added to appear below the table reading as follows:

¹ 25 cents per hundredweight may be added on sales of beef carcasses or sides and/or hindquarters to a war procurement agency or on sales of set-aside beef carcasses or sides and/or hindquarters to any authorized purchaser of set-aside beef where the latter transaction is covered by a separate invoice and where such purchaser has satisfied the requirements of WFO 75.2.

2. Paragraph (m) (2) and (m) (5) of § 1364.452 are amended to read as follows:

(2) The maximum f. o. b. boning plant price for frozen boneless beef (Army specifications) in each of the following price zones shall be:

[Zone prices per hundredweight in carload or less than carload quantities; frozen and packaged. The price for any fraction of a hundredweight shall be reduced accordingly. Additions and deductions of Schedules III and II, respectively, are not applicable.]

VITAMIN A NATURAL OILS AND CONCENTRATES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 203 is amended by inserting the following paragraph at the end of § 1396.214 Appendix A (a).

The maximum prices set forth above shall not apply to sales to industrial consumers for use in animal feeds of Vitamin A natural oils having a potency of less than 6,000 U. S. P. units per gram and made by blending a Vitamin A containing fish or marine animal liver oil with a non-Vitamin A oil if such sales were made on an adjustable pricing basis pursuant to Order No. 1, as amended, under Sec. 1346.204 of this regulation prior to April 24, 1945 and the application hereinafter referred to is received by the Office of Price Administration prior to May 15, 1945. The maximum prices for such sales shall be those approved by the Office of Price Administration in response to an application therefor which shall be submitted by registered mail to the Rubber, Chemicals and Drugs Price Branch, Office of Price Administration, Washington 25, D. C., and shall be equal to the sum of the seller's ceiling prices for the components of the Vitamin A natural oil if such components were sold separately. The application shall contain the following information relative to each sale:

1. Full description of the Vitamin A feeding oil, including potency and components used in its preparation. (Show full details of description and quantity of each component used in making each lot and your ceiling price per lb. for sales of each component.)
2. Quantity sold, in pounds.
3. Name and address of purchaser.
4. Date of sale and dates of deliveries.
5. Requested price, in cents per pound. (Show how this requested price was determined.)

If at the expiration of 20 days from the date of receipt of such application containing all the information specified above, the Price Administrator has not in writing disapproved or modified the proposed maximum price, such price may be considered as authorized.

This amendment shall become effective April 30, 1945.

NOTE: All record keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[MPR 580, Amdt. 3]

RETAIL CEILING PRICES FOR CERTAIN APPAREL
AND HOUSE FURNISHINGS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 580 is amended in the following respects:

- Section 1 (c) is amended by inserting a sentence following the first sentence of the first paragraph thereof to read as follows: "Articles which are bought and sold in substantially the same form are defined in section 24 (b)."
- Section 5 is amended to read as follows:

SEC. 5. *Failure to file charts.* On and after May 4, 1945, you may not offer, sell or deliver any article covered by this regulation unless you have filed the chart described above. On and after May 10, 1945, you may not offer, sell or deliver any article covered by this regulation until you have received from the Office of Price Administration an acknowledgment of the filing of your chart.

3. Section 24 is amended by designating the first paragraph thereof as paragraph (a), and by adding paragraph (b) to read as follows:

(b) An article is "bought and sold in substantially the same form" if the article which you sell belongs to the same category as the article you bought, and if, before offering it for sale, you have not added to the article you sell, materials which cost you more than 10% of the net cost (as defined in section 7) of the original article. If you have added to the article, materials which cost you more than 10% of the net cost of the original article, or if the change you make causes you to be a manufacturer

¹ 10 F.R. 3015, 3468.

under Maximum Price Regulation No. 188,² it is not bought and sold in substantially the same form and therefore is not covered by this regulation.

4. Appendix B is amended by adding paragraph (v) to read as follows:

(v) Naval uniforms sold at prices determined by contracts entered into under the Naval Officer's Uniform Plan.

This amendment shall become effective April 23, 1945.

Issued this 23d day of April 1945.

Section 4.3 (1) (1) is amended to read as follows:

(1) Completed rations: C; D; K; Aircraft Emergency Rations; Assault Lunch; Battle Station Rations; Beverage Pack Aid Rations; Chili Con Carne; Corned Beef Hash (5½-pound can); Emergency Rations for Life Rafts and Boats; Kitchen Spice Pack; Life Raft; Lunch, Air Crew; Meat and Vegetable Stew (30-ounce can); Meat and Vegetable Hash (6-pound 12-ounce can); Parachute Emergency Ration; Ration, Accessory Packet; Ration, Life Belt, Airborne; Ration, Supplement Hospital; Red Cross Food Package—Army; and Ten-in-One.

This amendment shall become effective April 30, 1945.

Issued this 24th day of April 1945.

CHESTER BOWLES,
Administrator.

Chapter XVIII—Office of Economic
Stabilization
[Directive 41]

PART 4003—SUPPORT PRICES, SUBSIDIES
LIVESTOCK SLAUGHTER PAYMENTS

Pursuant to the authority vested in me by the act of October 2, 1942, entitled "An Act to Amend the Emergency Price Control Act of 1942, to Aid in Preventing Inflation, and for Other Purposes", and by Executive Order No. 9250 of October 3, 1942, and Executive Order No. 9328 of April 8, 1943; *It is ordered:*

SECTION 1. This directive is designed to implement the stabilization and production programs with respect to cattle, as instituted and carried forward by the following directives of the Economic Stabilization Director: The directive on Livestock Slaughter Payments, issued October 26, 1943; Directive No. 28, Control of Prices of Live Cattle and Calves, issued January 10, 1945; and Directive No. 38, Livestock Slaughter Payments, issued March 21, 1945. Those directives are revoked so far as they are inconsistent with this directive, and remain in effect in all other particulars.

SEC. 2. The direction in sections 2 (b) and 5 (b) of Directive No. 28 to change the prices for live cattle of choice grade and the subsidy rates on choice grade on July 2, 1945, is revoked.

SEC. 3. The direction in Directive No. 38, as amended, to make an additional subsidy payment of one-half the amount the cost of cattle exceeded a cost one-third of the range above the minimum prices is revoked as of May 1, 1945.

SEC. 4. Defense Supplies Corporation is directed to pay the following rates by grades for cattle slaughtered on and after May 1, 1945:

(a) (Except as provided in paragraph (c) of this section) by persons ineligible for extra payments under paragraph 5 of the Directive of October 26, 1943:

	Cents a pound
AA or choice.....	2.75
A or good.....	2.70
B, commercial or medium.....	1.65
C, utility or common.....	1.00
D, cutter and canner.....	1.00
Bulls of cutter and canner grade.....	1.00

If the cattle are not graded by a federal grader of the United States Department of Agriculture, the total amount of the claim (before deductions on account of cost of cattle) shall not exceed \$1.65 per hundredweight on the total live weight.

(b) (Except as provided in paragraph (c) of this section) by persons eligible for extra payments under paragraph 5 of the Directive of October 26, 1943:

	Cents a pound
AA or choice.....	2.25
A or good.....	2.20
B, commercial or medium.....	1.15
C, utility or common.....	.60
D, cutter and canner.....	.60
Bulls of cutter and canner grade.....	.60

If the cattle are not graded by a federal grader of the United States Department of Agriculture, the total amount of the claim (before deductions on account of cost of cattle) shall not exceed \$1.30 per hundredweight on the total live weight.

(c) On cattle whose cost is not required to be reported:

	Cents a pound
AA or choice.....	2.00
A or good.....	1.95
B, commercial or medium.....	.90
C, utility or common.....	.50
D, cutter and canner.....	.50
Bulls of cutter and canner grade.....	.50

If the cattle are not graded by a federal grader of the United States Department of Agriculture, the total amount of the claim (before deductions on account of cost of cattle) shall not exceed \$1.30 per hundredweight on the total live weight. If such cattle are not required to be reported by grades, the rate shall remain at \$1.10 per live hundredweight.

SEC. 5. (a) Defense Supplies Corporation is directed to pay to any slaughterer an additional subsidy upon certification by the Price Administrator to Defense Supplies Corporation of the slaughterer to whom payment shall be made and the amount to be paid such slaughterer.

(b) Only a slaughterer whose establishment operated profitably within the period 1938-1941 shall be eligible for the additional subsidy. An establishment shall be deemed to have operated profitably in the period 1938-1941 if, during that period or such part of it as the establishment was in operation, the business either earned a profit on sales of meat and related products on the average for the period of operation or earned such a profit during at least half of the years within the period. The amount of additional subsidy to be paid any slaughterer shall be that amount determined to be necessary to make the slaughterer's total revenue from consolidated operations equal to his total costs of operation for the balance of his current fiscal year from May 1, 1945, or for any subsequent fiscal year. The amount of this additional subsidy shall be determined and paid on the basis of a complete audit of the slaughterer's operations at the close of the slaughterer's fiscal year. This additional subsidy shall be paid only to a slaughterer who has been in compliance with applicable price and rationing regulations during the period for which relief is sought.

(c) The provisions of this section shall be subject to termination on 10 days' notice. In the event of termination, payment of the additional subsidy shall be made to any slaughterer who has applied for the subsidy on the basis of the results of his operations from the beginning of the applicable period to the date of termination.

(d) Applications for this additional subsidy shall be filed with the Price Administrator during the period for which relief is sought. The Price Administrator is directed to make the determinations required by this section and issue whatever instructions, regulations or orders, containing such terms and conditions as he deems necessary to effectuate the provisions of this section.

SEC. 6. Defense Supplies Corporation is directed to deduct from each claim reporting cost of cattle, two-thirds of the dollar amount by which the total cost of cattle is below the maximum per-

missible cost, as presently computed. This deduction shall not exceed two-thirds of the difference between the maximum and minimum permissible costs. This deduction is in addition to that provided in paragraph 3 of the Directive of October 26, 1943, but if this deduction exceeds the amount of basic subsidy, the excess shall not be applied against the claim for extra compensation.

SEC. 7. (a) Upon certification by the Price Administrator to Defense Supplies Corporation that a slaughterer has refused or failed to furnish any information requested by the Price Administrator, Defense Supplies Corporation shall withhold payment of all accrued and future payments to such slaughterer until the Price Administrator certifies to Defense Supplies Corporation that such slaughterer has furnished the information requested. Upon this latter certification, Defense Supplies Corporation shall then pay to such slaughterer the amount of subsidy to which such slaughterer would otherwise be entitled.

(b) (1) Defense Supplies Corporation is directed to continue its present procedure of declaring invalid, in whole or in part, any claim for subsidy payment filed by an applicant who, in the judgment of the Price Administrator, has willfully violated any meat or livestock regulation or order issued by the Price Administrator. Such a judgment shall be made only in the event the alleged violation is referred to the United States Attorney for prosecution.

(2) Upon a *misi prius* determination in a civil action or proceeding (including a proceeding before a hearing commissioner) against a subsidy applicant, that such applicant has violated any substantive provision of an Office of Price Administration meat or livestock regulation or order, the Office of Price Administration shall certify the determination to Defense Supplies Corporation, including the period of time during which the violation is found to have occurred. Defense Supplies Corporation shall thereupon withhold payment on all subsidy claims of the applicant for the accounting period in which the violation is found to have occurred. At the same time that the certification is made to Defense Supplies Corporation, the Office of Price Administration shall in writing notify the subsidy applicant that the certification is being made and request the applicant to submit to the Office of Price Administration a signed statement indicating whether he operates more than one selling establishment and, if so, giving for the accounting period or periods during which the determination of violation was made, the gross dollar sales of meat and related products made through the establishment determined to be in violation and the gross dollar sales of meat and related products of all establishments. Upon receipt of such signed statement giving the gross dollar sales as specified, in the event the applicant has more than one selling establishment, the Office of Price Administration shall determine what percentage of the applicant's gross dollar sales of all establishments is represented by the gross dollar sales of the establishment

determined to be in violation. The Office of Price Administration shall thereupon notify the Defense Supplies Corporation to change its withholding of subsidy payment to an amount equal to the specified percentage of the subsidy withheld following the certification. In the event that the determination of violation shall be reversed and such reversal becomes final, the amount of subsidy withheld pursuant to this paragraph shall be payable forthwith.

For the purposes of this section, every provision of a regulation or order shall be deemed substantive in nature unless the Office of Price Administration determines otherwise.

(c) No slaughterer shall be entitled to subsidy payments during a period in which he has manipulated his operations so that his reported cost of cattle or weights or grades are not a reflection of the actual cost of the cattle, weights or grades. The Price Administrator is directed to investigate and make determinations in such cases and Defense Supplies Corporation is directed at the request of the Price Administrator to withhold subsidy payments from such slaughterer for the periods involved. Specifically, but not exclusively, a slaughterer is ineligible for subsidy payments:

(1) In the event that any of the cattle slaughtered during such monthly accounting period were purchased by such slaughterer from a seller with whom he has a financial affiliation or relationship, unless such cattle were purchased at no higher price than the price paid for such cattle by such seller plus a reasonable handling charge; or

(2) In the event that any of the cattle slaughtered during such accounting period were purchased by such slaughterer from another person upon consideration or condition of a present or subsequent purchase, sale or transfer of livestock between such slaughterer and such person; or

(3) In the event that the slaughterer has used a direct or indirect method, transaction, practice or device which results in a claim for subsidy payments to which he is not otherwise entitled under the directives and regulations providing for such subsidy payments; and

(4) Unless such slaughterer certifies to Defense Supplies Corporation in connection with his claim for subsidy payments that he has not engaged in any of the above practices.

(d) The provisions of this section 7 shall not be construed as prohibiting the imposition of other conditions to the receipt of subsidy payments which are authorized by law.

SEC. 8. The Administrator of the Office of Price Administration is directed to prepare a program for the control of the distribution of the total slaughter of hogs, cattle and calves, among federally inspected slaughterers. He is directed to obtain all the information and data necessary for putting such a program into effect, to consult with industry with respect thereto, and to submit the program in detail to the Economic Stabilization Director as soon as practicable. Such program shall be put into effect only upon the Director's determination

that the program is necessary to protect livestock ceiling prices or to prevent causing a serious maldistribution of the civilian meat supply, and upon his approval of the particular program.

SEC. 9. The Price Administrator is directed to undertake periodically a study of the financial operations of the meat industry with a view to recommending to the Economic Stabilization Director proposed periodic changes in the amount of subsidy for livestock slaughtered in the light of changes in the financial operations of the meat industry.

SEC. 10. The Price Administrator is directed to take into consideration the effect of the subsidy changes effectuated by this Directive in determining the amount of any proposed change in subsidy payments on hogs slaughtered.

NOTE: All reports or information required to be submitted pursuant to this directive shall be subject to approval by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This directive shall become effective April 24, 1945.

Issued this 23d day of April 1945.

WILLIAM H. DAVIS,
Director.

AUTHORITY: §§ 1.1 to 1.25, inclusive, issued under sec. 18, 42 Stat. 216; 23 U.S.C. 19; Public Law 521, 78th Congress.

§ 1.1 Definitions. For the purposes of the regulations in this part, the following terms shall be construed, respectively, to mean:

(a) "Act:" The Federal-Aid Road Act of July 11, 1916, and all acts amendatory thereof or supplementary thereto (U.S.C. title 23), and the "Federal-Aid Highway Act of 1944" (Public Law 521, 78th Congress), except those provisions which relate to national forest roads and highways, national park and national park approach roads and parkways, and Indian reservation roads under the Act of May 26, 1928 (45 Stat. 750).

(b) "Administrator:" The Federal Works Administrator, Federal Works Agency.

(c) "Commissioner:" The Commissioner of Public Roads, Public Roads Administration, Federal Works Agency.

(d) "State highway department:" The department of each State government adequately organized and equipped to exercise all the functions incident to operations under the Federal highway legislation and authorized, by the laws of the State, to make final decisions for the State in all matters relating to, and to enter into on behalf of the State, all contracts and agreements providing for State-Federal cooperative road projects.

(e) "Latest available Federal census:" The Federal census of 1940.

(f) "Urban area:" An area including and adjacent to a municipality or other urban place, of five thousand or more, listed in Tables 13 and 14, Volume I, Sixteenth Census of the United States, 1940, published by the U. S. Department of Commerce, Bureau of the Census, 1942.

(g) "Rural areas:" All areas of the State not included in "urban areas".

§ 1.2 Intent of the act (Federal-Aid Highway Act of 1944). The Federal-Aid Highway Act of 1944 is held:

(a) To establish the pattern for a long-range program of highway development designed for the national defense and to serve the major classes of highway traffic broadly defined as (1) interstate or interregional, (2) intercity or intrastate, (3) rural secondary or farm-to-market, and (4) intra-urban, restricted in cities above five thousand to general use streets which are extensions of Federal-aid routes;

(b) To recognize the State highway department as the legal representative of the State including all government subdivisions in the administration of the act within each State;

(c) To provide for a more comprehensive rural road program through cooperation between the State highway department, the county or other appropriate local road officials and the Public Roads Administration in the selection and improvement of the system of principal secondary or feeder roads;

(d) To insure continuity in the direction of expenditures to accomplish the objectives of the long-range program by the selection of road systems as defined in § 1.4 and by an annual improvement program of projects lying upon each system (see § 1.6);

(e) To create for the purposes of the act "urban areas" predicated upon the characteristic urban quality of traffic which overflows municipal boundaries

into suburban communities and to make provision for aiding the planning and development of arterial highways to serve such areas.

§ 1.3 Organization and powers of State highway department. Each State shall maintain at its own expense a State highway department as defined in § 1.1, having adequate powers and suitably equipped and organized to discharge to the satisfaction of the Administrator the duties required by the act and by the regulations in this part. From time to time as the Administrator may determine, there shall be furnished to him, by or on behalf of a State, information concerning: (a) laws affecting roads and the authority of the State and local officials in reference to the acquisition of rights-of-way, construction, maintenance, and control of roads; (b) the State highway department, how equipped and organized; (c) constitutional and legislative provisions relative to revenues for the administration, construction, reconstruction, and maintenance of roads; and (d) funds that will be available to meet the State's share of the cost of construction work to be performed and the sources of such funds.

§ 1.4 Selection and designation of highway systems. The highway systems designated to become the pattern for the long-range development of adequate highway service shall be so selected as to form an integrated net within each State and with like systems at State boundaries. There is no predetermined time limit for the submission of the full selection of the systems and no fixed maximum for the mileage of the systems other than the specific limitations of the act.

Projects on the presently approved Federal-aid highway system, and on secondary road systems which were selected in cooperation with appropriate local road officials as required by section 3 (b) of the Federal-Aid Highway Act of 1944, may be included in programs proposed by the State highway department for improvement under the act without further system approvals. Prior to the inclusion in the program of projects lying off the approved systems, the routes of which such projects form an integral part shall be submitted by the State highway department and approved by the Commissioner as routes of the appropriate system.

The extent of the over-all mileage of the systems as finally approved shall be determined by the ratio of the estimated annual income that will be available from all sources for, and the estimated annual costs of, the maintenance, construction and reconstruction of the mileage included in the long-range program and shall be so balanced as to permit completion of the initial improvements within a reasonable period of years. The conservation and development of natural resources and of economic and social values, particularly those encouraging desirable land utilization, by providing adequately improved and maintained highways are to be given greater weight in the selection of routes for inclusion in the several systems than is the existing numerical traffic volume.

The highway systems to be selected and designated in accord with the requirements of the act are:

(a) A national system of interstate highways as required by section 7 of the Federal-Aid Highway Act of 1944.

(b) The Federal-aid highway system as now constituted and approved, with such revisions as may be approved. Transfers, if conditions warrant, may be made between the systems.

(c) A system of principal secondary and feeder roads as required by section 3 (b) of the Federal-Aid Highway Act of 1944. The roads selected shall be roads not included in the Federal-aid highway system and shall be exclusively within "rural areas", except that in States which have a population density exceeding 200 per square mile, roads and streets within "urban areas" may be included. The system so selected in cooperation with local road officials shall be submitted to the Commissioner of Public Roads in the form required by him and shall be subject to his approval.

The manner of cooperation with county, municipal or other appropriate local road officials to meet the requirements of section 3 (b) of the act shall be determined and exercised by each State highway department.

§ 1.5 Establishment of "urban area" boundaries. Prior to the inclusion in a proposed program of any project involving funds authorized for urban areas, the boundaries of the particular urban area or areas involved shall be submitted by the State highway department and approved by the Commissioner, in accord with the terms of the act. Projects in urban areas for which the boundaries have been established may be approved prior to the determination of the boundaries of all urban areas within a State.

§ 1.6 Programs of proposed projects. Each State highway department shall prepare and submit to the Commissioner for approval detailed programs of proposed projects for the utilization of any apportionment of funds made to the State under the provisions of the act. These programs shall be in such form and shall be supported by such information as the Commissioner may require.

§ 1.7 Project statements. (a) A project statement, on a form furnished by the Commissioner, may be submitted for the whole or a substantial part of a continuous route embraced in the Federal-aid highway system or in the system of principal secondary and feeder roads selected or designated in accordance with the provisions of the act.

(b) Each project statement shall be accompanied by such information as the Commissioner may require, including a sketch map in sufficient detail and covering such length of road as may be necessary to determine the fitness of the general location for improvement on the road system of which it forms a part.

(c) The Commissioner shall not authorize the advertisement of any project and shall not concur in the award of any contract for any project until the project statement has been approved.

§ 1.8 Surveys, plans, specifications, and estimates. (a) Surveys, plans, specifications, and estimates for all projects shall be prepared by or under the immediate direction of the State highway department and shall show in convenient form and detail the work to be performed and the probable cost thereof, all in conformity with the standards governing form and arrangement prescribed by the Commissioner.

(b) The State highway department may utilize the services of well-qualified and suitably equipped engineering organizations of counties, municipalities, or other local subdivisions, acting under its direction, for making surveys, preparing plans, specifications, and estimates, and for supervising the construction of any project. Inasmuch as the act requires each State to maintain at its own expense a State highway department having adequate powers and suitably equipped and organized to discharge the duties required, no part of the cost of maintaining the central office of a State highway department or the central office of any publicly maintained engineering organization which may be utilized by the State shall be paid with Federal funds.

The State highway department may utilize the services of the engineering organizations of the affected railroad companies for railway-highway crossing projects subject to the same limitations as to the general overhead costs.

The services of private engineering organizations and of consulting engineers may be utilized on the basis of contracts for work of an unusual character requiring highly specialized knowledge and experience.

(c) Until plans, specifications, and estimates for a project or part thereof have been submitted and found satisfactory by the authorized representative of the Commissioner, and the State has been so notified, no project or part thereof shall be advertised for contract.

(d) If any part of the cost of a project is to be provided by a county, municipality, or other local subdivision of a State, the State highway department shall determine the official actions to be taken by, and shall enter into such agreements with, the appropriate local officials as the department shall find desirable to safeguard its responsibility under the act for the fulfillment of the project agreement and the continuous maintenance of the project.

§ 1.9 Project agreements. (a) A project agreement between the State highway department and the Commissioner shall be executed for each project on a form furnished by the Commissioner. No payment on any project shall be made by the United States unless and until such agreement has been executed, nor on account of costs incurred prior to authorization by the authorized representative of the Commissioner.

(b) Subsequent to execution of the project agreement no change shall be made which will increase the cost of a project to the Federal Government or alter its termini, type, or other conditions except upon agreement with the Commissioner.

§ 1.10 Construction and contracts.

(a) Actual construction work shall be performed by the contract method unless another method is recommended by the State highway department and approved by the Commissioner for the reason that, under the circumstances, the interests of the public will be served, or that the proposed work is of a character not adapted to normal contract procedures. Before any work is undertaken by direct labor, the State highway department shall determine that the organization that is to undertake the work is able and equipped to perform such work at reasonable costs and favorably comparable with similar contract work.

(b) No part of the Federal money set aside on account of any project shall be paid until it has been shown to the satisfaction of the Commissioner that adequate methods, either advertising or other devices appropriate for the purpose, were employed, prior to the beginning of construction, to insure economy and efficiency in the expenditure of such money. An advertising period of two weeks may be accepted, provided a suitable mailing list of contractors is maintained by a State highway department to whom notices of new work are mailed, and public advertisement is inserted at least once a week for two weeks in such publications as will insure adequate publicity, the first insertion to be two weeks prior to the opening of bids. In case of emergency and advertising period of less than two weeks, or another method insuring competitive prices, may be approved.

(c) All contracts for the construction of highways under the Act shall require the contractor to furnish all materials entering into the work, except as otherwise authorized by the prior approval of the Commissioner. No requirement shall be contained in any contract entered into by any State providing price differentials for, requiring the use of, or otherwise discriminating in favor of materials produced within the State.

(d) No procedure or requirement shall be approved which, in the judgment of the Administrator, is designed or may operate to prevent the submission of a bid by, or the award of a contract to, any responsible contractor, whether resident or nonresident of the State wherein the work is to be performed, such as laws or regulations which require the licensing of a contractor before he may submit a bid or which prohibit the consideration of a bid submitted by a contractor not so licensed, or rules which govern the prequalification of contractors by which the amount of work that may be awarded to a contractor is limited otherwise than by a full and appropriate evaluation of his experience, equipment, financial resources, and performance record.

(e) No contract for any project or part thereof shall be entered into or award therefor made by any State without prior concurrence in such action by the Commissioner, and no alteration in the contract subsequently shall be made without the approval of the Commissioner.

(f) Where bids for a project are received on alternate types of construction, the award of contract shall be made to

the responsible bidder submitting the lowest acceptable bid irrespective of type, unless it be satisfactorily shown that it is in the public interest to accept a higher bid.

(g) All contracts for projects under the act shall contain suitable stipulations designed to insure that the contractor shall perform with his own organization not less than 80 per cent of the work, exclusive of items not commonly found in contracts for similar work, or which require highly specialized knowledge, craftsmanship, or equipment not ordinarily available in contracting organizations which perform work of the character involved. A contractor who states in his proposal a particular item or items which he proposes to sublet, and names the subcontractor to whom he proposes to sublet such work, may, if such item or items do not constitute the major item or items of the contract, have such item or items performed by the subcontractor named.

(h) No part of the money apportioned under the act shall be used, directly or indirectly, to pay or to reimburse a State, county, or local subdivision for the payment of any premium or royalty on any patented or proprietary material, specification, or process for a distinctive type of construction unless purchased or obtained on open actual competitive bidding at the same or a less cost than unpatented articles or methods, if any, equally suitable for the same purpose: *Provided, however,* That patented or proprietary articles or methods of reasonable cost which constitute minor elements of a contract item may be specified and paid for if purchased in competition with one or more equally suitable patented or proprietary articles or methods or if information is included in the advertisement stating the price at which such patented or proprietary articles or methods are available to all contractors. Manufactured patented or proprietary articles which constitute a major part of the cost of a contract item may be specified and paid for if competition is assured with unpatented or nonproprietary articles or between two or more manufactured patented or proprietary articles accepted as equally suitable for the same purpose. Nothing in this section shall be construed as a prohibition against the use of any patented or proprietary material, specification, or process for a distinctive type of construction or relatively short sections of road for experimental purposes.

(i) Construction engineering and inspection charges reimbursable with Federal funds shall be limited to the salaries of individuals directly employed on a project and to other necessary costs incurred in connection with such engineering and inspection.

(j) Where a public or private utility occupies a public highway right-of-way and the facilities of such utility have to be moved, adjusted, or changed because of the construction of a project, the State highway department shall make a formal finding as to the extent that such utility is required to move, adjust, or change its facilities at its own expense, or is relieved of that obligation by law or otherwise. The Commissioner will de-

termine in all such cases whether reimbursement from Federal funds may be made. Reimbursement from Federal funds in any case shall not exceed the regular Federal pro rata share of the cost of such work actually paid by the State or its subdivisions. Work for the necessary adjustment of public utility facilities in connection with the construction of a project may be undertaken, if so determined by the State highway department, by the utility concerned on a force account basis. Maintenance of railroad traffic, including temporary support trestles, track adjustments, signal installations and adjustments, the rearrangement of telegraph and telephone lines on railroad rights-of-way, and the adjustment of existing drainage facilities, may be undertaken by the railroad or other utility involved, by agreement with the State highway department. Any material furnished by a railroad company or other utility for temporary work will be reimbursed at actual cost less fair salvage value when the material is released.

§ 1.11 *Roadside improvements.* To insure proper treatment of the roadsides, to eliminate insofar as possible the scars of construction, and to provide footpaths or other safety facilities, the project agreement shall prescribe what part of the work of this character is to be performed as a part of the original construction of a project and what part, if any, at a later date.

§ 1.12 *Right-of-way.* Federal participation in right-of-way shall be restricted to costs of new or additional lands required and acquired subsequent to July 13, 1943, and subsequent to the date of approval of the program which includes the project for which such right-of-way is acquired. Payment will not be made for any land owned by a State or its subdivisions that is not acquired for and used as a part of the right-of-way for such project, but payment may be made in proper cases for the readjustment, repair, or restoration of facilities and improvements on such publicly owned lands made necessary by reason of the construction of the highway project thereon. Only such right-of-way costs as are paid from public funds of the State or its subdivisions shall be eligible for reimbursement.

§ 1.13 *Labor and employment.* (a) No convict labor shall be employed and no materials manufactured or produced by convict labor shall be used on any project constructed under the regulations in this part.

(b) If a local employment service is maintained by the Federal Government, or by the Federal Government in cooperation with the State, in the vicinity of any work undertaken under the act, the contract may require that unskilled labor for a project shall be selected from qualified workers referred by such agency.

(c) To prevent the exploitation of labor all contracts shall prescribe the minimum rates of wages for skilled, intermediate, and unskilled labor, as predetermined by the State highway department, which contractors shall pay, and such minimum rates shall be stated in the specifications advertised in the call for bids on the proposed project.

(d) All contracts for the construction of projects shall require that the wages of all labor shall be paid in legal tender of the United States. This condition will be considered satisfied if payment is made by a negotiable check on a solvent bank, which may be readily cashed by the employee in the immediate community for the full amount, without discount or collection charges of any kind.

§ 1.14 *Highway planning and research projects.* Each State highway department shall prepare and submit a detailed program of proposed engineering and economic investigations and highway research necessary in connection therewith, showing the amount of Federal and State funds proposed for expenditure on each item of the program. The program shall be subject to the approval, project statement and project agreement procedure provided for construction projects. Pending the submission and approval of a final program 1½ per centum of the total apportionment to each State shall be reserved for highway planning and research projects.

§ 1.15 *Railway-highway crossing projects.* (a) Before a project for the elimination of hazards at a railway-highway crossing shall be approved for construction an agreement shall be entered into between the State highway department and the railroad concerned for the construction and maintenance of such project. For each such project financed in whole or in part from funds provided under the Federal-Aid Highway Act of 1944 an estimate of the total benefits to the railroad and of anticipated contributions of every kind from the railroad, with supporting data, shall be submitted with the plans, specifications and estimates and such estimate of benefits and contributions shall be included in the agreement between the State highway department and the railroad.

(b) State laws pursuant to which contributions are imposed upon railroads for the elimination of hazards at railway-highway crossings shall be held not to apply to Federal-aid projects.

§ 1.16 *Coordination of airport and highway location.* Federal highway funds shall not be used for the reconstruction or relocation of any highway giving access to, or closed or impaired by, an airport hereafter constructed or extended unless, prior to such construction or extension, the State highway department and the Public Roads Administration have concurred with the officials in charge of the airport that the location or extension of such airport and the consequent reconstruction or relocation of the highway are in the public interest.

§ 1.17 *Maintenance of projects.* (a) Maintenance of all projects constructed under the provisions of the act shall be the responsibility of the State except for those projects or portions thereof which may be eliminated from the Federal-aid highway system or from the system of principal secondary and feeder roads through relocation in connection with further improvement of a project.

The State highway department, acting under the laws of the State, may provide for maintenance of Federal-aid projects by agreement with municipal or other local authorities, but the responsibility of the State to maintain such projects satisfactorily remains unchanged under the requirements of section 14 of the Federal Highway Act.

(b) A project for which the State highway department proposes to provide maintenance by an agreement with a municipality or a county shall not be approved if any project previously improved with Federal funds under the provisions of the Federal Highway Act, as amended and supplemented, which the said county or other subdivision has agreed to maintain, is not being satisfactorily maintained as determined by the Commissioner.

§ 1.18 *Traffic signs and signals.* (a) All signs and traffic-control devices and other protective structures, whether paid for from Federal or other funds, erected on or in connection with highways or structures on which Federal funds are expended, shall be in conformity with such manual of uniform traffic-control devices as may be adopted by the American Association of State Highway Officials, approved by the State highway department, and concurred in by the Commissioner.

(b) The rights-of-way provided for Federal-aid highway projects shall be held inviolate for public highway purposes and no signs (other than those specified in paragraph (a) of this section), posters, billboards, roadside stands or other private installations shall be permitted within the right-of-way limits.

§ 1.19 *Diversion of gasoline and motor vehicle taxes; reduction of apportionment.* If the Administrator shall find at any time that lesser amounts of the revenues derived from State motor-vehicle registration fees, licenses, gasoline taxes, and other special taxes on motor-vehicle owners and operators in any State are required by its laws to be applied to highway purposes than were required to be so applied by the laws of such State on June 18, 1934, he shall take such action as he may deem necessary to comply with the provisions of section 12 of the act of June 18, 1934 (48 Stat. 995), by reducing the apportionment of Federal funds to such State by not to exceed one-third of the amount, to which it otherwise would be entitled for any fiscal year in which such finding may be made.

§ 1.20 *Records and cost keeping.* (a) Such records of the cost of construction, of inspection, of tests, and of maintenance done by or on behalf of the State, shall be kept, by or under the direction of the State highway department, as will enable the State to report, upon the request of the Commissioner, the amount and nature of the expenditure for these purposes.

(b) The accounts and records, together with all supporting documents, shall be open at all times to inspection by the Commissioner, or his authorized representatives, and copies thereof shall be furnished when requested.

§ 1.21 *Payments.* Vouchers in the form provided by the Commissioner and certified as therein prescribed, showing amounts expended on any project and the amount claimed to be due from the Federal Government, shall be submitted by the State highway department to the Public Roads Administration, either after completion of the project or as the work progresses.

§ 1.22 *Advance of funds.* If necessary to enable any State highway department to make prompt payment for work as it progresses and thereby insure expeditious completion of projects, the Commissioner may advance the Federal share of the cost of such projects to any State that does not after June 30, 1945, divert to other than highway uses road user revenues in violation of section 12 of the act of June 18, 1934 (48 Stat. 995). Such advances shall be made in such manner and subject to such conditions as may be prescribed by the Commissioner.

§ 1.23 *Delegation of authority.* In carrying out the provisions of the act, the Commissioner is hereby authorized to delegate such of the duties and responsibilities imposed upon him to such official or officials of the Public Roads Administration as in his judgment will result in economy and efficiency in effectuating the purposes of the act and of the regulations in this part.

§ 1.24 *Operating procedures and instructions.* The Commissioner is hereby authorized to issue such operating procedures and instructions not in conflict with the act or with the regulations in this part as he may deem necessary for carrying out the provisions and effectuating the purposes of the act and the regulations in this part, and all such operating procedures and instructions issued by him shall be and continue in full force and effect from the date on which issued or made effective until modified or revoked by him.

§ 1.25 *Application of regulations.* The regulations in this part shall apply to all provisions of the act and to all classes of projects thereunder, shall take effect upon approval, and shall supersede the rules and regulations approved by the Secretary of Agriculture February 27, 1935, "For Carrying out the Federal Highway Act (Except the Provisions Thereof Relative to Forest Roads)", the rules and regulations approved by the Secretary of Agriculture January 13, 1939, "For Construction of Secondary or Feeder Roads Under Act of June 8, 1938", and the rules and regulations approved by the Secretary of Agriculture April 11, 1939, "For Elimination of Hazards at Grade Crossings Under Act of June 8, 1938", and all amendments thereof.

Recommended for issuance: April 21, 1945.

[SEAL] THOMAS H. MACDONALD,
Commissioner of Public Roads.

Issued: April 21, 1945.

PHILIP B. FLEMING,
Federal Works Administrator.

TITLE 38—PENSIONS, BONUSES AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 36—REGULATIONS UNDER SERVICE-MEN'S READJUSTMENT ACT OF 1944

EDUCATIONAL COURSES

The regulations under the Service-men's Readjustment Act of 1944 are amended by deleting §§ 36.207 to 36.209, inclusive, and adding §§ 36.239 to 36.244, inclusive, and §§ 36.245 to 36.250, inclusive, as follows:

COURSES OF EDUCATION OR TRAINING; STANDARDS OF CONDUCT AND PROGRESS; AND CHANGING A COURSE OF INSTRUCTION

Sec.

- 36.239 Courses of education or training.
- 36.240 Standard of conduct and progress.
- 36.241 Changing a course of instruction.

EDUCATION OR TRAINING IN SCHOOLS AND COLLEGES

- 36.242 Institutions eligible to receive payment.
- 36.243 Supervision of schools and colleges.
- 36.244 Cooperative courses.

CHARGES AND PAYMENTS FOR TUITION, FEES, BOOKS, SUPPLIES, EQUIPMENT AND OTHER EXPENSES

- 36.245 Authorization for payment of tuition, incidental fees, and books, supplies, equipment and other expenses.
- 36.246 Charges for tuition and fees, and books, supplies and equipment.
- 36.247 Payments to training institutions.
- 36.248 Reimbursement to veterans.
- 36.249 Procedure for furnishing books, supplies and equipment.
- 36.250 Notice concerning Section 1505 of Title VI.

AUTHORITY: §§ 36.239 to 36.250, inclusive, issued under 58 Stat. 284.

§ 36.239 *Courses of education or training.* The education or training to which a veteran is eligible and entitled under paragraphs 1 and 2 of Part VIII is defined in paragraph 3 as "such course" as the veteran may elect to pursue "at any approved educational or training institution at which he chooses to enroll". The refresher or retraining course which a veteran, who was over twenty-five when he entered service and whose education or training was not impeded, delayed, interrupted or interfered with by reason of his entrance into service, is eligible to elect, is a course or period of time not exceeding one year in refreshing or retraining.

(a) Based on the particular terms as used in the Act, only one course at one institution may be pursued at any one time, except as otherwise provided in §§ 36.239 to 36.241. The one course will consist of such curriculum, program of study, or combination of unit courses or subjects as are prescribed or recommended by the institution as constituting the course, and on the same basis, the course will be directed toward a predetermined objective, not necessarily vocational in nature. Such an objective may be general, as securing a high school diploma or completing a major in accounting; or it may be specific, as preparing for the occupation of plumber or taking a refresher or retraining course as

a teacher or other professional occupation, or as a baker or other trade. Very different unit courses or subjects may form a part of the elected course provided they are prescribed or recommended by the institution as necessary or desirable functional parts of the course. For example, a course of stenography or typing might easily be functional as part of a course for the objective of lawyer, while a course of airplane piloting as part of a course in dentistry would not ordinarily be considered as part of the course being pursued. The one course often may consist of on-the-job-training supplemented by related studies in a school or college. There is also the cooperative course involving alternative periods of work in school or college and in a business or industrial establishment. Such cases will require simultaneous enrollment in two institutions and, of course, may be approved.

(1) Concurrent enrollment in two institutions will not be approved unless (i) the complete course as contemplated by the Act is not available at the training institution chosen by the veteran, (ii) there is one principal institution which prescribes or recommends the course of training and approves the enrollment in the second institution, (iii) the training furnished by the second institution is part of the veteran's elected course and can be scheduled satisfactorily and (iv) books, supplies and equipment furnished the veteran in connection with his course of training at the principal institution and which may be used in the second institution are not duplicated.

(2) A single subject or a unit course may be regarded as constituting a course of education or training in itself or it may be considered as a portion of a course, as the circumstances in each case indicate. Single subjects taken independently of an organized sequence of subjects presumably will be taken as part-time training and as part of a course.

(3) The length of time required by the institution or used by the trainee to complete a full-time course is immaterial, except that the course may be pursued at Government expense only to the end of the person's entitlement or to a date seven years after termination of the war, whichever occurs first. It is desirable that the full-time course be pursued continuously.

(b) A veteran who was over twenty-five years of age and whose education or training was not impeded, delayed, interrupted, or interfered with by reason of his entrance into service will elect a refresher or retraining course as his only entitled benefit under Part VIII. Such refresher or retraining course may be pursued for a period of not to exceed twelve months of full-time training, and when such course is completed, or upon expiration of the year, the veteran is not entitled to any further benefits.

(c) A veteran whose education or training was impeded, delayed, interrupted, or interfered with by reason of his entrance into service, may elect a course of education or training of any kind. Such veteran, if he maintains a satisfactory record, is free to pursue such

education or training as he elects for the period of his entitlement.

(d) *Full-time courses.* (1) In collegiate institutions which use a standard unit of credit recognized by accrediting associations, a full-time course during the regular school year will consist of twelve or more standard semester hours of credit for a semester or their equivalent in such terms as quarter hours, term hours, majors or courses. It is assumed that each hour of credit requires three clock hours of the student's time each week. Summer session study will be determined in accordance with the policy of each individual institution. If a student enrolls following the final date for taking a full-time program of studies for the semester, quarter or term, he may be considered as a full-time enrollee if the institution states that the course is being pursued full time. Students are ordinarily permitted to enroll for not more than one semester hour of credit or the equivalent for each week of attendance.

For graduate or advanced professional courses pursued on a full-time basis, the certification of that fact by a responsible official of the institution will be accepted.

(2) In all other schools, including high schools, a full-time course of education or training will consist of twenty-five or more clock hours of required attendance per week.

(3) In establishments providing training-on-the-job, full-time training will consist of the standard work week of the establishment in which the training is offered but not less than thirty-six hours per week.

(4) In a combination of on-the-job and school training, the portion of each kind of training will be determined in accordance with the policy governing part-time training set forth under paragraph (e) of this section. For full-time training, the fractional parts of the combined course must total not less than one.

(5) Decreases in amount of credit or hours of attendance during a course which result in a veteran's carrying less than the full-time program as defined herein will necessitate an adjustment which will be based on the provisions of paragraph (e).

(e) *Part-time study.* Part-time courses of education or training and of refresher and retraining training are considered to be courses which occupy the person for less time than that set forth under paragraph (d) of this section which defines "Full-time courses". The following instructions will govern with reference to part-time courses:

(1) Part-time study may be elected by a veteran who wishes to pursue such a program. Such veteran shall be entitled to such aggregate length of part-time training as will equal the total full-time training to which he is entitled.

(2) Continuous part-time study, as referred to in paragraph 2 of Part VIII of the act, is construed to mean study that is pursued without any more interruption than is caused by the institution providing the training, or by other reasons beyond the veteran's control.

(3) Measurement of part-time study for purposes of determining the amount

of subsistence allowance to be paid and the charges against a veteran's entitlement will be only in fractions of three-fourths, one-half, and one-fourth determined in accordance with the standards herein prescribed for the type of education or training course being pursued.

(4) For undergraduate courses in collegiate institutions which use a standard unit of credit, recognized by accrediting associations, determinations will be based on the number of standard semester hours for which the trainee is registered for credit. Less than twelve but not less than nine semester hours per semester, or the equivalent, will be counted as three-fourths time. Less than nine but not less than six semester hours per semester, or the equivalent, will be counted as one-half time. Less than six semester hours per semester, or the equivalent, will be counted as one-fourth time.

For graduate courses or advanced professional courses in collegiate institutions the determination will be made in the individual case in accordance with the policy of the institution and a certification by a responsible official of the institution stating that the course being followed is considered as three-fourths time, half-time, or one-fourth time will be accepted subject, however, to such review by the manager of the regional office of the Veterans' Administration as the case may warrant and to such revision as is determined in collaboration with the institution.

(5) In all other schools, including high schools, determinations will be based on clock hours of required attendance at the school. Less than twenty-five but not less than eighteen clock hours of required attendance per week will be counted as three-fourths time. Less than eighteen but not less than twelve clock hours of required attendance per week will be counted as one-half time. Less than twelve clock hours of required attendance will be counted as one-fourth time.

(6) In business or industrial establishments, determinations will be based on the actual number of hours worked during the standard work week of the establishment in which the training is offered. Less than thirty-six but not less than twenty-seven hours will be counted as three-fourths time. Less than twenty-seven but not less than eighteen hours will be considered as one-half time. Less than eighteen hours will be considered as one-fourth time.

(7) For combinations of school and on-the-job-training running concurrently, the time in each component type will be measured in accordance with the appropriate standard in the preceding paragraphs.

(8) Unusual circumstances arising in connection with an individual case which cannot be reasonably adapted to the procedure prescribed above may be referred to Central Office with a complete statement of the facts.

(9) The certified statement of enrollment furnished by the training institution, insofar as applicable, will be used for making the required fractional part-time determinations.

(10) Charges against a veteran's entitlement for part-time training will be made in accordance with the fractional amounts stated above and determined as follows:

(i) Determine the fractional part of full-time training represented by the part-time training program. Thus, a veteran enrolled for five semester hours of credit in a college, in accordance with subparagraph (4) of this paragraph, would be taking one-fourth of a full-time program; a veteran attending another type of school fifteen hours per week, in accordance with subparagraph (5) of this paragraph, would be taking one-half of a full-time program.

(ii) Determine the full-time equivalent of the part-time program by multiplying the fraction in step (i) by the number of weeks the veteran was in part-time training. Thus, in the illustration in subdivision (i) of this subparagraph, the veteran enrolled for five semester hours of credit, assuming the semester is seventeen weeks in length, would be charged one-fourth of seventeen weeks or 4.25 weeks for his course; and if the veteran attending class fifteen hours per week was enrolled for ten weeks, the charge would be one-half of ten weeks or five weeks.

§ 36.240 Standard of conduct and progress. The first proviso of paragraph 2 and second proviso of paragraph 3 of Part VIII make the veteran's continuance in the course at the institution contingent upon his maintaining satisfactory conduct with respect to attendance and personal deportment and progress in his work according to the regularly prescribed standards and practices of the institution. Accordingly, the matter of performance by each veteran pursuing a course will be given administrative attention on the basis of the following:

(a) The regularly prescribed standards and practices of conduct and progress shall be ascertained from each institution by an appropriate procedure to be developed by the manager and filed in folders prepared for that purpose. Published statements such as usually appear in the catalogs of collegiate institutions may be generally acceptable for this purpose.

(b) Determination that the conduct and progress of a veteran are satisfactory in accordance with the regularly prescribed standards and practices of the institution will be made by the Veterans' Administration in accordance with the following:

(1) Periodic reports of the absence of each enrollee will be obtained from the institution at periods agreed to by the institution and the manager of the regional office of the Veterans' Administration and after serving the desired administrative purposes will be filed in the individual education and training folder.

(2) Collegiate institutions and others which publish regularly prescribed standards and practices of conduct and progress will be required to certify periodically to the Veterans' Administration that the conduct and progress of each veteran student are or are not satisfactory in accordance with the regular

standards and practices of the institution. Such certified reports may be made on the customary forms and on the usual dates for issuing grade reports and unsatisfactory work notices to other students and will be accompanied by a statement that they are in accord with the regularly prescribed standards and practices of the institution. After serving the necessary administrative purposes, they will be filed in the veteran's education and training folder.

(3) Institutions which do not publish standards of conduct and progress will make adequate periodic reports to the Veterans' Administration as to the veteran's conduct and progress. If the institution makes periodic reports to other students, such reports may be used for this purpose to determine whether the conduct and progress of each veteran enrollee are satisfactory and after serving the necessary administrative purposes will be filed in the veteran's folder.

(4) Business and industrial establishments and other institutions providing apprentice or other training-on-the-job will furnish the Veterans' Administration periodic reports of conduct and progress, preferably each month, which will be checked against the statements of standards on file in the regional office to determine whether any wage or other compensation for productive work was paid the veteran during the period reported on.

(5) Unsatisfactory conduct or progress will be found to exist:

(i) When the veteran is requested to leave the institution.

(ii) When the veteran's conduct or progress is reported by the institution to be unsatisfactory as based on its regularly prescribed standards and practices.

(iii) When other reports clearly indicate that the veteran's conduct or progress is unsatisfactory.

(6) An investigation will be made whenever the conduct or progress of a veteran is found to be unsatisfactory whether it is reported by the training institution or otherwise indicated. When the evidence of unsatisfactory conduct or progress warrants, the veteran's education or training course will be discontinued by executing Form 1907c, and the institution and the veteran concerned will be so notified. The veteran will also be notified that no further benefits will be allowed him under Part VIII. If the circumstances causing the unsatisfactory report are not such as to warrant discontinuing the course, and other adjustment in the case promises accomplishment of the purposes of the Act, the course of instruction may be changed, the veteran may transfer to another approved institution, or the veteran's education or training may be interrupted.

(c) Satisfactory completion of the course undertaken during the basic twelve-month period of entitlement, according to the regularly prescribed standards and practices of the institution will be assumed on the basis of reports received in accordance with the procedure outlined in paragraph (b) of this section, if the institution does not notify the manager to the contrary,

However, the facts necessary to make a definite determination as to this will be ascertained as soon as feasible.

§ 36.241 Changing a course of instruction. Pursuant to the law, a person may change his course of education or training only for reasons satisfactory to the Administrator. Accordingly, a change in a course of education or training must have the prior approval of the manager of the regional office of the Veterans' Administration and the proposed change will be submitted to the advisement and guidance subdivision for recommendation.

(a) A change in educational or vocational objective is deemed to constitute a change in the course of education or training.

(b) A transfer from one institution to another must receive the prior approval of the manager of the regional office of the Veterans' Administration having jurisdiction over the territory in which the veteran is enrolled. When such transfer is approved, a duplicate eligibility certificate will be issued in accordance with § 36.221 (c) of this chapter. Upon confirmation of the change in institution evidenced by receipt of notification of enrollment in the institution to which the veteran has transferred, Form 1907c will be issued. In all cases, the effective date will be that of enrollment in the institution to which the transfer has been made.

(c) Authority to approve changes in courses of education or training may be exercised by managers when such change is for good and sufficient reasons considered to give good promise of accomplishing the purposes of the act.

(d) A change of course is justified and is deemed to be for satisfactory reasons when:

(1) The veteran is not making satisfactory progress in his present course for reasons other than his own misconduct, willful neglect, or lack of application.

(2) The course to which the veteran desires to change is more in keeping with his aptitude, previous education, training, or other such pertinent factors.

(3) The educational or training institution in which the veteran is enrolled is found unsuited to offer satisfactory instruction in the course for which he is enrolled and transfer to an approved institution that is adequately equipped and staffed to offer the course is not desirable or feasible; or

(4) The veteran has changed his place of residence for good and sufficient reasons and there is no satisfactory approved educational or training institution available which offers the course for which he was enrolled in the previous institution.

(e) Change of course for satisfactory reasons will be made in accordance with the following procedure:

(1) A request for a change of course will be made in writing (i) by the veteran himself, setting forth full information concerning the proposed change, including the reasons for desiring to make it; or (ii) by the educational or training institution, including the reasons for the recommendation.

(2) When unsatisfactory progress in the elected course is indicated as the reason for a requested change, no action will be taken until the veteran has requested advisement from the Veterans Administration, and the record and recommendations of the advisement report have been taken into account.

(3) The Veterans' Administration may initiate action looking to a change of course upon receipt of evidence clearly indicating the desirability of such action.

(4) When the veteran files a request for a change of course, an investigation will be made to determine that the reasons given are in accord with the facts.

(5) Notice will be obtained from the institution in which it is proposed that the desired course will be taken, that the veteran will be accepted or retained as a student.

(6) Determination whether the reasons for the requested change of course comply with paragraph (d) of this section, will be made.

(7) The veteran will be notified of the decision regarding the request for the change. If the request is denied, the reasons therefor will be stated.

(8) When the change of course is approved, Form 1907c will be issued.

EDUCATION OR TRAINING IN SCHOOLS AND COLLEGES

§ 36.242 *Institutions eligible to receive payment.* The following institutions, if approved by the appropriate State agency, will be eligible to receive payment for tuition when they furnish well-defined formal courses of instruction requiring attendance, either by the class or individual method of teaching. The courses may be of any length and may be full-time or part-time training in daytime or evening.

(a) Institutions listed in paragraph 11, Part VIII, Public No. 346, 78th Congress, excluding those which provide training-on-the-job.

(b) Business or other establishments offering courses which are for the sole purpose of teaching (not for productive work) pursued on the time of the individual students and when such classes are separate and apart from the productive or operational functions of the establishment.

§ 36.243 *Supervision of schools or colleges.* Pursuant to the terms of Part VIII of the act, schools and colleges being utilized for purposes of education or training will not be subject to any supervision or control whatsoever by the Veterans' Administration. It is presumed and expected that the designated approving agency of the States will approve only such institutions as are fully qualified and equipped to give good courses of instruction and are otherwise satisfactory on the basis of current inspection, well-established service and reputation to furnish effective education and training. It is also presumed that approved institutions will accept only veterans who are qualified to pursue the courses they select. It is also presumed that the State approving agencies themselves will maintain such supervision over training institutions as may be needed.

(a) Representatives of the Veterans' Administration, as required by law, will carefully refrain from assuming any responsibility for any training program elected by a veteran enrolled under authority of Title II, Public No. 346, 78th Congress, and from overseeing or directing any of the practices of any school or college insofar as they relate to a veteran enrolled under said law. However, such assistance of an advisory nature may be given an institution when requested by the institution and to an enrolled veteran when circumstances indicate the need of such advice or when it is requested either by the veteran himself or the institution. Requiring reports of conduct and progress as provided in § 36.240 of this chapter is not to be considered as supervising or controlling the institution.

(b) Requests for information concerning the component parts of a course offered by a school or college or being pursued by a particular veteran, will not be construed as supervising the institution. The Veterans Administration may also determine whether the veteran's conduct and progress in the course are satisfactory according to the regularly prescribed standards and practices of the institution.

§ 36.244 *Cooperative courses.* Combinations of school or college training and training-on-the-job which are arranged for and pursued alternately under the direction of school or college will be referred to as cooperative courses and will be governed as follows:

(a) The cooperative training program will include the institutional and job-training which taken together will comprise the course of the veteran concerned. The training time for which the Government will be responsible will not exceed the period of the veteran's entitlement which in no case will exceed four years.

(b) That portion of the cooperative training program which is given in a business or other establishment must be definitely planned by the institution. A copy of that portion of the training program which is on-the-job will be filed in the education and training folder of the veteran.

(c) Arrangements for the placement of a veteran on-the-job will be made by the institution and there need not be any agreement or arrangement between the on-the-job institution and the Veterans' Administration. Reports of absence, wage payments and conduct and progress will be transmitted to the Veterans' Administration by the school or college under whose direction the cooperative program is being conducted.

(d) Supervision of veterans while in training-on-the-job will be the responsibility of the institution but the Veterans Administration will not fail to secure any and all facts in the case which may be necessary to its interest in the veteran as a case in training for which it has a responsibility.

(e) Subsistence allowance will be reduced in accordance with the earnings of the veteran while he is in training-on-the-job, as provided in Part VIII, Title II, Public No. 346, 78th Congress.

(f) Tuition payments for the time a veteran is in full-time training-on-the-

job will be adjusted in accordance with each individual situation.

CHARGES AND PAYMENTS FOR TUITION, FEES, BOOKS, SUPPLIES, EQUIPMENT AND OTHER EXPENSES

§ 36.245 *Authorization for payment of tuition, incidental fees, and books, supplies, equipment and other expenses.* The manager of the regional office of the Veterans' Administration is authorized to pay to the educational or training institution for each eligible person enrolled in a full-time or a part-time course of education or training such charges for tuition, incidental fees, necessary books, supplies, equipment, and other expenses as are customarily made other students pursuing the same or comparable courses except as otherwise stated in this instruction, and *Provided*, That such payment shall not exceed \$500 for a full-time course for an ordinary school year.

(a) Institutions with no established tuition or whose established tuition shall be found by the Administrator to be inadequate compensation for furnishing education or training may be paid such fair and reasonable compensation for the services rendered as will not exceed \$500 for an ordinary school year.

(b) Institutions furnishing apprentice or other training-on-the-job, including business or other establishments, educational institutions and Government agencies, may not be paid tuition or incidental fees for such training.

(c) Payment for board, lodging or other living expenses, and travel of enrollees is prohibited by the act.

§ 36.246 *Charges for tuition and fees, and books, supplies and equipment.* Charges for tuition and incidental fees will constitute a first charge on the \$500 maximum expenditure allowable for any one person for an ordinary school year. Charges for books, tools, equipment, and supplies, and other necessary expenses will be paid from any amounts remaining after the charges for tuition and incidental fees are provided for. Contracts will not be required except as provided in paragraph (a) (3) of this section.

(a) Charges for tuition will be those customarily made other students pursuing the same or comparable courses, as set forth in the published catalogs or bulletins of the school or college, except as otherwise stated herein. In the event an institution does not publish a bulletin, a responsible official of the institution will individually certify to the manager of the regional office within whose territory the institution is located the customary charges for tuition for the courses offered.

(1) Institutions whose established tuition is inadequate compensation for furnishing education or training, if they so desire, may charge for each veteran enrolled in a full-time course under Part VIII as much as \$15 per month, \$45 per quarter, or \$60 per semester: *Provided*, That the proper official certifies to the manager the charges customarily made to other students pursuing the particular course.

(2) Institutions which have non-resident tuition may, if they so desire, charge

for each veteran enrolled under Part VIII such customary tuition and incidental fees as are applicable to all non-resident students: *Provided*, That the charges are not in conflict with existing laws or other legal requirements. (See Administrator's Decision No. 638, dated March 19, 1945.) Managers will secure evidence from the institution or proper official that such charges are legal.

(3) When both the established tuition and the alternative charges permitted under paragraphs (1) and (2) are claimed by an institution to be inadequate compensation for the education or training furnished, the institution may submit to the manager such evidence of instructional costs, which are hereby defined as the actual costs of teaching personnel and supplies for instruction, as may be necessary to support the claim. If the manager, upon examination of the evidence, finds that the established tuition and alternative charges are inadequate compensation to the institution, he may authorize the institution to submit a special contract proposal on Rehabilitation Form 1903 providing for the payment of charges not exceeding the instructional costs as defined herein. The proposal will be accompanied by data supporting the proposed charges. The manager, if he finds the charges to be in accord with the above stipulated conditions, will forward the proposal, the supporting data and his recommendation to central office for prior approval.

(b) Incidental fees, including laboratory, library, health, infirmary, registration, matriculation, breakage, student body and similar fees, may be charged in addition to tuition in the amount required of all students taking the same or comparable courses. Individual charges, such as library fines and charges for library books lost, and optional fees not required of all other students are not allowable.

(c) The ordinary school year.

(1) The "ordinary school year" for instruction ordinarily given on a semester or quarterly basis is defined as a period of two semesters or three quarters—not less than thirty nor more than thirty-eight weeks in total length. Under this definition \$500 may be paid for each such ordinary school year which is completed within the period of entitlement. For courses requiring more or less than the "ordinary school year" herein defined, maximum payment will be computed on the basis of weeks required to complete such courses in relation to the ordinary school year of the institution in which the veteran is enrolled.

(2) The "ordinary school year" for instruction not ordinarily given on a semester or quarterly basis is defined as a period of thirty-four weeks. Under this definition \$500 may be paid for each such ordinary school year which is completed within the period of entitlement. For courses requiring more or less than the "ordinary school year" herein defined, maximum payment will be computed on the basis of weeks required to complete such course in relation to the ordinary school year of thirty-four weeks.

(d) When more than one standard charge is made for the same service, the Veterans Administration will pay the lowest price for the entire course, semester, quarter or term which is offered or published.

(e) Charges for part-time courses will be those customarily made other students for the same or similar courses, except that:

(1) The maximum charge to the Veterans Administration will be that proportion of the \$500 allowable for an ordinary school year which the part-time training bears to full-time training for the same length of time. For colleges which operate on a semester hour, quarter hour or similar credit system, full-time training will consist of a minimum of twelve semester hours of credit, or the equivalent. For other schools, full-time training will consist of a minimum of twenty-five clock hours of required attendance per week. Thus, for a veteran enrolled for four semester hours of credit for one semester, the charge will not exceed \$83.33, derived as follows: $4/12$ of $\frac{1}{2}$ of \$500; for a veteran enrolled for nine clock hours of required attendance per week for ten weeks in a part-time course in a school that does not operate on the basis of a standard semester hour of credit, the maximum allowable charge will be \$52.94 derived as follows: $9/25$ of $10/34$ of \$500; for a veteran attending a part-time course six hours a week for forty-eight weeks, the maximum allowable charges will not exceed \$169.41, derived as follows: $6/25$ of $48/34$ of \$500.

(f) When the estimated total charges exceed \$500 for an ordinary school year for a full-time course or for a proportionate amount for a shorter or longer period or for part-time study, the maximum amount allowable will be allocated (1) to tuition and incidental fees; (2) to books, supplies, equipment and other necessary expenses. The veteran and the institution concerned will be notified by the manager in confirming the enrollment that the Veterans Administration will be responsible only for a total expenditure of \$500 for an ordinary school year, or proportionate part thereof for a course extending over a shorter period or a longer period or for part-time study, for the tuition, incidental fees, books, supplies, equipment and other necessary expenses. Arrangements for any excess amount will be made between the veteran and the institution concerned and a clear understanding will be had to that effect before the enrollment of the veteran is approved.

\$ 36.247 Payments to training institutions. Payments for tuition, incidental fees, books, supplies and equipment will be made in arrears only, and will be prorated in installments over the school year or over the length of the course as provided herein.

(a) The period for which payment of charges may be made will be the period of the veteran's actual enrollment in the institution and will be subject to the following:

(1) The effective beginning date will be the date of the veteran's authorized entrance into training status as shown on

Form 1907, except that payment will be made for an entire semester, quarter or term in institutions operating on that basis, if the veteran enters not later than the final date set by the institution for enrolling for full credit.

(2) If an institution customarily charges for the amount of credit or number of hours of attendance for which a veteran enrolls, payment may be made on that basis when a veteran enters after the final date permitted for carrying full credit for the semester or term.

(3) The terminal date to which payment will be made is the day following (i) the end of the semester, term or quarter during which the educational service is furnished, (ii) the date of interruption or discontinuance of training, or (iii) the date of completion of the course. No payments may be made following the expiration of a veteran's entitlement, except that, when a veteran's period of entitlement beyond the basic one-year terminates during a semester, quarter or term after a major part thereof has expired, payment may be made to the end of such semester, quarter or term.

(b) Vouchers for tuition and incidental fees may be submitted at the end of such period as is mutually agreeable. However, in the case of schools which operate on a semester, quarter or term system, it is desirable that vouchers be submitted at the close of the semester, quarter or term in which the educational service is furnished. Vouchers for institutions which do not operate on a term system preferably will be submitted at the termination of the course or at the end of each three months' period of instruction.

(1) Vouchers will be prepared by the institution on Standard Form 1034, "Public Voucher for Purchases and Services Other Than Personal", and will cover the amounts due for services rendered during the period covered by the voucher for all veteran students enrolled under authority of the Veterans' Administration. Separate vouchers will be prepared for each veteran not remaining in training or who has left the institution during the billing period. Vouchers will be in sufficient detail to permit of a proper audit of the account for each veteran. There will be shown on each voucher, or on separate schedule attached, the following: Name and serial number of each veteran trainee, date of enrollment, the individual charge for each trainee, period covered by the charge for each trainee (in column "Date of Delivery or Service"), and total charges. Books, supplies, equipment, etc., need not be itemized on the voucher to show the individual items for which charges are made, but sufficient information should be indicated so that the character of the charges in connection with the course pursued may be determined. For instance, where it is the practice of an institution to submit its charges to cover both tuition and other items in one amount, it will be sufficient to state the voucher "Tuition, books, supplies, etc." without breakdown; however, if the school's charges, as reflected by contract, catalogue, or otherwise, are stated separately as to tuition (including laboratory, library and similar fees), as

to supplies (including books, etc.), or as to equipment, the voucher should show the amount applicable to each such general breakdown. The face of the voucher will show the authority for the expenditure as "Public No. 346, 78th Congress".

(2) Certification of the correctness of the vouchers will be the responsibility of the training subdivision and will be made on the reverse side of the first yellow copy. The accuracy of the vouchers will be checked against the forms of the 1907 series progress reports, publications of the institution and other data available, including the information supplied at the time of enrollment.

(3) Breakage fees and deposits, all or part of which are normally refundable, will be allowed for only the amount of breakage or loss actually incurred in connection with the course and the actual amount of breakage or loss will be stated on the voucher. Items broken or lost will be treated as supplies furnished.

(c) Vouchers for books, supplies and equipment furnished by a school or college and other necessary expenses incurred on behalf of veteran students may be submitted immediately after such articles are furnished or may be included with the voucher submitted for tuition and incidental fees. The voucher may be prepared showing the total cost for each veteran and need not be itemized, provided a statement accompanies the voucher certifying that the articles represented by the charge for each veteran were delivered to the trainee, or expenditures were made on his behalf, and that the institution has on hand and available for inspection by the Veterans' Administration evidence of such delivery and expenditures. If found more convenient, this statement may be stamped or otherwise entered on the face of the voucher in which case the payee's signature on the voucher will be considered as subscription to the statement.

(d) When the total estimated charges exceed the \$500 allowable maximum for the ordinary school year or the proportionate part thereof for part-time study or for courses shorter or longer than an ordinary school year, the procedure for making payments of the Government's share of the total charges will be as follows:

(1) The tuition and incidental fees for the school year or for the courses as reported by the institution will be encumbered against the \$500, or the amount available if the course covers a greater or lesser period of time or is part-time study, at the time the certification of enrollment is received from the institution. The balance of the \$500 or the larger or smaller amount available for the course, if any, will be used for necessary books, supplies and equipment, and other variable expenses to the extent it will cover the charges.

(2) Payment of the charges for tuition and incidental fees to the extent of the encumbrance will be made in equal installments throughout the period of the ordinary school year, course, or subject, as the case may be. The unencumbered balance, if any, will be used for paying the charges for books, supplies and equipment. No payments will be made

for books, supplies and equipment where the tuition and incidental fees alone exceed the maximum amount available for the school year, course, or subject.

(e) Payment when a course is discontinued or interrupted will be prorated for veteran students on the same basis as for other students in the case of an institution charging regularly established fees, or the alternate charges stated in § 36.246 (a) (1) and (2), except that in the case of an institution which has no published refund policy or makes no refunds of tuition when a student withdraws, payment will be prorated on the basis of the period of the veteran's attendance. Full payment of tuition and incidental fees will be allowed for a veteran whose training has been interrupted during a vacation period (other than the summer vacation) and, also, in the case of schools or colleges which grant credit at the conclusion of a term, quarter, or semester, when the interruption does not materially affect the amount of credit for which a veteran is enrolled.

(f) Business or other establishments providing training-on-the-job will not be paid for furnishing instruction but the establishment will be paid for books, supplies, and equipment furnished veterans under approved methods of purchase when other trainees pursuing the same course are also required to provide them.

(g) When the total cost of instruction is paid from Federal funds, as in programs designed to train war workers, the Veterans' Administration will not approve any payments.

(h) Payment on behalf of a veteran who receives a fellowship, scholarship, grant-in-aid, assistantship or similar award in complete or partial payment of tuition and/or fees will be made in accordance with the following:

(1) Awards which constitute a waiver of tuition and/or fees, or are to be applied to the payment of tuition and/or fees will reduce to the extent of the award the amount of tuition and/or fees for which the Veterans' Administration will be responsible, except in those cases where the award is made specifically to cover tuition and fees in excess of the \$500 limit for an ordinary school year or proportional amount for a longer or shorter course or part-time study.

(2) Awards which are not paid in cash will reduce to the extent of the award the charges for which the Veterans' Administration will be responsible, except that awards which are made specifically for purposes of defraying the cost of room and board in dormitories will be disregarded.

(3) Awards which are paid in cash may be retained by the veteran and not be deducted from the charge for tuition and other fees ordinarily payable by the Veterans' Administration.

(4) Waivers of tuition and/or fees provided under law by States or other Government authority will be utilized, and the charges which the Veterans' Administration will pay on behalf of veterans eligible thereunder will be reduced in accordance with such waivers.

§ 36.248 *Reimbursement to veterans.* The Veterans' Administration will not reimburse a veteran who pays personally

for tuition, incidental fees, books, supplies and equipment, and/or other necessary expenses.

§ 36.249 *Procedure for furnishing books, supplies, and equipment.* Pursuant to the law and subject to the allowable maximum expenditure for any one person, books, supplies, and equipment, including tools and other necessary articles, will be furnished by the training institution to persons enrolled in courses of education or training. Such items will consist only of those which are required of other students pursuing the same or comparable courses, and in no instance will be greater in variety, quality, or amount than as are required of other students. Items which are commonly used for personal purposes, such as fountain pens, brief cases, typewriters, etc., although also used in connection with the course of education or training, will not be provided by the Veterans' Administration. In those instances where an article is available in several prices, grades or qualities, the Veterans' Administration will pay for the furnishing of only such quality or grade as will meet the requirements of the need which the article is intended to serve.

(a) The estimated charges for the necessary books, supplies and equipment will be stated by the institution. This amount will include only the items required during the period covered. When the course consists of training-on-the-job or when the charge for tuition is stated by the course, the estimate for books and other articles will be made for the entire course. In the case of expendable supplies, this estimate will not be exceeded except when it is apparent that an error has been made in estimating the amount needed.

(b) Arrangements will be made with educational and training institutions to furnish books, supplies and equipment.

(1) Schools and colleges will furnish the required articles or arrange for them to be furnished and will submit vouchers certifying to the actual cost of the articles, as provided in § 36.247 (d) of this chapter.

(2) Establishments providing on-the-job training will furnish the required articles by purchase in accordance with current regulations. Prior approval of central office will be necessary when aggregate charges exceed \$50.00.

(c) Books, supplies and equipment will be furnished promptly. Accordingly, managers will work out with each institution an arrangement whereby these articles will be made available to veteran enrollees with as little lapse of time as possible so they will not be at a disadvantage in their study. Such items generally should not be issued except as they are needed.

(1) Articles which are lost, stolen or misplaced will not be replaced at Government expense.

(2) When a particular article is required for use in more than one subject or unit course, or in another term, quarter, or semester, or in a succeeding school year, such article will not be duplicated.

(d) Books, supplies, or equipment will be deemed released to a veteran at the time they are furnished, as provided in

section 402 of Title II of the act, except that if a person fails because of fault on his part to complete the course of education or training, he may be required to repay the reasonable value of the unexpended articles.

(1) The veteran will be deemed to be at fault if his training is discontinued (i) when he withdraws from the institution at the request of the institution, (ii) when he abandons his training without prior or concurrent notice to the Veterans' Administration, (iii) when his course is discontinued following consistently unsatisfactory reports of conduct or progress, or (iv) when the failure to complete the course is due to his negligence or misconduct.

(2) A veteran who changes his course will be required to pay the reasonable value of the unexpended articles which cannot be utilized in the course to which he has changed.

§ 36.250 *Notice concerning section 1505 of Title VI.* The provisions of section 1505 of Title VI of the act which require that any benefits received by or paid for any veteran under the act shall be charged against and deducted from any adjusted compensation to which he may be hereafter entitled under any future legislation will be quoted and called to the attention of each approved institution, including business or other establishments, by the manager as soon as feasible after notice is received of the enrollment of the first veteran in each institution.

TITLES 50—WILDLIFE

Chapter IV—Office of the Coordinator of Fisheries

[Order 2046]

PART 401—PRODUCTION OF FISHERY COMMODITIES OR PRODUCTS

SALMON CANNING INDUSTRY IN ALASKA

Whereas, by Executive Order No. 9280 of December 8, 1942, the President conferred upon the Secretary of Agriculture full responsibility and control over the Nation's food program in order to assure an adequate supply and efficient distribution of food to meet war and essential civilian needs; and

Whereas, by Food Directive No. 2 of February 8, 1943 (7 CFR, Part 1400), the Secretary of Agriculture delegated to me, among other things, the right to exercise all of the powers conferred upon him by paragraph (b) of section 1 of Executive Order No. 9280, in so far as it relates to the production of fishery commodities and products; and

Whereas, by Food Directive No. 2, the Secretary of Agriculture authorized me to exercise these powers through such agencies and officers of the Department of the Interior or of the office established by Executive Order No. 9204 of July 21, 1942, as I may designate; and

Whereas, it is deemed imperative to effectuate a program designed to facilitate the production of an adequate supply of canned salmon in the Territory of Alaska with a minimum utilization of critical material, manpower and shipping facilities; and

Whereas, representatives of practically the entire salmon canning industry in the Territory of Alaska have indicated their willingness to join in such cooperative agreements as may be practicable and feasible in order to pool their operating facilities, and allocate available manpower on an equitable basis in an industry concentration program designed to minimize factors that tend to affect production adversely; and

Whereas, in the exercise of the powers conferred upon me, I have designated the Office of Fishery Coordination, established by Executive Order No. 9204, to execute, administer, regulate, and enforce the provisions of this order affecting the salmon canning industry in the Territory of Alaska; now, therefore, it is hereby ordered:

§ 401.1 *Salmon canning industry in the Territory of Alaska—(a) Jurisdiction.* Complete control and authority over the salmon canning industry in the Terri-

tory of Alaska solely for the purpose herein specified shall be vested in the Fishery Coordinator, and subject to his supervision and direction shall be administered by the Office of Fishery Coordination.

(b) *Definitions.* For the purpose of this section:

(1) "Person" means any individual, partnership, association, corporation, or any other business entity.

(2) "Salmon" means any fish of the following species: Red or sockeye (*Oncorhynchus nerka*); pink or humpback (*Oncorhynchus gorbuscha*); silver, medium red, or coho (*Oncorhynchus kisutch*); chum or keta (*Oncorhynchus keta*); king, chinook, or spring (*Oncorhynchus tshawytscha*); steelhead or steelhead trout (*Salmo gairdneri*).

(3) "Line" means the assembly of canning machinery operated in connection with each filling machine. The filling of cans by hand shall be construed to be a line.

(4) "Fishery Coordinator" means the Secretary of the Interior.

(5) "Nucleus plant" means a plant for the canning of salmon for commercial purposes which may be operated during the year 1945 under the terms of this order.

(6) "Canning salmon for commercial purposes" means the process of packing salmon for the purpose of sale in hermetically sealed metal or glass containers and sterilizing the same by the use of heat.

(7) "Bristol Bay Area" is hereby defined to include all territorial coastal and tributary waters of Alaska from Cape Newenham to a point on the coast 3 statute miles south of Cape Mensehikof. Sub-districts in the Bristol Bay Area:

(i) "Nushagak" district: Waters of Nushagak Bay within a line from Point Protection to Etolin Point.

(ii) "Naknek-Kvichak" district: Waters of Kvichak Bay within a line from

Etolin Point to Middle Bluff Light on the eastern side of Kvichak Bay.

(iii) "Ugashik" district: Waters between an east and west line at 58 degrees north latitude and the southern limit of the area at a point on the coast 3 statute miles south of Cape Mensehikof.

(c) *Salmon canning for commercial purposes prohibited in the Territory of Alaska except as herein provided.* No person shall engage in canning salmon for commercial purposes in the Territory of Alaska, including all coastal and tributary waters thereof over which the United States has jurisdiction, after the effective date of this section and prior to January 1, 1946, unless specifically authorized by this order or by the order of the Fishery Coordinator, and upon compliance with such directives, orders, and regulations as he may from time to time prescribe. Prior to engaging in canning operations all persons, companies, and corporations authorized to operate under Schedule A of this section shall obtain from the Fishery Coordinator a salmon canning license which shall be posted in the office of the operating establishment throughout the canning season. No person named in Schedule A, unless otherwise ordered by the Fishery Coordinator, shall operate, either singly or in conjunction with any other person, in the nucleus plant so assigned to such person or persons more than the number of lines set forth in the schedule opposite the name of such nucleus plant nor employ more persons than authorized under War Manpower Commission labor ceiling stated in Schedule A opposite the name of the operator and in the terms of said operator's license. In those plants where half-pound lines are already established, such half-pound lines may be operated when desirable if labor used is confined to quota authorized for such plants under War Manpower Commission labor ceilings.

(d) Restrictions applicable to specific persons named in Schedule A. (1) Peninsula Packing Co., is authorized to operate its floating cannery independently in other areas after the close of operations at Port Moller.

(2) In the Bristol Bay area the total number of fishing boats employed by participants in the various authorized consolidations shall not exceed the following:

(i) Nushagak: Alaska Packers Ass'n., 23 boats; Bristol Bay Packing Co., 12 boats; total boats in consolidation, 35. Libby, McNeill & Libby, 23 boats; Columbia River Pkrs. Ass'n., 12 boats; total boats in consolidation, 35. Pacific American Fisheries, Inc., 12 boats.

(ii) Naknek-Kvichak: Red Salmon Canning Co., 20 boats; Bristol Bay Packing Co., 20 boats; Pacific American Fisheries, Inc., 24 boats; total boats in consolidation, 64. Columbia River Pkrs. Ass'n. 16 boats; Libby McNeill & Libby, 40 boats; Intercoastal Pkg. Co., 8 boats; Nakat Packing Corp., 16 boats; total boats in consolidation, 80. Alaska Packers Ass'n. (J), 68 boats.

(iii) Ugashik: Wingard Packing Co., 11 boats; Alaska Pkrs. Ass'n., 11 boats; total boats in consolidation, 22.

(e) Agreements between persons named in Schedule A. (1) Duplicate copies of all agreements entered into between persons named in Schedule A providing for the use in common of nucleus plants, lines, and other facilities, must be filed with the Office of Fishery Coordination, Department of the Interior, when required by the Fishery Coordinator. The Fishery Coordinator may review any agreement and shall have the right to disapprove it if its terms and conditions are deemed not to be in the public interest.

(2) Where any persons named in Schedule A are unable to reach a mutually fair and equitable agreement providing for the use in common of nucleus plants, lines, and other facilities, the Fishery Coordinator shall have the right, after reviewing all of the pertinent facts submitted by the interested persons and other available information, to prescribe an agreement which will protect adequately the rights of the persons affected thereby.

(f) Petition for relief. (1) Any person subject to this section who finds that compliance herewith is impracticable and would tend to create an unreasonable burden without facilitating the production of canned salmon in the Territory of Alaska may file with the Fishery Coordinator a petition in writing for appropriate relief. Such petition should be filed in triplicate and contain a full showing of all the pertinent facts and the nature of the relief sought. The Fishery Coordinator shall thereupon take such action on the petition as he may deem appropriate, and any decision rendered shall be final and binding upon the petitioner.

(2) Any person not named in Schedule A of this section who believes that his name should properly be included therein may file with the Fishery Co-

ordinator a petition in writing for appropriate relief. The petition should conform with the requirements prescribed in the preceding subparagraph (1) and any decision rendered by the Fishery Coordinator shall likewise be final and binding upon the petitioner.

(g) *Custom canning.* Any person, owning salmon, who hires a person designated in Schedule A to can the salmon for commercial purposes shall not be deemed to be engaged in canning salmon for commercial purposes within the meaning of this section, but the person who performs such services shall be deemed to be so engaged.

(h) *Audits and inspections.* Every person subject to this section shall, upon the request of the Fishery Coordinator or his duly authorized representative, permit inspections at all reasonable times of the stocks of canned salmon and the facilities used in his business, and shall also make available for inspection and audit all of his books, records, and accounts.

(i) *Records and reports.* Every person subject to this section shall maintain the books, records, and accounts of his business for at least two years after December 31, 1945 (or for such other periods of time as the Fishery Coordinator may provide), and shall execute and file such reports and submit such information as the Fishery Coordinator may deem necessary to accomplish the purpose of this section.

(j) *Violations.* Any person who wilfully violates any provision of this section, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this section, or wilfully conceals a material fact concerning a matter within the jurisdiction of any Department or Agency of the United States may be prohibited from receiving or making further deliveries of any material subject to allocation, and such further action may be taken against him as the Fishery Coordinator deems appropriate, including recommendations for prosecution under section 35a of the Criminal Code (18 U.S.C. sec. 80), under paragraph 5 of section 301 of Title III of the Second War Powers Act, and under any and all other applicable laws. In addition, employment of more persons than authorized by War Manpower Commission labor ceilings set forth in Schedule A may subject the violator to appropriate action under applicable law and regulations of the War Manpower Commission.

(k) *Communications.* All reports required to be filed hereunder and all communications concerning this section shall, unless otherwise directed, be addressed to the Office of Fishery Coordination, United States Department of the Interior, Washington 25, D. C.

(l) *Fishing regulations.* The provisions of this section are not to be construed as permitting fishing for salmon in violation of any order or regulation promulgated by the Department of the Interior.

(m) *Orders and directions; Deputy Fishery Coordinator.* The Fishery Coordinator, or his representative, may issue such orders and directions as he may deem necessary to accomplish the pur-

poses of this section, and violation of any such order or direction shall be considered a violation of this section. For the purposes of this section the functions, duties, and powers of the Fishery Coordinator may, in his absence, be exercised by the Deputy Fishery Coordinator.

(n) *Designated representative.* The Area Coordinator for Alaska is hereby designated as the representative of the Fishery Coordinator to perform any of the functions authorized in this section. In the performance of these functions, he may designate any members of his staff to carry out any specific functions that may be assigned. In any situation where, in the judgment of the Area Coordinator for Alaska, the circumstances do not permit the delay which would otherwise result, Schedule A and the salmon canning license may be amended or extended, or any item thereof altered or deleted by the Area Coordinator for Alaska, in such manner as he shall deem reasonable and advisable to secure maximum production with a minimum expenditure of critical materials and services: *Provided*, That any changes made in labor quotas contained in Schedule A and in the salmon canning license shall meet with the approval of the War Manpower Commission: *And provided further*, That any request for an increase in a non-resident labor quota shall be accompanied by satisfactory evidence that qualified resident labor is not available. Any person claiming to be adversely affected by such amendment may file with the Fishery Coordinator a petition for relief as set out in paragraph (f); pending action on such petition, the amendment by the Area Coordinator for Alaska shall become and remain effective according to its terms.

Previous order suspended. The provision of this order shall supersede Order No. 1925 issued by the Secretary of the Interior on March 1, 1944 (9 F.R. 2495), and all amendments thereof.

Effective date. This order shall become effective immediately.

Issued this 19th day of April 1945.

HAROLD L. ICKES,
Secretary of the Interior.

[Air-Navigation Site Withdrawal 224]

UTAH

AIR-NAVIGATION SITE WITHDRAWAL

By virtue of the authority contained in section 4 of the act of May 24, 1928, 45 Stat. 729 (U. S. C. Title 49, sec. 214), it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Utah are hereby withdrawn from all forms of appropriation under the public-land laws and reserved for the use of the Civil Aeronautics Administration, Department of

Commerce, in the maintenance of air-navigation facilities, the reservation to be known as Air-Navigation Site Withdrawal No. 224:

SALT LAKE MERIDIAN

T. 42 S., R. 14 W., sec. 7, lots 6 and 9.

The areas described aggregate 70.90 acres.

This order shall be subject to the transmission line withdrawal of February 28, 1930 (Federal Power Commission Project No. 914), so far as such withdrawal affects the above-described lands.

This order shall take precedence over, but shall not modify, the order of the Secretary of the Interior dated April 8, 1935, establishing Utah Grazing District No. 4, so far as it affects the above-described lands.

ABE FORTAS,
Acting Secretary of the Interior.

OFFICE OF DEFENSE TRANSPORTATION.

[Supp. Order ODT 3, Rev. 645]

CONNECTICUT, MASSACHUSETTS, NEW JERSEY, NEW YORK, PENNSYLVANIA, AND RHODE ISLAND

COORDINATED OPERATIONS OF CERTAIN
CARRIERS

Upon consideration of a plan for joint action filed with the Office of Defense Transportation by the persons named in Appendix 1 hereof to facilitate compliance with the requirements and purposes of General Order ODT 3, Revised, as amended (7 F.R. 5445, 6689, 7694; 8 F.R. 4660, 14582; 9 F.R. 2793, 3264, 3357, 6778), a copy of which plan is attached hereto as Appendix 2,¹ and

It appearing that the proposed coordination of operations is necessary in order to assure maximum utilization of the facilities, services, and equipment, and to conserve and providently utilize vital equipment, materials, and supplies, of the carriers, and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war, *It is hereby ordered*, That:

¹ Filed as part of the original document.

1. The plan for joint action above referred to is hereby approved and the carriers are directed to put the plan in operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the carriers forthwith shall file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order, and likewise shall file, and publish in accordance with law, and continue in effect until further order, tariffs or supplements to filed tariffs, setting forth any changes in rates, charges, operations, rules, regulations, and practices of the carrier which may be necessary to accord with the provisions of this order and of such plan; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs or supplements to become effective on the shortest notice lawfully permissible, but not prior to the effective date of this order.

3. Whenever transportation service is performed by one carrier in lieu of service by another carrier, by reason of a diversion, exchange, pooling, or similar act made or performed pursuant to the plan for joint action hereby approved, the rates, charges, rules, and regulations governing such service shall be those that would have applied except for such diversion, exchange, pooling, or other act.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

5. All records of the carriers pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

6. Withdrawal of a carrier from participation in the plan for joint action hereby approved shall not be made without prior approval of the Office of Defense Transportation.

7. The provisions of this order shall be binding upon any successor in interest to any carrier named in this order. Upon a transfer of any operation involved in this order, the successor in interest and the other carriers named in this order

forthwith shall notify, in writing, the Office of Defense Transportation of the transfer and, unless and until otherwise ordered, the successor in interest shall perform the functions of his predecessor in accordance with the provisions of this order.

8. The plan for joint action hereby approved and all contractual arrangements made by the carriers to effectuate the plan shall not continue in operation beyond the effective period of this order.

9. Communications concerning this order should refer to it by the supplementary order number which appears in the caption hereof, and, unless otherwise directed, should be addressed to the Highway Transport Department, Office of Defense Transportation, Washington 25, D. C.

This order shall become effective April 28, 1945, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 24th day of April 1945.

GUY A. RICHARDSON,
Director,
Highway Transport Department,

[Supp. Order ODT 3, Rev. 646]

MINNESOTA AND SOUTH DAKOTA

COORDINATED OPERATIONS OF CERTAIN
CARRIERS

Upon consideration of a plan for joint action filed with the Office of Defense Transportation by the persons named in Appendix 1 hereof to facilitate compliance with the requirements and purposes of General Order ODT 3, Revised, as amended (7 F.R. 5445, 6689, 7694; 8 F.R. 4660, 14582; 9 F.R. 2793, 3264, 3357, 6778), a copy of which plan is attached hereto as Appendix 2,¹ and

It appearing that the proposed coordination of operations is necessary in order to assure maximum utilization of the facilities, services, and equipment, and to conserve and providently utilize vital equipment, materials, and supplies, of the carriers, and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war, *It is hereby ordered*, That:

1. The plan for joint action above referred to is hereby approved and the carriers are directed to put the plan in operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the carriers forthwith shall file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order, and likewise shall file, and publish in accordance with law, and continue in effect until further order, tariffs or supplements to filed tariffs, setting forth any changes in rates, charges, operations, rules, regulations, and practices of the carrier which may be necessary to accord with the provisions of this order and of such plan; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs or supplements to become effective on the shortest notice lawfully permissible, but not prior to the effective date of this order.

3. Whenever transportation service is performed by one carrier in lieu of service by another carrier, by reason of a diversion, exchange, pooling, or similar act made or performed pursuant to the plan for joint action hereby approved, the rates, charges, rules, and regulations governing such service shall be those that would have applied except for such diversion, exchange, pooling, or other act.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

5. All records of the carriers pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

6. Withdrawal of a carrier from participation in the plan for joint action hereby approved shall not be made without prior approval of the Office of Defense Transportation.

7. The provisions of this order shall be binding upon any successor in interest to any carrier named in this order. Upon a transfer of any operation involved in this order, the successor in interest and the other carriers named in this order forthwith shall notify, in writing, the Office of Defense Transportation of the transfer and, unless and until otherwise ordered, the successor in interest shall perform the functions of his predecessor in accordance with the provisions of this order.

8. The plan for joint action hereby approved and all contractual arrangements made by the carriers to effectuate the plan shall not continue in operation beyond the effective period of this order.

9. Communications concerning this order should refer to it by the supplementary order number which appears in the caption hereof, and, unless otherwise directed, should be addressed to the Highway Transport Department, Office of Defense Transportation, Washington 25, D. C.

This order shall become effective April 28, 1945, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 24th day of April 1945.

A. JOHNSON CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion accompanying this order, and pursuant to § 1358.102 (b) of Maximum Price Regulation No. 260, *It is ordered, That:*

(a) A. Johnson Co., 553 N. Cicero Avenue, Chicago 24, Ill., (hereinafter called "manufacturer") and wholesalers and retailers may sell, offer to sell or deliver and any person may buy, offer to buy or receive each brand and size or frontmark, and packing of the following domestic cigars at the appropriate maximum list price and maximum retail price set forth below:

¹ Filed as part of the original document.

Brand	Size or frontmark	Packing	Maximum list price	Maximum retail price
El Defendo.....	Coronas.....	50	Per M \$115	Cents 15

(b) The manufacturer and wholesalers shall grant, with respect to their sales of each brand and size or frontmark of domestic cigars for which maximum prices are established by this order, the discounts they customarily granted in March 1942 on their sales of domestic cigars of the same price class to purchasers of the same class, unless a change therein results in a lower price. Packing differentials charged by the manufacturer or a wholesaler in March 1942 on sales of domestic cigars of the same price class to purchasers of the same class may be charged on corresponding sales of each brand and size or frontmark of cigars priced by this order, but shall not be increased. Packing differentials allowed by the manufacturer or a wholesaler in March 1942 on sales of domestic cigars of the same price class to purchasers of the same class shall be allowed on corresponding sales of each brand and size or frontmark of cigars priced by this order and shall not be reduced. If a brand and size or frontmark of domestic cigars for which maximum prices are established by this order is of a price class not sold by the manufacturer or the particular wholesaler in March 1942, he shall, with respect to his sales thereof, grant the discounts and may charge and shall allow the packing differentials customarily granted, charged or allowed (as the case may be) in March 1942 by his most closely competitive seller of the same class on sales of domestic cigars of the same March 1942 price class to purchasers of the same class.

(c) On or before the first delivery to any purchaser of each brand and size or frontmark of domestic cigars for which maximum prices are established by this order, the manufacturer and every other seller (except a retailer) shall notify the purchaser of the maximum list price and the maximum retail price established by this order for such brand and size or frontmark of domestic cigars. The notice shall conform to and be given in the manner prescribed by § 1358.113 of Maximum Price Regulation No. 260.

(d) Unless the context otherwise requires, appropriate provisions of Maximum Price Regulation No. 260, shall apply to sales for which maximum prices are established by this order.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective April 24, 1945.

Issued this 23d day of April 1945.

[File No. 812-377]

GENERAL MACHINERY CORP. ET AL.

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 23d day of April, A. D. 1945.

In the matter of General Machinery Corporation, Charleston Shipbuilding and Drydock Company, Southeastern Shipbuilding Corporation and First York Corporation, File No. 812-377.

An application has been filed by General Machinery Corporation and Charleston Shipbuilding and Drydock Company pursuant to section 17 (b) of the Investment Company Act of 1940 for an order exempting from the provisions of section 17 (a) (2) of said act the purchase by said companies of 1,000 shares of Class "B" stock of Southeastern Shipbuilding Corporation from First York Corporation. General Machinery Corporation and Charleston Shipbuilding and Drydock Company are affiliated persons of Southeastern Shipbuilding Corporation, which is an affiliated person of First York Corporation, a registered investment company.

It is ordered, Pursuant to section 40 (a) of said act, that a hearing on the aforesaid application be held on May 9, 1945 at 10:00 a. m., eastern war time, in Room 318 of the Securities and Exchange Commission Building, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

It is further ordered, That Robert P. Reeder, Esquire, or any other officer or officers of the Commission designated by it for that purpose, shall preside at such hearing. The officer so designated is hereby authorized to exercise all the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to trial examiners under the Commission's rules of practice.

Notice of such hearing is hereby given to General Machinery Corporation, Charleston Shipbuilding and Drydock Company, Southeastern Shipbuilding Corporation and First York Corporation and to any other persons whose participation in such proceeding may be in the public interest or for the protection of investors.

By the Commission.

[File No. 70-965]

COLUMBIA GAS & ELECTRIC CORP., ET AL. NOTICE OF FILING OF AMENDMENT AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 21st day of April 1945.

In the matter of Columbia Gas & Electric Corporation, United Fuel Gas Company, Warfield Natural Gas Company, Central Kentucky Natural Gas Company, Cincinnati Gas Transportation Company, Huntington Development and Gas Company and Point Pleasant Natural Gas Company, File No. 70-965.

Notice is hereby given that declarations or applications (or both) have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Columbia Gas & Electric Corporation ("Columbia"), a registered holding company, and six of its subsidiaries, United Fuel Gas Company ("United Fuel"), Warfield Natural Gas Company ("Warfield"), Central Kentucky Natural

Gas Company ("Central Kentucky"), Cincinnati Gas Transportation Company ("Cincinnati Transportation"), Huntington Development and Gas Company ("Huntington Development") and Point Pleasant Natural Gas Company ("Point Pleasant"). The present filing is in the form of an amendment to the applications or declarations (or both) of Columbia, United Fuel and Warfield heretofore filed relative to the merger of only the latter two companies (Holding Company Act Release No. 5332), and enlarges the scope of the previous filing in that it contemplates the merger of six subsidiary companies of Columbia.

All interested persons are referred to said document, which is on file in the office of the Commission, for a statement of the transactions now proposed, which may be summarized as follows:

United Fuel proposes to acquire the business and properties of Warfield, Central Kentucky, Cincinnati Transportation, Huntington Development and Point Pleasant, and will assume all the liabilities, obligations and indebtedness of these companies existing at the date of the acquisition of the assets, and in consideration therefor will issue an aggregate of 218,840 additional shares of common stock having a par value of \$1 per share to the five constituent corporations as follows:

To: Warfield	28,444
Central Kentucky	42,000
Cincinnati Transportation	75,350
Huntington Development	72,446
Point Pleasant	600
Total	218,840

Upon receipt of this stock, these companies will distribute the new shares of common stock of United Fuel to their stockholders as a liquidating dividend and dissolve. Thereafter United Fuel proposes to exchange its outstanding shares of \$1 par value common stock for new shares of common stock, \$27 par value.

Prior to the merger, Warfield, Central Kentucky, Point Pleasant, Cincinnati Transportation and Huntington Development propose to pay cash dividends on their outstanding stocks in an amount substantially equal to the Earned Surplus since December 31, 1937 of the respective companies, at the date of the consummation of the proposed transactions; United Fuel or Point Pleasant will liquidate the latter's \$15,500 of open account indebtedness presently owing to Columbia.

Upon consummation of these transactions, United Fuel will have outstanding 518,840 shares of common stock (\$27 per share par value) having an aggregate par value of \$14,008,680, all of which, except for 243½ shares, will be held by Columbia; 6% demand loans and notes in the principal amount of \$24,025,000 payable to Columbia; and 4% notes in the principal amount of \$1,500,000 held by insurance companies.

In connection with the proposed merger, United Fuel requests the Commission to modify its order of January 31, 1940 (6 S. E. C. 732), so as to permit United Fuel to resume the payment of interest and principal on the 6% demand

loan and note indebtedness payable to Columbia.

Applicants state that the Public Service Commissions of West Virginia and Kentucky and also the Federal Power Commission have jurisdiction over certain of the transactions involved.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said matters and that said applications or declarations (or both) shall not be granted or permitted to become effective except pursuant to further order of this Commission;

It is ordered, That a hearing on said matters under the applicable provisions of said act and rules of the Commission thereunder be held on May 7, 1945, at 10 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which the hearing will be held.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing copies of this order by registered mail to Columbia, United Fuel, Warfield, Central Kentucky, Cincinnati Transportation, Huntington Development, Point Pleasant the Public Service Commissions of the States of West Virginia and Kentucky and the Federal Power Commission; and that notice of said hearing be given to all persons by publication of this order in the FEDERAL REGISTER. Any person desiring to be heard or otherwise wishing to participate in these proceedings shall file with the Secretary of this Commission, on or before May 4, 1945, his request or application as provided by Rule XVII of the rules of practice of this Commission.

It is further ordered, That Richard Townsend, or any other officer or officers of the Commission designated by it for that purpose, shall preside at such hearing. The officer so designated is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said applications or declarations (or both), particular attention will be directed at the hearing to the following matters and questions:

(a) Whether the proposed acquisitions of securities will serve the public interest by tending toward the economical and efficient development of an integrated public utility system; and whether such acquisitions will unduly complicate the capital structure of the holding company system of Columbia or be detrimental to the proper functioning of such system or to the carrying out of the provisions of section 11 of the act;

(b) Whether the proposed issue of additional common stock by United Fuel is solely for the purpose of effecting the merger and whether such stock is reasonably adapted to the earning power and security structure of United Fuel and is necessary and appropriate to the economical and efficient operation of the

business in which United Fuel is presently engaged;

(c) Whether the request of United Fuel to be permitted to resume the payments of interest and principal on the 6% demand note indebtedness payable to Columbia is appropriate and in the public interest and in the interests of investors and consumers;

(d) Whether the fees and expenses to be paid in connection with the proposed transactions are reasonable;

(e) Whether the accounting treatment proposed in connection with the contemplated transactions is proper and in accordance with sound accounting practices;

(f) Whether, if the proposed transactions are authorized, it is necessary or appropriate that terms or conditions be imposed in the public interest or for the protection of investors and consumers;

(g) Generally, whether the proposed transactions comply with the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder.

By the Commission.

NORTH WEST UTILITIES CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 21st day of April, A. D. 1945.

North West Utilities Company, a registered holding company and a subsidiary of The Middle West Corporation, likewise a registered holding company, having filed a declaration pursuant to section 12 (d) of the Public Utility Holding Company Act of 1935 and Rules U-44 and U-50 of the General Rules and Regulations promulgated thereunder, proposing to sell at competitive bidding all of the issued and outstanding common stock of its subsidiary, Lake Superior District Power Company, consisting of 133,500 shares with a par value of \$20 per share, the price to be received and the underwriters' spread to be determined by competitive bidding; the use of the proceeds of the sale of such stock to be subject to a separate application to be filed with this Commission at some future date; and

North West Utilities Company having requested that the ten-day period for inviting bids as provided by Rule U-50 (b) be shortened to seven days in order to make possible the opening of bids on April 30, 1945; and

A public hearing having been held after appropriate notice and the Commission having considered the record and having made and filed its findings and opinion herein:

It is ordered, That said declaration be, and the same hereby is, permitted to become effective subject, however, to the terms and conditions contained in Rule

U-24 and subject to the following terms and conditions:

That the proposed sale of common stock shall not be consummated until the results of the competitive bidding pursuant to Rule U-50 have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record so completed, which order may contain further terms or conditions as may then be deemed appropriate, jurisdiction being reserved for this purpose and to pass upon the price to be paid for said common stock, the underwriters' spread and its allocation, and the legal fees to be paid to counsel for the underwriters.

It is further ordered, That the ten-day period for inviting bids as provided by Rule U-50 (b) be, and hereby is, shortened to a period of not less than seven days.

By the Commission.

NIAGARA HUDSON POWER CORP. AND BUFFALO, NIAGARA AND EASTERN POWER CORP.

ORDER PERMITTING WITHDRAWAL OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 21st day of April, 1945.

Niagara Hudson Power Corporation, a holding company subsidiary of The United Corporation, a registered holding company, and Buffalo, Niagara and Eastern Power Corporation, a holding company subsidiary of Niagara Hudson Power Corporation and of The United Corporation, having filed an application for approval of a plan of reorganization under section 11 (e) of the Public Utility Holding Company Act of 1935 for the purpose of effecting compliance with the provisions of section 11 (b) of the act, consummation of said plan being expressly conditioned upon approval of the Public Service Commission of the State of New York; and

No hearings on said plan having been held, and hearings thereon having been postponed subject to further order of this Commission; and

It appearing that the Public Service Commission of the State of New York has refused to approve said plan; and

It further appearing that Niagara Hudson Power Corporation and Buffalo, Niagara and Eastern Power Corporation have filed subsequent plans for the reorganization of Buffalo, Niagara and Eastern Power Corporation (File Nos. 54-107 and 54-106, respectively), that said plans are inconsistent with the plan filed in this proceeding, and that hearings have been held thereon; and

Niagara Hudson Power Corporation and Buffalo, Niagara and Eastern Power Corporation having filed letters purport-

ing to withdraw said application for approval of the plan herein; and

It appearing that withdrawal of said application of Niagara Hudson Power Corporation and Buffalo, Niagara and Eastern Power Corporation for approval of the plan herein will not be detrimental to the public interest or to the interests of investors or consumers;

It is ordered, That said application be permitted to be withdrawn.

By the Commission.

NY PA NJ UTILITIES CO. AND ASSOCIATED
GAS AND ELECTRIC CORP.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 23d day of April 1945.

Notice is hereby given that joint declarations or applications (or both), as amended, have been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation ("Agecorp"), a registered holding company, and by NY PA NJ Utilities Company ("NY PA NJ"), also a registered holding company and a subsidiary of Agecorp. All interested persons are referred to said joint filings which are available in the office of the Commission for a statement of the purpose and nature of the proposed transactions, which may be summarized as follows:

(a) Subject to the obtaining by Agecorp of an appropriate order from the District Court of the United States for the Southern District of New York ("District Court") and subject further to the obtaining by NY PA NJ and Stanley Clarke, as Trustee of Associated Gas and Electric Company, parent of Agecorp, of an acceptable ruling by, or closing agreement with, the Commissioner of Internal Revenue, Agecorp will donate to NY PA NJ, for cancellation, as a contribution to its capital, the following obligations of NY PA NJ owing to Agecorp, together with all interest accrued and unpaid, or to accrue, thereon:

Obligations	Amount
Convertible obligation, due March 1, 1963:	
Interest bearing, 1% to the extent of "available net income"-----	\$196,725,000.00
Non-interest bearing-----	5,275,000.00
Advances:	
Open account, 2% interest bearing-----	24,478,251.18
Open account, non-interest bearing-----	956,234.04
Total-----	227,434,485.22

Accrued interest on the convertible obligation and open account amounted to \$4,763,502.05 and \$693,550.44, respectively, on December 31, 1944.

(b) In connection with, and contingent upon, the above donation by Agecorp of the Convertible Obligation and open account advances, NY PA NJ will effect an accounting reorganization involving, among other things, the restatement by NY PA NJ of the carrying amounts for certain of its investments, and the creation of a reserve, in the absence of a revaluation of assets, against the carrying amounts for investments in majority-owned subsidiaries, equivalent to the excess of such carrying amounts over the related adjusted combined net assets of such subsidiaries as at the effective date of the accounting reorganization.

(c) Subject to obtaining the consent in writing of Agecorp pursuant to an appropriate order of the District Court, NY PA NJ will redeem all of its outstanding 5,405.6 shares of \$3 noncumulative preferred stock, no par value, at the redemption price of \$26 per share, and, in addition, will pay to the holders of such stock entitled to receive the redemption price, in full satisfaction of any and all claims to dividends on such stock since January 1, 1941, an amount equivalent to dividends upon such stock at the rate of \$3 per annum per share from January 1, 1941, to the date of redemption.

It is stated in the joint filings that the purposes of the proposed transactions, as summarized above, are to simplify the corporate structure of NY PA NJ and the intercorporate relationships between NY PA NJ and Agecorp and to facilitate the consummation of the plan of reorganization of Associated Gas and Electric Company and Associated Gas and Electric Corporation, which plan was approved by this Commission, and by the District Court of the United States for the Southern District of New York.

Declarants or applicants (or both) have designated sections 12 (b) and 12 (c) of the act and Rules U-42 and U-45 as applicable to the proposed transactions and state that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to such matters:

It is ordered, That a hearing on such matters under the applicable provisions of said act and the rules of the Commission thereunder be held on the 11th day of May 1945, at 10:30 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day the hearing room clerk in room 318 will advise as to the room in which such hearing will be held. All persons desiring to be heard or otherwise wishing to participate in said proceeding should file with the Secretary of the Commission, on or before May 9, 1945, his application therefor as provided in Rule XVII of the rules of practice of the Commission.

It is further ordered, That Charles S. Lobingier or any other officer or officers

of the Commission designated for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said filings, particular attention will be directed at such hearing to the following matters and questions:

1. The propriety of the proposed accounting treatment of the several transactions on the books of the respective declarants or applicants (or both); and

2. Generally, whether the proposed transactions are in all respects in the public interest and in the interest of investors or consumers and consistent with all applicable requirements of the act and of the rules thereunder, or, if not, whether and what modifications or terms and conditions should be required or imposed to satisfy the statutory standards.

By the Commission.

WAR FOOD ADMINISTRATION.

Commodity Credit Corporation.

[1945 CCC Flour Export Form 1]

WHEAT FLOUR EXPORT PROGRAM, 1945 AND
1946

ANNOUNCEMENT OF PAYMENTS

APRIL 18, 1945.

Announcement is hereby made that the Administrator of the War Food Administration (hereinafter referred to as the Administrator), pursuant to the provisions of clause (1), section 32, Public Law 320, 74th Congress, as amended, and Executive Order 9334, as amended, and subject to the following conditions, will make payments to exporters in connection with the exportation of flour milled from wheat grown in the continental United States.

(1) The exporter must sell such flour not later than June 30, 1946, for export to foreign markets, the Philippine Islands, or the Virgin Islands. No payments will be made in connection with flour sold to any governmental agency or sold for export to the Canal Zone, Alaska, Hawaii, and Puerto Rico, or any other territory or possession of the United States, except as named in the preceding sentence.

(2) Such flour must be exported within such period from the date it is sold as the Administrator or his representatives may require, and in any event:

(a) Flour sold prior to July 1, 1945 must be exported not later than October 31, 1945.

(b) Flour sold subsequent to June 30, 1945 must be exported not later than October 31, 1946.

(3) The rates of payment to be made by the Administrator in connection with

any sale made pursuant to this announcement shall be the rate of payment announced by the Administrator or his representatives applicable to such sale, and in effect at the time such sale is made: *Provided*, That notice of the consummation of such sale is given to a representative of the Administrator designated for that purpose during such time as may be designated in the announcement of the applicable rate of payment. Such notice may be given orally, by telephone, by telegraphic day letter, or by straight telegram.

(4) Under standing orders for exportation of flour and under sales agreements calling for periodic shipments wherein no definite sale price has been fixed other than that which is the lowest price or the prevailing price of flour in effect at the time at which shipment is to be made, or terms similar thereto, each periodic shipment shall be considered a sale and the sale on each lot of the flour shall be considered as being made on the date a definite sale price is fixed by the exporter, or on the date of exportation, whichever date is the earlier. The exporter must give notice in connection with each of such sales as provided in paragraph (3), hereof.

(5) The exporter must file a Declaration of Sale on a form provided for that purpose with a representative of the Administrator.

(6) The exporter must make application for payment in voucher form within 60 days of the date exportation is made, unless such time is extended by the Administrator or his representative, and must submit such proof of exportation and such proof of compliance with the conditions set forth herein, as the Administrator or his representative may require.

(7) For the verification of the required vouchers, and such proof, the exporter shall make available to the Administrator or to his representatives from time to time, as the Administrator may request, the exporter's pertinent books, records, accounts, memoranda, documents, papers, and correspondence, and those of his agents, affiliates, and subsidiaries. The determination by the Administrator as to what is pertinent shall be final and conclusive.

The Administrator reserves the right to suspend or terminate the provisions of this Announcement at any time by giving public notice thereof: *Provided, however*, That such suspension or termination shall not apply to sales made and declared prior to the effective date of such suspension or termination.

This announcement shall become effective as of 12:01 a. m., e. w. t., April 30, 1945.

15. Solicitation of workers.
16. Hiring.
17. Representation.
18. General referral policies.
19. Amendments.
20. Effective date.

SECTION 1. Purpose. The purpose of this employment stabilization program is to assist the War Manpower Commission in bringing about, by measures equitable to labor and management, and necessary for the effective prosecution of the war:

(a) The elimination of wasteful labor turnover in essential activities.

(b) The reduction of unnecessary labor migration.

(c) The direction of the flow of scarce labor where most needed in the war program.

(d) The maximum utilization of manpower resources.

SEC. 2. Definitions. As used in this employment stabilization program:

(a) "The New Orleans Area" is the area comprising the parishes of St. Tammany, Orleans, Jefferson, Plaquemines, St. Bernard, St. Charles, St. James, St. John, Washington, Assumption, La Fourche, Terrebonne, Ascension (West of the Mississippi River), St. Mary (East of Atchafalaya River) and the corporate limits of the City of Berwick.

(b) "Agriculture" means those farm activities carried on by farm owners or tenants on farms in connection with the cultivation of the soil, the harvesting of crops, or the raising, feeding or management of livestock, bees, and poultry, and shall not include any packing, canning, processing, transportation, or marketing of articles produced on farms unless performed or carried on as an incident to ordinary farming operations as distinguished from manufacturing or commercial operations.

(c) "State" includes Alaska, Hawaii and the District of Columbia.

(d) "New employee" means any individual who has not been in the employment of the hiring employer at any time during the preceding 30-day period. For the purpose of this definition, employment of less than seven days' duration and employment which is supplemental to the employee's principal work shall be disregarded.

(e) "Shipbuilding industry" means the production, maintenance and repair of ships, boats, ship and boat parts and equipment.

(f) "Aircraft manufacturing" means the production, maintenance and repair of aircraft, gliders, parachutes, dirigibles, balloons, aircraft engines, aircraft parts, pontoons, propellers, and similar products.

(g) "Essential activity" means any activity included in the War Manpower Commission list of essential activities. (9 F.R. 3439)

(h) "Locally needed activity" means any activity approved by the Regional Manpower Director as a locally needed activity.

(i) The terms "employment" and "work" as applied to an individual engaged in principal and supplementary employments mean his principal employment.

(j) "Locality" of the new employment, as used in section 10 (c) of this plan, means within a reasonable daily commuting distance.

(k) "Employment ceiling" is the maximum number of employees, or specified types of employees, which an establishment may have in its employ during a specified period.

SEC. 3. Control of hiring and solicitation of workers. All hiring and solicitation of workers in, or for work in, the New Orleans Area, shall be conducted in accordance with this employment stabilization program.

SEC. 4. Authority and responsibilities of Management-Labor Committee. The Area Management-Labor Committee for the New Orleans Area is authorized to consider questions of policy, standards, and safeguards in connection with the establishment and administration of this

employment stabilization program, and to make recommendations to the Area Director.

SEC. 5. Use of existing hiring channels and special authorization to designated Government agencies. To the maximum degree consistent with this employment stabilization program, and with its objectives, local initiative and cooperative efforts shall be encouraged and utilized and maximum use made of existing hiring channels such as private employers, labor organizations, schools, colleges, technical institutions, and Government agencies.

Statements of availability may be issued in accordance with this program by the United States Civil Service Commission, the Railroad Retirement Board or the War Shipping Administration as authorized by the Chairman of the War Manpower Commission.

SEC. 6. General. A new employee, who during the preceding 60-day period was engaged in an essential or locally needed activity, may be hired only if such hiring would aid in the effective prosecution of the war. Such hiring shall be deemed to aid in the effective prosecution of the war only if:

(a) Such individual is hired for work in an essential or locally needed activity or for work to which the worker has been referred by the United States Employment Service; and

(b) Such individual presents a statement of availability from his last employment in an essential or locally needed activity, or is referred by the United States Employment Service of the War Manpower Commission, or is hired with its consent, as provided herein.

SEC. 7. Issuance of statements of availability by employers. An individual whose last employment is, or was, in an essential or locally needed activity shall receive a statement of availability from his employer if:

(a) He has been discharged, or his employment has been otherwise terminated by his employer, except when termination is a result of provoked discharge or provoked quiet, or

(b) He has been laid off for an indefinite period, or for a period of seven or more days, or

(c) Continuance in his employment would involve undue personal hardship.

SEC. 8. Issuance of statements of availability by the United States Employment Service. (a) A statement of availability shall be issued promptly to an individual when any of the circumstances set forth in section 7 is found to exist in his case. If the employer fails or refuses to issue a statement of availability to an individual entitled to such statement, or is notified by the United States Employment Service to refrain from issuing a statement of availability, the United States Employment Service of the War Manpower Commission, upon finding that the individual is entitled thereto, shall issue a statement of availability to the individual. In cases involving provoked discharges or provoked quits (see section 7 (a) above) the following procedure shall be followed: When, in handling an application for a statement of

availability, the United States Employment Service has reasonable grounds to believe that quit or discharge has been provoked, a full inquiry into the facts shall be made and a decision rendered by the Area Director, or whomsoever he may delegate, as to whether or not a statement of availability should be granted or denied. All facts leading up to the provoked quit or provoked discharge should be considered in making a decision.

(b) A statement of availability shall be issued by the United States Employment Service to any individual in the employ of an employer who the War Manpower Commission finds, after notice, hearing and final decision, has not complied with any War Manpower Commission employment stabilization program, regulation or policy, and for so long as such employer continues his non-compliance after such finding.

(c) An individual whose last employment is, or was in an essential or locally needed activity shall receive a statement of availability from the United States Employment Service if:

(1) Such employment is, or was, at a wage or salary or under working conditions below standards established by State or Federal law or regulation, or

(2) Such employment is, or was, at a wage or salary below a level established or approved by the National War Labor Board (or other Agency authorized to adjust wages or approve adjustments thereof) as warranting adjustment, and the employer has failed to adjust the wage in accordance with such level or to apply to the appropriate agency for such adjustment or approval thereof.

SEC. 9. Referral in case of under-utilization. If an individual is employed at less than full-time or at a job which does not utilize his highest recognized skill for which there is a need in the war effort, the United States Employment Service may, upon his request, refer him to other available employment in which it finds that the individual will be more fully utilized in the war effort.

SEC. 10. Workers who may be hired only upon referral by the United States Employment Service. A new employee may not be hired solely upon presentation of a statement of availability, but may be hired only upon referral by, or in accordance with arrangements with the United States Employment Service, except as excluded by section 12 when:

(a) The new employee is a male.

(b) The new employee's last employment was in shipbuilding or aircraft manufacturing industries.

(c) The new employee has not lived or worked in the locality of the new employment throughout the preceding 30-day period.

(d) The new employee's last regular employment was in agriculture, and he is to be hired for non-agricultural work: *Provided*, That no such individual shall be referred to non-agricultural work except after consultation with a designated representative of the War Food Administration; *And provided further*, That such an individual may be hired for non-agricultural work for a period not to ex-

ceed six weeks without referral or presentation of a statement of availability.

SEC. 11. Employment ceilings. The Area Manpower Director may fix, for all or any establishments in the New Orleans Area, fair and reasonable employment ceilings, limiting the number of employees or other specified types of employees which such establishments may employ during specified periods. Such ceilings will be determined on the basis of the establishment's actual labor needs, the available labor supply, and/or the relative urgency of the establishment's products or services to the war effort. Except as authorized by the Area Manpower Director, no employer shall hire any new employee for work in such establishment if the hiring of such employee would result in such establishment's exceeding the employment ceiling currently applicable to it.

SEC. 12. Exclusions. No provision of this employment stabilization program shall be applicable to:

(a) The hiring of other than dishonorably discharged Veterans of World War II;

(b) The hiring of a new employee for agricultural employment;

(c) The hiring of a new employee for work of less than seven days' duration, or for work which is supplementary to the employee's principal work; but such work shall not constitute the individual's "last employment" for the purposes of the program, unless the employee is customarily engaged in work of less than seven days' duration;

(d) The hiring of an employee in any territory or possession of the United States except Alaska and Hawaii;

(e) The hiring by a foreign, state, parish, or municipal government, or their political subdivisions, or their agencies and instrumentalities or to the hiring of any of their employees, unless such foreign, state, parish, or municipal government, or political subdivision or agency or instrumentality has indicated its willingness to conform, to the maximum extent practicable under the Constitution and laws applicable to it, with the program;

(f) The hiring of a new employee for domestic service, or to the hiring of a new employee whose last regular employment was in domestic service;

(g) The hiring of a school teacher for vacation employment or the rehiring of a school teacher for teaching at the termination of the vacation period.

SEC. 13. Appeals. Any worker or employer may appeal from any act or failure to act by the War Manpower Commission under the employment stabilization program in accordance with regulations and procedures of the War Manpower Commission.

SEC. 14. Content of statements of availability. A statement of availability issued to an individual pursuant to the program shall contain only the individual's name, address, social security account number, if any, the name and address of the issuing employer, or War Manpower Commission officer and office, the date of issuance, and such other in-

formation not prejudicial to the employee in seeking new employment as may be authorized or required by the War Manpower Commission.

Sec. 15. Solicitation of workers. No employer shall advertise, or otherwise solicit, for the purpose of hiring any individual if the hiring of such an individual would be subject to restrictions under the employment stabilization program except in a manner consistent with such restrictions.

Sec. 16. Hiring. The decision to hire or refer a worker shall be based on qualifications essential for performance of, or suitability for, the job and shall be made without discrimination as to race, color, creed, sex, national origin, or except as required by law, citizenship.

Sec. 17. Representation. Nothing contained in the program shall be construed to restrict any individual from seeking the advice and aid of, or from being represented by, the labor organization of which he is a member, or any other representative freely chosen by him, at any step in the operation of the plan.

Sec. 18. General referral policies. No provision in the program shall limit the authority of the United States Employment Service to make referrals in accordance with approved policies and instructions of the War Manpower Commission.

Sec. 19. Amendments. This plan may be amended at any time after consultation with the Area Management-Labor Committee of the New Orleans Area upon approval by the Regional War Manpower Commission Director.

Sec. 20. Effective date. Approved as amended, effective Oct. 13, 1944.

Dated: February 8, 1945.

H. T. UNDERWOOD,
Area Director.

Approved: February 23, 1945.

14. Solicitation of workers.
15. Hiring.
16. Representation.
17. General referral policies.
18. Approval and amendment of program.
19. Effective date.

SECTION 1. Purpose. The purpose of this employment stabilization program is to assist the War Manpower Commission in bringing about, by measures equitable to labor and management and necessary for the effective prosecution of the war:

- (a) The elimination of wasteful labor turnover in essential activities.
- (b) The reduction of unnecessary labor migration.
- (c) The direction of the flow of scarce labor where most needed in the war program.
- (d) The maximum utilization of manpower resources.

Sec. 2. Definitions. As used in this employment stabilization program:

(a) "The Shreveport Area" is the area comprised of the parishes of Bossier, Caddo, DeSoto, Bienville, Claiborne, Webster, Caldwell, East Carroll, Franklin, Jackson, Lincoln, Madison, Morehouse, Ouachita, Richland, Tensas, Union, West Carroll, Natchitoches, Red River, Winn.

(b) "Agriculture" means those farm activities carried on by farm owners or tenants of farms in connection with the cultivation of the soil, the harvesting of crops, or the raising, feeding, or management of livestock, bees, and poultry, and shall not include any packing, canning, processing, transportation, or marketing of articles produced on farms unless performed or carried on as an incident to ordinary farming operations as distinguished from manufacturing or commercial operations.

(c) "State" includes Alaska, Hawaii, and the District of Columbia.

(d) "New employee" means any individual who has not been in the employment of the hiring employer at any time during the preceding 30-day period. For the purpose of this definition, employment of less than seven days' duration and employment which is supplemental to the employee's principal work shall be disregarded.

(e) "Critical occupation" means any occupation designated as a critical occupation by the Chairman of the War Manpower Commission.

(f) "Essential activity" means any activity approved by the Regional Manpower Director as a locally needed activity. (9 F.R. 3439)

(g) "Locally needed activity" means any activity approved by the Regional Manpower Director as a locally needed activity.

(h) The terms "employment" and "work" as applied to an individual engaged in principal and supplementary employments mean his principal employment.

(i) "Locality of new employment" as used in section 10 (b) of this plan means within reasonable daily commuting distance.

Sec. 3. Control of hiring and solicitation of workers. All hiring and solicitation of workers in, or for work in, the Shreveport Area shall be conducted in accordance with this employment stabilization program.

Sec. 4. Authority and responsibilities of management-labor committees. The Area-Management-Labor War Manpower Committee for the Shreveport Area is authorized to consider questions of policy, standards, and safeguards in connection with the administration of this employment stabilization program and to make recommendations to the Area Manpower Director.

Sec. 5. Use of existing hiring channels and special authorization to designated Government agencies. To the maximum degree consistent with this stabilization program, local initiative and cooperative effort shall be encouraged and utilized and maximum use made of existing hiring channels such as: private employer, labor organizations, professional organizations, schools, colleges, technical institutions, and Government agencies. Statements of availability may be issued in accordance with this program by the United States Civil Service Commission to a worker who is or most recently was employed in the departmental or field service of the United States Government, by the Railroad Retirement Board to a worker who is or most recently was employed with an employer in the railroad industry, by the War Shipping Administration to a worker who is or most recently was employed with an employer in the off-shore, coastal, or intercoastal merchant marine industry, as authorized by the Chairman of the War Manpower Commission.

Sec. 6. General. A new employee, who during the preceding 60-day period was engaged in an essential or locally needed activity, may be hired only if such hiring would aid in the effective prosecution of the war. Such hiring shall be deemed to aid in the effective prosecution of the war only if:

(a) Such individual is hired for work in an essential or locally needed activity or for work to which he has been referred by the United States Employment Service, and

(b) Such individual presents a statement of availability from his last employment in an essential or locally needed activity, or is referred by the United States Employment Service of the War Manpower Commission, or is hired with its consent, as provided herein.

Sec. 7. Issuance of statements of availability by employers. An individual whose last employment is or was in an essential or locally needed activity shall receive a statement of availability from his employer if:

(a) He has been discharged, or his employment has been otherwise terminated by his employer, or

(b) He has been laid off for an indefinite period, or for a period of seven or more days, or

(c) Continuance in his employment would involve undue personal hardship.

SEC. 8. *Issuance of statements of availability by United States Employment Service.* (a) A statement of availability shall be issued promptly to an individual when any of the circumstances set forth in section 7 is found to exist in his case. If the employer fails or refuses to issue a statement, the United States Employment Service of the War Manpower Commission, upon finding that the individual is entitled thereto, shall issue a statement of availability to the individual.

(b) A statement of availability shall be issued by the United States Employment Service to any individual in the employ of an employer who the War Manpower Commission finds, after notice, hearing, and final decision, has not complied with any War Manpower Commission employment stabilization program, regulation, or policy, and for so long as such employer continues his non-compliance after such finding.

(c) An individual whose last employment is or was in an essential or locally needed activity shall receive a statement of availability from the U. S. Employment Service if:

(1) Such employment is or was at a wage or salary or under working conditions below standards established by state or federal law or regulation, or

(2) Such employment is or was at a wage or salary below a level established or approved by the National War Labor Board (or other agency authorized to adjust wages or approve adjustments thereof) as warranting adjustment, and the employer has failed to adjust the wage in accordance with such level or to apply to the appropriate agency for such adjustment or approval thereof.

SEC. 9. *Referral in case of under-utilization.* If an individual is employed at less than full-time or at a job which does not utilize his highest recognized skill for which there is a need in the war effort, the United States Employment Service, may, upon his request, refer him to other available employment in which it finds that the individual will be more fully utilized in the war effort.

SEC. 10. *Workers who may be hired only upon referral by the United States Employment Service.* Under the circumstances set forth below, a new employee may not be hired solely upon presentation of a statement of availability, but may be hired only upon referral by, or in accordance with arrangements with the United States Employment Service when:

(a) The new employee is to be hired for work in a critical occupation, or his statement of availability indicates that his last employment was in a critical occupation.

(b) The new employee has not lived or worked in the locality of the new employment throughout the preceding 30-day period.

(c) The new employee's last regular employment was in agriculture and he is to be hired for non-agricultural work, *Provided*, That no such individual shall be referred to non-agricultural work except after consultation with a designated

representative of the War Food Administration, *And provided further*, That such an individual may be hired for non-agricultural work for a period of not to exceed six weeks without referral or presentation of a statement of availability.

SEC. 11. *Exclusions.* No provision of the employment stabilization program shall be applicable to:

(a) The hiring of a new employee for agricultural employment;

(b) The hiring of a new employee for work of less than seven days' duration, or for work which is supplementary to the employee's principal work; but such work shall not constitute the individual's "last employment" for the purposes of the program, unless the employee is customarily engaged in work of less than seven days' duration;

(c) The hiring of an employee in any territory or possession of the United States, except Alaska and Hawaii;

(d) The hiring by a foreign, state, county, or municipal government, or their political sub-division, or their agencies and instrumentalities, or to the hiring of any of their employees, unless such foreign, state, county, or municipal government or political sub-division or agency or instrumentality has indicated its willingness to conform, to the maximum extent practicable under the Constitution and laws applicable to it, with the program;

(e) The hiring of a new employee for domestic service, or to the hiring of a new employee whose last regular employment was in domestic service;

(f) The hiring of a school teacher for vacation employment or the rehiring of a school teacher for teaching at the termination of the vacation period.

SEC. 12. *Appeals.* Any worker or employer may appeal from any act or failure to act by the War Manpower Commission under the employment stabilization program, in accordance with regulations and procedures of the War Manpower Commission.

SEC. 13. *Content of statements of availability.* A statement of availability issued to an individual pursuant to the program shall contain only the individual's name, address, social security account number, if any, the name and address of the issuing employer, or War Manpower Commission officer and office, the date of issuance, a statement as to whether or not the individual's last employment was in a critical occupation, and such other information not prejudicial to the employee in seeking new employment as may be authorized or required by the War Manpower Commission.

SEC. 14. *Solicitation of workers.* No employer shall advertise or otherwise solicit for the purpose of hiring any individual if the hiring of such an individual would be subject to restrictions under the employment stabilization program, except in a manner consistent with such restrictions.

SEC. 15. *Hiring.* The decision to hire or refer a worker shall be based on qualifications essential for performance of or suitability for the job, and shall be made without discrimination as to race, color,

creed, sex, national origin, or except as required by law, citizenship.

SEC. 16. *Representation.* Nothing contained in the program shall be construed to restrict any individual from seeking the advice and aid of, or from being represented by, the labor organization of which he is a member or any other representative freely chosen by him, at any step in the operation of the program.

SEC. 17. *General referral policies.* No provision in the program shall limit the authority of the United States Employment Service to make referrals in accordance with approved policies and instructions of the War Manpower Commission.

SEC. 18. *Approval and amendment of program.* This plan may be amended at any time after consultation with the Area Management-Labor War Manpower Committee of the Shreveport Area and upon approval by the Regional War Manpower Commission Director.

SEC. 19. *Effective date.* This plan shall become effective October 15, 1943.

Dated: January 23, 1945.

SECTION 1. Purpose. The purpose of this employment stabilization program is to assist the War Manpower Commission in bringing about by measures equitable to labor and management and necessary for the effective prosecution of the war:

- (a) The elimination of wasteful labor turnover in essential activities.
- (b) The reduction of unnecessary labor migration.
- (c) The direction of the flow of scarce labor where most needed in the war program.
- (d) The maximum utilization of manpower resources.

SEC. 2. Definitions. As used in this employment stabilization program:

- (a) "New Mexico Area" means the State of New Mexico in its entirety.
- (b) "Agriculture" means those farm activities carried on by farm owners, operators, or tenants on farms in connection with the cultivation of the soil, the harvesting of crops, or the raising, feeding, or management of livestock, bees, poultry, and shall not include any packing, canning, processing, transportation or marketing of articles produced on farms unless performed or carried on as an incident to ordinary farming operations as distinguished from manufacturing or commercial operations.
- (c) "Locality of the new employment" as used in section 10 (c), means within a reasonable daily commuting distance.
- (d) "State" includes Alaska, Hawaii, and the District of Columbia.
- (e) "New employee" means any individual who has not been in the employment of the hiring employer at any time during the preceding 30-day period. For the purpose of this definition, employment of less than seven days' duration and employment which is supplemental to the employee's principal work shall be disregarded.
- (f) "Critical occupation" means any occupation designated as a critical occupation by the Chairman of the War Manpower Commission.
- (g) "Essential activity" means any activity included in the War Manpower Commission List of Essential Activities. (9 F.R. 3439).
- (h) "Locally needed activity" means any activity approved by the Regional Manpower Director as a "locally needed" activity. ("Locally needed" activity determinations are made by the State Director in consultation with the State Labor-Management Committee subject to the approval of the Regional Director.)
- (i) The terms "employment" and "work" as applied to an individual engaged in principal and supplemental employments means his principal employment.
- (j) "Employment ceilings." An employment ceiling is labor requirements as approved by the State WMC Director after consultation with the Manpower Priority Committee for employment in individual establishments at any given time.
- (k) "Manpower priority." A manpower priority is a determination indicating the degree of preference to be accorded to an employer's request for man-

power and the number and types of workers for whom preference is accorded.

(l) "Manpower allowance." A manpower allowance is the total number of additional workers, either by general classification or by category of workers, authorized by the State War Manpower Director for employment in an individual establishment during a given period of time.

SEC. 3. Control of hiring and solicitation of workers. All hiring and solicitation of workers in, or for work in, the New Mexico area shall be conducted in accordance with this employment stabilization program.

SEC. 4. Authority and responsibilities of labor-management committee. The Area Labor-Management War Manpower Committee for the New Mexico area is authorized to consider questions of policy, standards, and safeguards in connection with the administration of this employment stabilization program, and to make recommendations to the Area Manpower Director.

SEC. 5. Encouragement of local initiative, use of existing hiring channels, and special authorization to designated Government agencies. To the maximum degree consistent with this employment stabilization plan and with its objectives, local initiative and cooperative efforts shall be encouraged and utilized and maximum use made of existing hiring channels, such as private employers, labor organizations, professional organizations, schools, colleges, technical institutions, and Government agencies.

Statements of availability may be issued in accordance with this program by the U. S. Civil Service Commission to a worker who is, or most recently was, employed in the departmental or field service of the United States Government, by the Railroad Retirement Board to a worker who is, or most recently was, employed in the railroad industry, by the War Shipping Administration to a worker who is, or most recently was, employed with an employer in the off-shore coastal or inter-coastal Merchant Marine Industry, as authorized by the Chairman of the War Manpower Commission.

SEC. 6. General. A new employee, who during the preceding sixty-day period was engaged in an essential or locally needed activity, may be hired only if such hiring would aid in the effective prosecution of the war. Such hiring shall be deemed to aid in the effective prosecution of the war if:

- (a) Such individual is hired for work in an essential or locally needed activity, or for work to which he has been referred by the United States Employment Service; and,
- (b) Such individual presents a statement of availability from his last employment in an essential or locally needed activity, or is referred by the United States Employment Service of the War Manpower Commission, or is hired with its consent, as provided herein.

SEC. 7. Issuance of statements of availability by employers. An individual whose last employment is, or was, in an

essential or locally needed activity shall receive a statement of availability from his employer if:

- (a) He has been discharged, or his employment has been otherwise terminated by his employer, or
- (b) He has been laid off for an indefinite period, or for a period of seven or more days, or
- (c) Continuance of his employment would involve undue personal hardship, or
- (d) Such employment is, or was, at a wage or salary or under working conditions below standards established by State or Federal law or regulation, or
- (e) Such employment is or was at a wage or salary below a level established or approved by the National War Labor Board (or other agency authorized to adjust wages or approve adjustments thereof) as warranting adjustment, and the employer has failed to adjust the wage in accordance with such level or to apply to the appropriate agency for such adjustment or approval thereof.

SEC. 8. Issuance of statements of availability by the United States Employment Service. With the exception of those workers covered by section 10 of the New Mexico Employment Stabilization Program, a statement of availability shall be promptly issued to an individual under the following conditions:

- (a) If any of the circumstances set forth in section 7 is found to exist and the employer fails or refuses to issue a statement of availability to an individual entitled to such statement, the United States Employment Service of the War Manpower Commission, upon finding that the individual is entitled thereto, shall issue a statement of availability to the individual.
- (b) If the War Manpower Commission finds, after notice, hearing, and final decision, that the employer has not complied with any War Manpower Commission Employment Stabilization Program, regulation, or policy, a statement of availability shall be issued by the United States Employment Service to any individual in the employ of that employer, and for so long as such employer continues his non-compliance after such finding.

SEC. 9. Referral in case of under-utilization. If an individual is employed at less than full time or at a job which does not utilize his highest recognized skill for which there is a need in the war effort, the United States Employment Service may, upon his request, refer him to other available employment in which it finds that the individual will be more fully utilized in the war effort.

SEC. 10. Workers who may be hired only upon referral by the United States Employment Service. Under the circumstances set forth below, a new employee may not be hired solely upon presentation of a statement of availability, but may be hired only upon referral by, or in accordance with, the United States Employment Service:

- (a) If the new employee is a male.
- (b) The new employee is to be hired for work in a critical occupation, or his

statement of availability indicates that his last employment was in a critical occupation.

(c) The new employee has not lived or worked in the locality of the new employment throughout the preceding thirty-day period.

(d) The new employee's last regular employment was in agriculture and he is to be hired for non-agricultural work except after consultation with a designated representative of the War Food Administration, and provided further that such an individual may be hired for non-agricultural work for a period not to exceed six weeks without referral or presentation of a statement of availability.

(e) The new employee is to be hired in a production or maintenance occupation in the non-ferrous metal industry.

(f) A new employee whose statement of availability indicates that his last employment is, or was, in a production or maintenance occupation in the non-ferrous metal or the lumber industry.

SEC. 11. *Ceilings, manpower allowances, and priority referral.* The State Manpower Director may fix for all or any establishments in New Mexico fair and reasonable employment ceilings and allowances, limiting the number of employees or other specified types of employees which such establishments may employ during specified periods. Such ceilings and allowances will be determined on the basis of the establishment's actual labor needs, the available labor supply, and/or the relative urgency of the establishment's products or services to the war effort. Except as authorized by the State Manpower Director, no employer shall hire any new employee for work in such establishment if the hiring of such employee would result in such establishment's exceeding the employment ceilings or allowance currently applicable to it.

SEC. 12. *Exclusions.* No provision of the employment Stabilization Program should be applicable to:

(a) The hiring of a new employee for agricultural employment.

(b) The hiring of a new employee for work of less than seven days' duration, or for work which is supplementary to the employee's principal work, but, such work shall not constitute the individual's "last employment" for the purpose of the program unless the employee is customarily engaged in work of less than seven days duration.

(c) The hiring of an employee in any territory or possession of the United States, except Alaska and Hawaii.

(d) The hiring by a foreign, state, county, or municipal government, or their political sub-division, or other agencies and instrumentalities, or to the hiring of any of their employees unless such foreign, state, county, or municipal government, or political sub-division or agency or instrumentality has indicated its willingness to conform to the maximum extent practicable under the Constitution and laws applicable to it with the program.

(e) The hiring of a new employee for domestic service, or to the hiring of a new employee whose last regular employment was in domestic service.

(f) The hiring of a school teacher for vacation employment or the rehiring of a school teacher for teaching at the termination of the vacation period.

SEC. 13. *Appeals.* Any worker or employer may appeal from any act or failure to act by the War Manpower Commission under the Employment Stabilization Program, in accordance with regulations and procedures of the War Manpower Commission.

Appeals on actions taken with regard to priority adjustments, employment ceilings, or manpower allowances may be made to the State Labor-Management Committee in accordance with established War Manpower Commission regulations and procedures.

SEC. 14. *Content of statements of availability.* A statement of availability issued to an individual pursuant to the program shall contain only the individual's name, address, social security account number, if any, the name and address of the issuing employer, or War Manpower Commission officer and office, the date of issuance, a statement as to whether or not the individual's last employment was in a critical occupation, and such other information not prejudicial to the employee in seeking new employment as may be authorized or required by the War Manpower Commission.

SEC. 15. *Solicitation of workers.* No employer shall advertise or otherwise solicit for the purpose of hiring any individual if the hiring of such an individual would be subject to restrictions under this Employment Stabilization Program except in a manner consistent with such restrictions.

SEC. 16. *Hiring.* The decision to hire or refer a worker shall be based on qualifications essential for performance of or suitability for the job, and shall be made without discrimination as to race, color, creed, sex, national origin, or except as required by law, citizenship.

SEC. 17. *Representation.* Nothing contained in the program shall be construed to restrict any individual from seeking the advice and aid of, or from being represented by the labor organization of which he is a member or any other representative freely chosen by him, at any step in the operation of the program.

SEC. 18. *General referral policies.* No provision in the program shall limit the authority of the United States Employment Service to make referrals in accordance with approved policies and instructions of the War Manpower Commission.

SEC. 19. *In-plant manpower utilization.* Employers shall make every reasonable effort to obtain the most effective utilization of their manpower through; the reduction of excessive turnover and absenteeism; the application of necessary in-plant training programs; the utilization of workers' skills through upgrading, transfer, or job simplification; the elimination of restrictive hiring practices, the maximum utilization of women, physically handicapped persons,

and minority groups; and, the establishment of such other programs as may be recommended by the State Director or his designated representative.

SEC. 20. *Information and reports.* Employers shall make available to the State Director or his designated representative such information and reports as may be required to effectively administer the Stabilization Program.

SEC. 21. *Amendment of plan.* This plan may be amended at any time after consultation with the New Mexico State Labor-Management Committee upon approval by the Regional Director of the War Manpower Commission.

SEC. 22. *Effective date.* All other stabilization programs in New Mexico shall become inoperative on the effective date of this program, July 1, 1944.

Dated: January 20, 1945.

PEORIA-PEKIN, ILL., AREA MINIMUM WARTIME WORKWEEK

Designation of the Peoria-Pekin, Illinois, labor market area as subject to Executive Order No. 9301.

By virtue of the authority vested in me as Regional Manpower Director of Region VI by § 903.2 of War Manpower Commission Regulation No. 3, "minimum wartime workweek of 48 hours," and having found that such action will aid in alleviating labor shortages which are impeding the war effort, I hereby designate the Peoria-Pekin, Illinois, labor market area as subject to the provisions of Executive Order No. 9301.

1. For the purpose of this designation, the Peoria-Pekin, Illinois, labor market area includes the following counties: Marshall, Mason, Peoria, Tazewell and Woodford.

2. The effective date of this designation is May 1, 1945.

3. Not later than the effective date, each employer in the designated areas shall, in accordance with War Manpower Commission Regulation No. 3:

(a) Extend to a minimum wartime workweek of 48 hours, the workweek of any of his workers whose workweek can be so extended without involving the release of any worker;

(b) If extension of the workweek of any of his workers to a minimum wartime workweek of 48 hours would involve the release of any workers, submit to the Area Manpower Director the number and occupational classification of the workers whose release would be involved, together with proposed schedules for their release, and thereafter extend such workweek when and as directed in schedules authorized by the War Manpower Commission;

(c) File an application for a minimum wartime workweek of less than 48 hours for those workers engaged in employment in which the employer claims that a workweek of 48 hours would be impracticable in view of the nature of the operations, would not contribute to the reduction of labor requirements, or would conflict with any Federal, State or local law or regulation limiting hours of work.

"Minimum wartime workweek" as used in this order means a workweek of 48 hours, except in cases where a workweek of 48 hours (a) would be impracticable in view of the nature of the operations, (b) would not contribute to the reduction of labor requirements, or (c) would conflict with any Federal, State or local law or regulation limiting hours of work. In such cases, "minimum wartime workweek" means the greatest number of hours (less than 48) feasible in the light of the nature of the operations, the reduction of labor requirements or the applicable Federal, State and local law or regulation, as the case may be.

Date of issuance: April 3, 1945.

W. H. SPENCER,

*Regional Director, Region VI,
War Manpower Commission.*

MIDDLETOWN, CONN., AREA

EMPLOYMENT STABILIZATION PROGRAM

The employment stabilization program for the Middletown Area, effective October 11, 1943, is hereby amended in the following respects:

Section 16 of said program is hereby amended by inserting the following paragraph as the second paragraph of section 16, thereby making the present second paragraph the third paragraph thereof:

The Area Manpower Director may fix for all or any establishments in the Middletown Area, fair and reasonable employment ceilings and allowances, limiting the number of employees or other specified types of employees which such establishments may employ during specified periods. Such ceilings and allowances will be determined on the basis of the establishment's actual labor needs, the available labor supply, and/or the relative urgency of the establishment's products or services to the war effort. Except as authorized by the Area Manpower Director, no employer shall hire any new employee for work in such establishment if the hiring of such employee would result in such establishment's exceeding the employment ceiling or allowance currently applicable to it.

WILLIAM J. CRONIN, Jr.,
Area Director.

Approved: March 31, 1945.

ARTHUR C. GERNES,
Regional Director.

SECTION 1. Purpose. The purpose of this employment stabilization program is to assist the War Manpower Commission in bringing about, by measures equitable to labor and management and necessary for the effective prosecution of the war:

- (a) The elimination of wasteful labor turnover in essential activities.
- (b) The reduction of unnecessary labor migration.
- (c) The direction of the flow of scarce labor where most needed in the war program.
- (d) The maximum utilization of manpower resources.

SEC. 2. Definitions. For the purpose of this employment stabilization program:

- (a) The "Alaska Area" is the area comprised of the Territory of Alaska.
- (b) "Agriculture" means those farm activities carried on by farm owners or tenants on farms in connection with the cultivation of the soil, harvesting of crops, or the raising, feeding, or management of livestock, bees and poultry, and shall not include any packing of articles produced on farms unless performed or carried on as an incident to ordinary farming operations as distinguished from manufacturing or commercial operations.
- (c) "New employee" means any individual who has not been in the employment of the hiring employer at any time during the preceding 30-day period. For the purpose of this definition, employment of less than seven days duration and employment which is supple-

mental to the employee's principal work shall be disregarded.

(d) "Critical occupation" means any occupation designated as a critical occupation by the Chairman of the War Manpower Commission.

(e) "Shortage occupation" means any occupation designated as a shortage occupation by the Alaska Manpower Director.

(f) "Essential activity" means any activity included in the War Manpower Commission List of Essential Activities. (9 F.R. 3439)

(g) "Locally needed activity" means any activity approved by the Regional War Manpower Director as a locally needed activity.

(h) The terms "employment" and "work" as applied to an individual engaged in principal and supplementary employment means his principal employment.

SEC. 3. Control of hiring and solicitation of workers. All hiring and solicitation of workers in, or for work in, the Alaska Area shall be conducted in accordance with this employment stabilization program.

SEC. 4. General. A new employee, who during the preceding 60-day period was engaged in an essential or locally needed activity, may be hired if such hiring would aid in the effective prosecution of the war. Such hiring shall be deemed to aid in the effective prosecution of the war only if:

(a) Such individual is hired in an essential or locally needed activity or for work to which he has been referred by the United States Employment Service, and

(b) Such individual presents a statement of availability from his last employment in an essential activity or is referred by a War Manpower Commission representative or is hired with its consent as provided herein.

SEC. 5. Issuance of statement of availability. An individual whose last employment is or was in an essential or locally needed activity shall be entitled to a statement of availability if:

(a) He has been discharged, or his employment has been otherwise terminated by his employer,

(1) However, when a worker wilfully provokes his own discharge for the purpose of obtaining a statement of availability, he shall be deemed to have voluntarily quit within the meaning of this section. All such cases will be reviewed by War Manpower Commission representatives.

(b) He has been laid off for an indefinite period, or for a period of seven or more days, or

(c) Continuance in his employment would involve undue personal hardship, or

(d) Such employment is or was at a wage or salary or under working conditions below standards established by State or Federal law or regulation, or

(e) Such employment is or was at a wage or salary below a level established or approved by the National War Labor Board (or other agency authorized to

adjust wages or approve adjustments thereof) as warranting adjustment, and the employer has failed to adjust the wage in accordance with such level or to apply to the appropriate agency for such adjustment or approval thereof.

SEC. 6. Non-compliance by employers. A statement of availability shall be issued by the United States Employment Service to any individual in the employ of an employer who the War Manpower Commission finds, after notice, hearing and final decision, has not complied with any War Manpower Commission employment stabilization program, regulation or policy, and for so long as such employer continues his non-compliance after such finding.

SEC. 7. Referral in case of under-utilization. If an individual is employed at less than full time or at a job which does not utilize his highest recognized skill for which there is need in the war effort, the United States Employment Service may, upon his request, refer him to other available employment in which it finds that the individual will be more fully utilized in the war effort.

SEC. 8. Manpower priorities and ceilings. Any decision of the Alaska Manpower Director as to manpower priorities dealing with the supply and allocation of labor and with employment ceilings placed on labor shall be binding under this program. No employer shall employ any worker in excess of the number allotted him under such manpower allowances or employment ceilings as the Alaska Manpower Director shall from time to time establish.

SEC. 9. Workers who may be hired only upon referral by the United States Employment Service. Subject to such arrangements as the Alaska Manpower Director with the approval of the Regional Director may make, a new employee who is a male worker may not be hired solely upon presentation of a statement of availability but may be hired only upon referral by the United States Employment Service or through such other channels as may be authorized by the War Manpower Commission.

A new employee may not be hired solely upon presentation of a statement of availability, but may be hired only upon referral by, or in accordance with arrangements with, the United States Employment Service when:

(a) The new employee is to be hired for work in a critical occupation or a shortage occupation, or his statement of availability indicates that his last employment was in a critical occupation, or a shortage occupation;

(b) The new employee has not lived or worked in the locality of the new employment throughout the preceding 30-day period;

(c) The new employee's last regular employment was in agriculture and he is to be hired for non-agriculture work, *Provided*, That no such individual shall be referred to non-agriculture work except after consultation with a designated representative of the War Food Administration, *And provided*, That such

an individual may be hired for non-agricultural work for a period not to exceed six weeks without referral or presentation of a statement of availability.

SEC. 10. Release of workers hired contrary to program. Any employer shall, upon written request of the United States Employment Service, release from employment any worker whom it has hired contrary to the provisions of this program.

SEC. 11. Limited statements of availability. Limited statements of availability, specifying a particular date on which employees shall be returned to their previous employer, shall be issued by a War Manpower Commission representative whenever, in the judgment of the area manpower director, the best interests of the war effort will be served by such action, *Provided*, That such action is agreeable to both the employer and the employee involved.

SEC. 12. Exclusions. No provisions of the employment stabilization program shall be applicable to:

(a) The hiring of a new employee for agricultural employment;

(b) The hiring of a new employee for work of less than seven days' duration, or for work which is supplementary to the employee's principal work; but such work shall not constitute the individual's "last employment" for the purpose of the program, unless the employee is customarily engaged in work of less than seven days' duration;

(c) The hiring of an employee in any Territory or possession of the United States, except Alaska and Hawaii;

(d) The hiring by a foreign, State, county, or municipal government, or their political sub-divisions or their agencies and instrumentalities, or to the hiring of any of their employees, unless such foreign, State, county, or municipal government or political sub-division or agency or instrumentality has indicated its willingness to conform, to the maximum extent practicable under the Constitution and laws applicable to it, with the program;

(e) The hiring of a new employee for domestic service, or to the hiring of a new employee whose last regular employment was in domestic service;

(f) The hiring of a school teacher for vacation employment or the rehiring of a school teacher for teaching at the termination of the vacation period.

SEC. 13. Appeals. Any worker or employer may appeal from any act or failure to act by the War Manpower Commission under the employment stabilization program, in accordance with regulations and procedures of the War Manpower Commission.

SEC. 14. Contents of statements of availability. A statement of availability is a written statement on a form prescribed by the War Manpower Commission. USES Form 508 may be used in lieu of a statement of availability.

A statement of availability issued to an individual pursuant to the program shall contain only the individual's name, address, social security account number, if

any, the name and address of the issuing War Manpower Commission officer and office, the date of issuance, a statement as to whether or not the individual's last employment was in a critical occupation, and such other information not prejudicial to the employee in seeking new employment as may be authorized or required by the War Manpower Commission.

SEC. 15. Retention of statement of availability or referral card by employer. Each employer, upon hiring a worker upon the presentation of a statement of availability or referral card, shall retain and file such statement and shall make such statement or referral card available for inspection on request of the War Manpower Commission.

SEC. 16. Solicitation of workers. No employer shall advertise or otherwise solicit for the purpose of hiring any individual if the hiring of such an individual would be subject to restrictions under the employment stabilization program, except in a manner consistent with such restrictions.

SEC. 17. Hiring and discharge. (a) The decision to hire or refer a worker shall be based on qualifications essential for performance of or suitability for the job, and shall be made without discrimination as to race, color, creed, sex, national origin, or, except as required by law, citizenship.

(b) Whenever the War Manpower Commission determines, after notice, hearing and final decision, that an employer engaged in an essential or locally needed activity is failing to obtain full utilization of his work force because of his practice of discharge or laying off his workers arbitrarily and without good cause, the employer shall be considered in violation of this program, and the United States Employment Service shall issue a statement of availability to any of his workers and shall refer no worker to the employer until the War Manpower Commission receives satisfactory assurance that such discharge or lay-off practices have been discontinued.

SEC. 18. Employee to remain on the job while awaiting statement of availability. While the employee's case is being reviewed by a War Manpower Commission representative, the employee should remain on the job. The reason for this is obvious. Manpower is at a premium and the best interests of the war effort can only be served by each and every worker devoting all possible time to the job.

SEC. 19. Representation. Nothing contained in the program shall be construed to restrict any individual from seeking the advice and aid of, or from being represented by, the labor organization of which he is a member or any other representative freely chosen by him, at any step in the operation of the program.

Nothing contained in this program shall be construed to change, modify, or restrict any existing agreement between any employee or group of employees or their duly designated representatives and his or their employer.

SEC. 20. *General referral policies.* No provision in the program shall limit the authority of the United States Employment Service to make referrals in accordance with the approved policies and instructions of the War Manpower Commission.

SEC. 21. *Authority and responsibilities of labor-management committees.* The local and area Labor-Management War Manpower Commission Committees are hereby authorized to consider questions of policy, standards, and safeguards in connection with the establishment and administration of the employment stabilization programs and to make recommendations to the Alaska Manpower Director. Local and area committees are hereby authorized to hear and decide appeals. Local and area committees shall be composed of equal representation of Labor and Management.

SEC. 22. *Special procedure in areas not accessible to U. S. Employment Service Offices.* An employer engaged in an essential or locally needed activity and whose actual operations are carried on at a location not convenient to a local office of the U. S. Employment Service may be specifically authorized by a War Manpower Commission representative to employ workers who do not have a statement of availability, or a USES Form 508, on a tentative basis, subject to verification and approval of the retention of such workers by the War Manpower Com-

mission. Each employer who is so authorized to employ workers on a tentative basis shall require any prospective employee to fill out, before actually being hired, a record of tentative hire form as shown herewith, unless the applicant presents to the employer a statement of availability, or an official U. S. Employment Service referral card, and shall forward the completed record of tentative hire to the local office of the U. S. Employment Service serving that employer, within three days after the worker is hired. There should also be transmitted along with said form such separation notice or other evidence of termination that the employee may have in his possession. The U. S. Employment Service shall, immediately upon the completion of necessary review and investigation, advise the employer if the tentative employment of such individual is to be approved or disapproved. Approval shall be indicated by furnishing said employer with an official U. S. Employment Service referral card for such person. Disapproval shall be indicated by written notice to the employer. Upon receipt of a disapproval notice, it shall be the duty of the employer to immediately separate from employment the individual concerned and to direct him to the local office of the U. S. Employment Service. Failure on the part of the employer to comply with the notice to terminate shall be deemed to be an action contrary to the provisions of this program.

SEC. 23. *Enforcement of program.* A worker who has been denied a release and who has not received a statement of availability or Form USES-508 is not eligible for further employment in either the Alaska Area or any area in the continental United States for a period of sixty consecutive days dating from the date of separation from essential employment.

Violations of this program which constitute violations of War Manpower Commission Regulation No. 4 as amended August 16, 1943, issued pursuant to Executive Order 9328, are subject to the penal provisions of the act of October 2, 1942 (Pub. No. 729, 77th Cong.); the provisions of § 4001.10 of the Regulations of the Economic Stabilization Director issued October 27, 1942, apply to all wages or salaries paid in violation of Regulation No. 4.

SEC. 24. *Effective date.* This program shall become effective March 1, 1945.

Dated: March 3, 1945.

A. A. HEDGES,
Alaska Manpower Director.

Approved: March 26, 1945.

F. W. HUNTER,
Regional Director.
